Revealed Truths: Nature-Driven Signs and Pure Sciences Unmixed with Modern Technologies

Jamir Ahmed Choudhury

Author of 23 Books with ISBN and 10 Scientific Research Papers with ISSN

Abstract: ***A mechanism can be categorized as nature-driven or human-driven. Nature-driven mechanism like natural magnetism [prakkritik chumvak] is called science [creation and evolution]. Human-driven mechanism like man-made magnetism [krittim chumvak] is called technology [invention and model building]. What is true by lamplight [human-driven mechanism or technology] is not always true by sunlight [nature-driven mechanism or science]. Nature-driven mechanisms are systems and processes that are self-sustaining and operate independently of human intervention and in consistent with the apriori universal principles [fundamental laws of nature] like equal & opposite apriori principle [creation in pairs]. Sirius binary system [samawaati wal-arz], Algol triple star system [nuurun alaa nuur], regular eclipsing binaries [shakkaras-shamsa], binary pulsar [relation between electromagnetic waves (tarash-shamsa) and gravitational waves (bish-shamsi)], Newton's visual binaries [two Moons], cataclysmic variables [sporadic appearances of the white moon during broad daylight under natural circumstances], and 3-dimensional elliptical orbit viewed from 2-dimensional perspective [odd and even contrast] etc. are the examples of un-manipulated & authentic data-based revealed truths [pure sciences unmixed with modern technologies]. Human-driven mechanisms are systems or processes designed, implemented, and controlled by humans to achieve specific goals. These systems are the result of deliberate human effort through invention and innovation [model building]. Global framework, global standard solar system with eight officially recognized rotating & revolving global planets, man-made natural magnetism [krittim prakkritik chumvak], Greenwich Meridian, projected Kaaba at the centre of the rotating & revolving global earth, qibla compass, global space station, NASA's Moon and Chandrayaan etc. which involve complex engineering and technical understanding are the examples of universally accepted & well established data-based global sciences. The distinction highlights that nature-driven sovereign sciences [universal truths or revealed truths] and universally accepted & well-established human-driven global technologies [universally accepted truths or well-established falsehoods] operate under different governing principles – apriori universal principles versus well-established global standard theories, and are not interchangeable.***

Paradigm Shift

Science progresses through revolutions and shifts in dominant paradigms. During these transitions, well-established hypothesis [probable theory or contingent knowledge] that was once considered **true** can be challenged or replaced, leading to a new verifiable & justifiable knowledge [tautology]. That means a paradigm shift is a fundamental transformation in the basic concepts and practices of a scientific discipline, introduced by Thomas Kuhn in "The Structure of Scientific Revolutions". During a paradigm shift, anomalies accumulate, challenging the prevailing paradigm and replacing it with a new one.

Manipulated Data and Misleading Information: Vera causa [real causes] of human sufferings since antiquity are nothing but universally accepted manipulated data [human-driven global standard natural sciences or subjective self-contradictions & objective paradoxes] and well-established misleading information [logical shortcomings & illogical facts]. While natural phenomena introduce inherent complexity and unpredictability into the world, human actions, motivations, and cognitive biases—which drive human mechanisms—also shape our perception and dissemination of information, leading to distortions and the spread of misinformation. This interaction creates a dynamic environment where both objective reality and subjective

interpretation contribute to the pervasive presence of both truth and falsehood in human discourse and understanding.

- **Post-Truth Environment:** The current intellectual climate prioritizes personal beliefs and emotional appeal over objective facts, making it difficult to discern truth from falsehood.
- **Psychological Vulnerabilities:** People can be susceptible to false information, especially when it aligns with their existing beliefs, and may use mental shortcuts (heuristics) instead of careful reasoning.
- **Cognitive Biases:** Global Scientists, like all humans, are subject to cognitive biases that can influence their interpretation of data and development of theories, leading to the incorporation of falsehoods into their understanding.
- **Personal Beliefs and Agendas:** Individual scientists may have personal beliefs, political motivations, or career ambitions that can lead to the misrepresentation or biased selection of evidence, even subconsciously.
- **Ideological Framing:** Societal ideologies and power structures can influence what questions are asked, how 'scientific temper' [search for truth] is conducted, and how scientific findings are interpreted and disseminated to the public, creating a biased lens through which knowledge is perceived.
- **Media and Public Perception:** The media's portrayal of scientific topics can often simplify complex issues, leading to public misconceptions and the widespread acceptance of misleading information.
- **Misleading Information Online:** The proliferation of information online, including content that mimics scientific authority, makes it challenging to distinguish genuine science from pseudo-science.
- **Subjectivity in Art and Culture:** While science aims for objectivity, human motivation and choices in various fields, including art and social sciences, are deeply rooted in truth and falsehood, adding layers of subjectivity to the human pursuit of understanding.
- **Disinformation Tactics:** Propaganda units and other entities can create the appearance of fact-checking or scientific legitimacy, but their actual goal is to manipulate and deceive.
- **The Demarcation Problem:** A key challenge for philosophy and society is defining the boundary between legitimate scientific knowledge and non-scientific or pseudo-scientific claims.
- **Cognitive Biases:** Human psychology is prone to cognitive biases, such as confirmation bias and the illusory truth effect, which lead individuals to favor information that confirms their existing beliefs and accept repeated statements as true.
- **Social Dynamics:** Social interactions and cultural frameworks influence how truth is understood and communicated. Societal pressures, the pursuit of power, and the formation of different conceptual frameworks can shape narratives and promote certain beliefs over others.
- **Intentional Deception:** Deliberate efforts to mislead and manipulate, such as propaganda or spreading misinformation, are significant human-driven mechanisms that directly contribute to the proliferation of falsehoods.

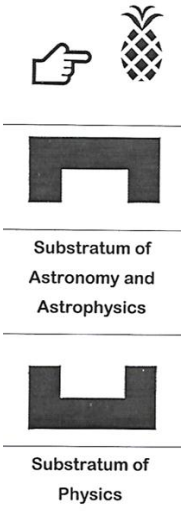
- Student: What is this?
- Teacher: This is a pineapple.
- Student: What is a pineapple?
- Teacher: A pineapple is a fruit.
- Student: What is a fruit?
- Teacher: A fruit is a substance.
- Student: What is a substance?
- Teacher**:** A substance is a substratum.
- Student**:** What is a substratum?
- Teacher**:** A substratum is the container of all the properties of substance.
- Student**:** How many kinds of substratum are there?
- Teacher**:** There are two kinds of substratum – substratum of physics [material ground or arz] and substratum of astronomy and astrophysics [formal ground or samawaat].



- Student: What is the substratum of astronomy and astrophysics?
- Teacher: White dwarf companion sirius B [west horizon or samawaat] is the substratum of astronomy and astrophysics.
- Student: What is the substratum of physics?
- Teacher: Main sequence sirius A [east horizon or arz] is the substratum of physics.
- Student: What are the nature-driven signs [marks of manifest truth] & scientific proofs [empirically verifiable data] of the white dwarf companion Sirius B [west horizon or samawaat]?
- Teacher: Galaxy of approximately 124000 stars
- Student: What are the nature-driven signs [marks of manifest truth] & scientific proofs [empirically verifiable data] of the main sequence Sirius A [east horizon or arz]?
- Teacher: Mountains, land and seas
- Student: What is the ultimate substratum of both main sequence Sirius A [arz] and white dwarf companion Sirius B [samawaat]?
- Teacher: Universe [Aalamin or Sirius] is the ultimate substratum of both main sequence Sirius A [Arz] and white dwarf companion Sirius B [Samawaat]. So, the universe [aalamin] is a Sirius Binary System [Samawaati wal-Arz].

Universe is a mighty star called Sirius. That mighty star is an intrinsically luminous star called Diamond Operator.

Universe was revealed as a trinity three minutes after BIG BANG [First: Kun – Fayaakun]. That revelation was an equal & opposite revelation. So, the revealed universe is called binary star system.

Equator [Horizontal Line] divides the universe into two horizons. Two horizons are west horizon [samawaat] and east horizon [arz]. Horizontal Line **[—]**

- The part of the universe above [🡅] the horizontal line [equator] is called the west horizon [samawaat].
- The part of the universe below [🡇] the horizontal line [equator] is called the east horizon [arz].
- The appointed Kaaba [on the right-side of the Mount Tuur and in the upright-west region of Arabian Peninsula] is called the tallest tree of Newton. The appointed Kaaba [tallest tree of Newton] is a standard [Imaam] for mankind. It stands for the upright rectangular universe [Helium-4]. It also stands for the universal justice [balance between equal & opposite creation and corresponding manifestation]. So, the upright rectangular Kaaba [appointed on the right-side of the Mount Tuur and in the upright-west region of Arabian Peninsula] is called the **Prime Meridian** [Rabbun Gafuur].

- Perpendicular [Vertical or Upright] Line [|] stands for the Prime Meridian [Rabbun Gafuur]. That means the Upright Prime Meridian [|] stands for Justice [balance between equal & opposite].
- Equal & opposite left [shimal] of the prime meridian [|➔] and right [yamin] of the observer facing towards the prime meridian [appointed Kaaba] is called northern hemisphere [aphelion or haiyalas-swalaah or back border of the appointed daylight]. [Reference: Right-hand Rule]
- Equal & opposite right [yamin] of the prime meridian [🡐|] and left [shimal] of the observer facing towards the prime meridian [appointed Kaaba] is called southern hemisphere [perihelion or haiyalal-falaah or border of the appointed daylight]. [Reference: Right-hand Rule]
- Manifested upright rectangular universe has two horizons and two hemispheres. So, the manifested upright rectangular universe is called Helium-4. [Reference: UNO's 'End of Proof']

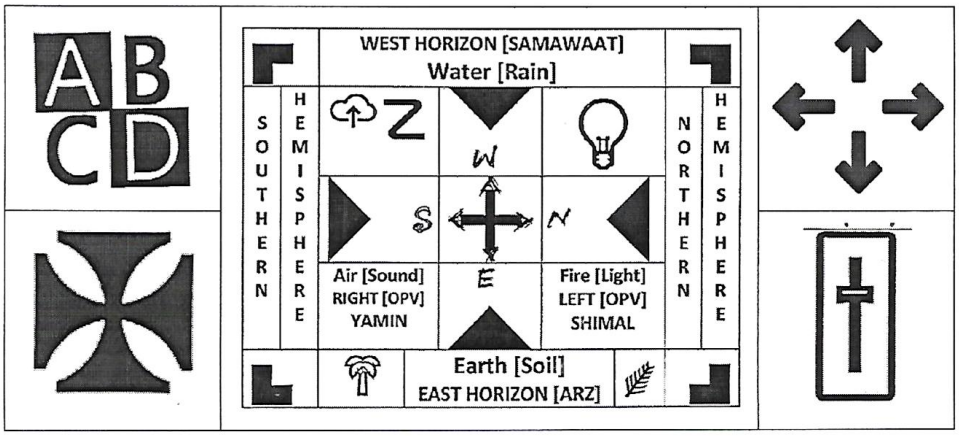
- Helium-4 [Upright Rectangular Universe] has **two horizons** [east horizon (arz or gravitational field or C and D) and west horizon (samawaat or strong field or A and B)] **and two hemispheres** [northern hemisphere (haiyalas-swalaah or magnetic field or E-Point or back border of Einstein's electromagnetic wave (tarash-shamsa) or B and D] and southern hemisphere [haiyalal-falaah or weak field or T-Point or border of Einstein's electromagnetic wave (tarash-shamsa) or A and C].



- Helium-4 [upright rectangular universe] has **four basic fields.** These are equal & opposite gravitational field [C and D] and strong field [A and B] as well as equal & opposite magnetic field [B and D] and weak field [A and C].
- Helium-4 [upright rectangular universe] has **four gross elements**. These are earth [soil], water [rain], fire [light], and air [wind].
- Helium-4 [upright rectangular universe] has **four basic forces**. These are equal & opposite gravitational force [🡻] and strong force [🡹] as well as equal & opposite weak force [🡸|] and magnetic force [|🡺].
- Helium-4 [upright rectangular universe has **four cardinal directions**. These are equal & opposite east [🡻] and west [🡹] as well as equal & opposite south [🡸|] and north [|🡺].
- **Crucial Instance:** Crucified Sign is the crucial instance regarding two horizons and two hemispheres, four basic fields, four gross elements, four basic forces, and four cardinal directions of Helium-4 [upright rectangular universe].
- Stars are the nature-driven signs [marks of manifest truth] and empirically verifiable proofs of the white dwarf companion Sirius B [west horizon or samawaat or strong field] of the upright rectangular universe [Helium-4].
- Mountains, land, and seas are the nature-driven signs [marks of manifest truth] and empirically verifiable proofs of the main sequence Sirius A [east horizon or arz or gravitational field] of the upright rectangular universe [Helium-4].
- Regular eclipsing binaries [shakkaras-shamsa] are the nature-driven signs [marks of manifest truth] and empirically verifiable proofs of the two natural light posts [weak field (border or south galactic pole) and magnetic field (back border or north galactic pole)].

- **Proper Logical Method [Dictum De Omni Et Nullo]:** The dictum presupposes that the major premise [foundational framework] must be universal and the minor premises [nature-driven signs and particular instances under natural settings and un-manipulated conditions] must be affirmative.
- **Universal Major Premise [Foundational Framework]:** 'Creation in Pairs' [Equal & Opposite Revelation] is the Universal Major Premise [Foundational Framework] of the Dictum. So, 'Equal & Opposite' is the Apriori Framework of Nature-driven Sovereign Sciences like Sirius Binary System [Samawaati wal-Arz] and Algol Triple Star System [Nuurun Alaa Nuur].

- Human-driven technologies do not have any sort of authority over 'creation in pairs' [equal & opposite apriori framework or binary star system] and corresponding manifestations like Sirius Binary System [Samawaati Wal-Arz] and regular eclipsing binaries [shakaras-shamsa].
- The UN-led globalization [universally accepted & well-established global framework of this equal & opposite manifested nature] cannot be the universal major premise [foundational framework] of the dictum. Einstein's Binary Pulsar

Just as **accelerating charges can emit electromagnetic waves**, **accelerating masses can emit gravitational waves**. However gravitational waves are difficult to detect because they are very weak and no conclusive evidence has yet been reported for their direct observation. *They have been observed **indirectly** in the binary pulsar*. Because the arrival time of pulses from the pulsar can be measured very precisely, it can be determined that the period of the binary system is gradually decreasing.

The **electromagnetic field can have waves** in it that carry energy and that we call **light** [Visible Daylight or Polarized Light]. Likewise, the **gravitational field** can have waves that carry energy and are called ***gravitational waves***. These may be thought of as **ripples** [wax feeble energies] **in the curvature of space-time that travel at the speed of light**.

Einstein's theory predicts that **the direction of light propagation** [electromagnetic wave] **should be changed** in a gravitational field, contrary to the Newtonian predictions. Precise observations indicate that Einstein is **right**, both about the effect and its magnitude. A striking consequence is **gravitational lensing**.

- It is being taught that the magnetic field is called North. So, the weak field is called South.
- We know that an apple falls from the tree towards gravitational field [arz] due to gravitational force [Ref. Newton's Law of Gravitation]. So, an apple falls from the

tree neither towards South [weak field] nor towards North [magnetic field].

- It is self-evident [crystal clear] that an apple falls from the tree towards East [gravitational field or arz]. So, rain comes from the West [strong field or samawaat].

Two East and Two West

- There are two horizons of the manifested upright rectangular universe [Helium-4]: East Horizon [main sequence Sirius A or Arz] and West Horizon [white dwarf companion Sirius B or Samawaat].
- There are two zones within the East Horizon [Sirius A or Arz] of the upright rectangular universe [Helium-4]: East Zone [lower seashore] and West Zone [upper seashore].
- So, there are two East and two West.
- **Two East:** East Horizon [main sequence Sirius A or Arz] of the upright rectangular universe [Helium-4] and East Zone [lower seashore or mashriq or eastern part of the land] within the East Horizon [main sequence Sirius A or Arz] of the manifested universe [Helium-4]
- **Two West:** West Horizon [white dwarf companion Sirius B or Samawaat] of the upright rectangular universe [Helium-4] and West Zone [upper seashore or magrib or western part of the land] within the East Horizon [main sequence Sirius A or Arz] of the manifested universe [Helium-4].

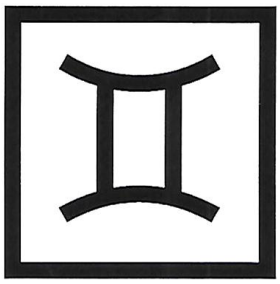
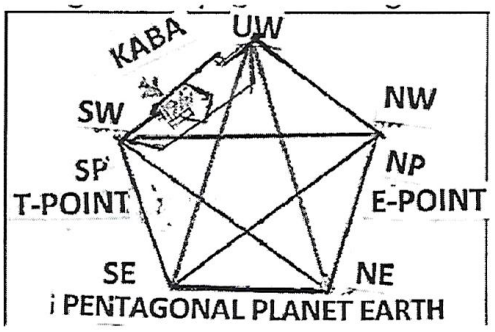
Prime Meridian within the East Horizon	Pentagonal Planet Earth like 9/11 Pentagon
	




- Appearing pentagonal planet earth like 9/11 Pentagon [Star Operator or Spider's Web] has three ascending stairs [superscripts].
- There is only one stair [ground stair or Kepler's minor axis or Tiin or Township] in the East Zone [lower seashore or zone of Ravana or danger zone].
- There are two stairs [middle stair (Kepler's semi-major axis or Zaytuun or Median) and mountain top stair (Kepler's major axis or Tuur or City)] in the West Zone [upper seashore or Ram Rajya or safe zone].
- So, there is an odd & even contrast in the ascending stairs [superscripts] of the appearing pentagonal planet earth like 9/11 Pentagon [Star Operator or Spider's Web or Star Emoji].

Natural Magnetism [Sent Forward and Kept Back]

- **Creation in Pairs:** Equal & opposite is the unalterable law of nature [apriori universal principle]. This unalterable law of nature [apriori universal principle] has been established as Newton's Third Law – "Equal & Opposite" [reciprocal action – reaction]. We are to remember that "equal & opposite" [creation in pairs] is the apriori framework of nature-driven sovereign sciences like Sirius Binary System [Samawaati Wal-Arz], Regular Eclipsing Binaries [Shakaras-Shamsa], and Natural Magnetism [Sent forward from North (Magnetic Field) to South (Border) and Kept back from South (Weak Field) to North (Back Border)].
- **The First Form of revelation is called creation. The subsequent form of creation is called evolution. Invented mechanism is called Technology.**
- **Mechanism** is of two kinds – natural mechanism and man-made mechanism. Natural mechanism such as Algol Triple Star System [Nuurun Alaa Nuur] is called Science. Man-made mechanism such as universally accepted & well-established global planetary system is called Technology. What is true by lamplight [technology] is not always true by sunlight [science]. Human-driven technologies like globalization, rotating & revolving global universe, revolving global world, rotating global earth, solar universe, global planetary system, Greenwich Meridian, appointed Kaaba at the centre of the UN-led globalization, Middle-East Region of the Appointed Kaaba, Upright-West Region of Eartha 3D, man-made natural magnetism, qibla finder, qibla compass, two North and two South, NASA's Moon and Chandraayan etc. are vitiated by the well-established fallacies like subjective self-contradictions & objective paradoxes, logical shortcomings & illogical facts, petitio principii, post hoc ergo propter hoc, plurality of causes, non-observation of instances, non-observation of essential circumstances, universal mal-observation, characteristic imperfection, practical imperfection, vagueness, ambiguity, absurdity, universal exploitation, universal abetment, evidence sorcery, epistemic persecution, conscious conspiracy, manifest hypocrisy, cultured terrorism, civilized activism, and intellectual crimes etc. None is able to prove fallacious human-driven global technologies as nature-driven sovereign sciences and revealed [created & manifested] truth.
- **Similarly,** magnetism is of two kinds – Natural Magnetism [**Prakkritik Chumvak**] and Man-made Magnetism [**Krittim Chumvak**]. At present **human-driven magnetism** [**krittim chumvak**] like qibla indicator and qibla compass is being propagated openly & publicly and everywhere [including educational institutions and research institutions] **as if nature-driven magnetism** [**prakkritik chumvak**]. Consequently, we know nothing about nature-driven signs, un-interfering natural mechanism, and un-manipulated directions of natural magnetism [**two Natural Light Posts**: North Galactic Pole and South Galactic Pole] after having known much about universally accepted & well-established global standard technologies like rotating global earth, revolving global world, rotating & revolving global universe, global planetary system, appointed Kaaba at the centre of the UN-led globalization, Middle-East

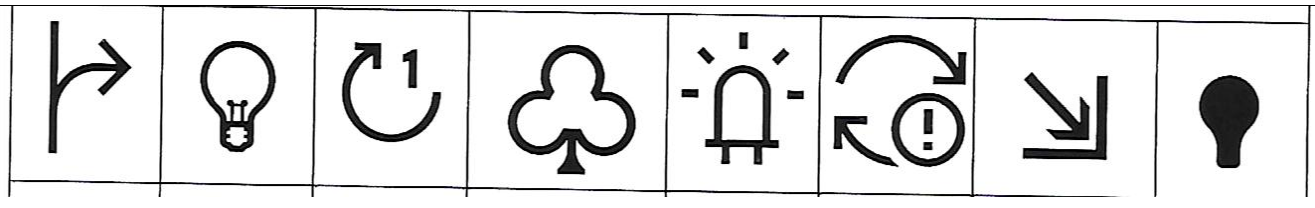
Region of the appointed Kaaba, Upright-West Region of Eartha 3D, Greenwich Meridian, NASA's Moon, Chandraayan, man-made natural magnetism [krittim prakkritik chumvak], and qibla compass etc.. We even do not know the appointed daylight [tarash-shamsa or so-called Sun] is the nature-driven sign of natural magnetism [prakkritik chumvak]. Consequently, we are failing to recognize two Galactic Pole [natural light posts], northern hemisphere [haiyallas-swalaah or aphelion] and southern hemisphere [haiyalal-falaah or perihelion], magnetic field [back border] and weak field [border], left [shimal] and right [yamin] of the prime meridian [appointed Kaaba], alteration of day and night, and infallible & unerring statistics regarding alteration of day and night in a day. Concerned ministers, eminent experts, competent authorities, and religious scholars are unaware of four basic fields – four basic forces – four gross elements – four cardinal directions and two East and two West of the upright rectangular universe [Helium-4]. Consequently, they have been failing to face school level class – II standard task since the 26th September, 2016. It is self-evident that they know nothing about their inborn rights which are established as fundamental human rights under UDHR – 1948 after having known much about inborn rights of the non-human persons of Peter Singer. **References of Un-manipulated & Authentic Proofs:** Annexure – II to Annexure – XIII (Pages – 167 to 585) of 'PIL Education' (Apriori Science & Human Rights) with ISBN: 979-8-88606-684-5 and seized by the Hailakandi Police with reference to Hailakandi P. S. Case No. 162/2022, Assam, India

- The so-called Sun [appointed daylight or electromagnetic wave or tarash-shamsa] is the manifested sign of natural magnetism [prakkritik chumvak]. Equal & opposite stages of journey of the so-called Sun [appointed daylight or electromagnetic wave or tarash-shamsa] is the scientific proof [empirically verifiable data] of the two Galactic Poles [North Galactic Pole and South Galactic Pole] and natural magnetic directions [Magnetic Field (North) and Weak Field (South)]. References: Algol Triple Star System [Nuurun Alaa Nuur] and Regular Eclipsing Binaries [Shakaras-Shamsa]
- Every day the so-called Sun [appointed daylight or electromagnetic wave or tarash-shamsa] **enters** looking East Horizon [gravitational field or arz] from the North Galactic Pole [entering point or aphelion or left (shimal) of the prime meridian (appointed Kaaba)] in correspondence to the North-East Region [NE] of North America and sets in the South Galactic Pole [setting point] in correspondence to the South-East Region [SE] of South America crossing the Middle-East Region of Eartha 3D. Finite rational beings are absolutely unable to falsify nature-driven sovereign sciences and corresponding empirically verifiable clear & distinct manifest truths.
- This top semi-anticlockwise [counter-clockwise or anti-meridian] journey of the so-called Sun [appointed daylight or tarash-shamsa or electromagnetic wave of Einstein's Binary Pulsar] from the North Galactic Pole [E-Point or aphelion or left (shimal) of the prime meridian (appointed Kaaba)] to the South Galactic Pole [T-Point or perihelion or right (yamin) of the prime meridian (appointed Kaaba)] before the prime meridian [Rabbun Gafuur] is called Morning Show or Safa [Morning Star].
- The so-called Sun [appointed daylight or electromagnetic wave of Einstein's Binary Pulsar or tarash-shamsa] changes its direction [Ref. Einstein's Binary Pulsar: The direction of light propagation should be changed in a gravitational field].
- The so-called Sun [appointed daylight or electromagnetic wave or tarash-shamsa] turns away from the setting point due to [i] equal & opposite apriori framework of natural science, [ii] apriori universal principles [unalterable laws of nature such as Newton's Third Law – "Equal & Opposite"], and [iii] un-interfering natural mechanism such as natural magnetism [prakkritik Cchumvak or sent forward and kept back].
- The so-called Sun [light or electromagnetic wave] rises looking East Horizon [gravitational field or arz] from the South Galactic Pole in correspondence to the South-West Region [SW] of South Africa – Asia – Australia for the Western Daylight Time Zone.
- So, the South Galactic Pole is the setting – turning – rising point of the so-called Sun [electromagnetic wave or appointed daylight or tarash-shamsa]. This setting – turning – rising point of the so-called Sun [light or electromagnetic wave] is called T-Point [South Galactic Pole or right (yamin) of the prime meridian (appointed Kaaba)].
- T-Point [South Galactic Pole] has been established as Broken Bar [Ref. Unicode (hex) 00A6].
- We have not yet perceived "**common run"** of the so-called Sun [light or electromagnetic wave or tarash-shamsa] for the equal & opposite North-East Region [NE] of North America and South-West Region [SW] of South Africa – Asia – Australia.
- We have not yet perceived "**common run**" of the so-called Sun [light or electromagnetic wave or tarash-shamsa] for the equal & opposite South-East Region [SE] of South America and North-West Region [NW] of Europe.
- UN universal declaration of global standards for human rights two years after UDHR – 1948 does not have any sort of authority over "equal & opposite apriori framework" [creation in pars or philosophy of reciprocal paradigm] and corresponding natural magnetism [krittim chumvak or sent forward and kept back]. The UN-led global governance [including global organizations and global agencies] and devils of humankind [global scientists and global leaders] are absolutely unable to prove '**common run**' of the so-called Sun [appointed daylight or tarash-shamsa or electromagnetic wave] from the East Pole [gravitational field or arz] to the West Pole [strong field or samawaat]. They are also absolutely unable to prove rotation of the immovable hexagonal world which is appearing as a pentagonal earth like 9/11 Pentagon with three ascending stairs within the East Horizon [Arz or Main Sequence Sirius A] of the upright rectangular universe [Helium-4] from the North Pole to

South Pole. So, it is their duty for duty's sake to recompense our past prayer, our past hajj, our past idd, and past academic sessions of our children [particularly since the academic session – 2016-17].

- Universal acceptance of the global scientific community does not have any sort of authority over fundamental building blocks of the pre-existing upright rectangular universe, apriori universal principles [unalterable laws of nature], fundamental constants of nature, un-interfering natural mechanisms such as Sirius binary system [samawaati wal-arz], Algol triple star system [nuurun alaa nuur], regular eclipsing binaries [shakkaras-shamsa], binary pulsar [relation between electromagnetic waves (tarash-shamsa) and gravitational waves (bish-shamsi)], natural magnetism [prakkritik chumvak or sent forward and kept back], Newton's visual binaries [two Moons], cataclysmic variables [sporadic appearances of the white moon during broad daylight under natural circumstances], and 3-dimensional elliptical orbit viewed from 2-dimensional perspective [odd and even contrast] etc. Consequently, global scientists and global leaders [devils of humankind, asuras, or shaytans] have been concealing their anti-natural identity since 2016.
- Universally accepted intermixture of falsehood and truth of the UN-led global governance does not have any sort of authority over the searched out nature-driven signs and corresponding particular instances under natural settings & un-manipulated conditions like Natural Magnetism [Prakkritik Chumvak or Tarash-shamsa].
- Similarly, one global text of IBE – UNESCO, excellent curriculum of IBE – UNESCO, global Wikipedia, global dictionaries, global science books with ISBN, global science journals with ISSN, global standard NAAC accreditation, global standard Gunotsav, global standard research works, global standard reviews, global standard education policy, global standard education curriculum, global constitution, global laws, global rules, global regulations, global parameters, global guidelines, global treaties, global mandates, global standard technologies, and global sustainable development goals etc. do not have any sort of authority over fundamental building blocks of the pre-existing upright rectangular universe, apriori universal principles [unalterable laws of nature], fundamental constants of nature, un-interfering natural mechanisms such as Sirius binary system [samawaati wal-arz], Algol triple star system [nuurun alaa nuur], regular eclipsing binaries [shakkaras-shamsa], binary pulsar [relation between electromagnetic waves (tarash-shamsa) and gravitational waves (bish-shamsi)], natural magnetism [prakkritik chumvak or sent forward and kept back], Newton's visual binaries [two Moons], cataclysmic variables [sporadic appearances of the white moon during broad daylight under natural circumstances], and 3-dimensional elliptical orbit viewed from 2-dimensional perspective [odd and even contrast] etc. Consequently, the concerned competent authorities [international authorities, national authorities, state authorities, and district authorities] failed to falsify 'Purely Academic & Incontestable Constitutional Activities' of an ordinary Indian Muslim [Searched out Revealed Truths: Nature-driven Signs and Pure Sciences Unmixed with Global Standard Technologies] from their suitable perspectives/disciplines. **Period: 2016 to 2025**
- What is there after clear & distinct truth save invented lie & introduced falsehood? Falsehood like man-made natural magnetism [krittim prakkritik chumvak] by its very nature is transitory & perishable. Truth like natural magnetism [prakkritik chumvak or sent forward and kept back] by its very nature is generic & universal. It is our **inborn rights** [inalienable natural rights and un-interfering & inviolable solidarity rights] which are established as **fundamental rights** of the members of the human family [including members of the Muslim family] under UDHR [Thirty Categorical Articles] – 1948 [and corresponding UN CRC and Fact-sheet of UNICEF] and under Articles – 13, 14, 19, 21, 23, 24, 25 and 32 of the Sovereign Constitution of India [and corresponding Human Rights Act, Minority Rights Act, Child Rights Act, Juvenile Justice Act, RTI Act, RTE Act and NSE] to communicate the searched out "Revealed Truths: Nature-driven Signs and Pure Sciences Unmixed with Modern Technologies" openly & publicly and everywhere [including educational institutions and research institutions] from the next academic session without any Broken Bar [UN-led Global Obligations].

Evening Show [Marwa] for the Eastern Daylight Time Zone



- Every day the so-called Sun [electromagnetic wave or appointed daylight or tarash-shamsa] **rises** looking East Horizon [gravitational field or arz] from the South Galactic Pole [T-Point] in correspondence to the South-West Region [SW] of South Africa – Asia - Australia and **ends** in the North Galactic Pole [E-Point] in correspondence to the North-West Region [NW] of Europe covering the Upright West Region [UW] of Arabian Peninsula [Upright West Region of the appointed Kaaba].
- This is the post-meridian [top semi-clockwise] journey of the so-called Sun [light or electromagnetic wave or tarash-shamsa] behind the prime meridian [appointed Kaaba] for

the Western Daylight Time Zone [both middle stair and mountain top stair of the appearing pentagonal earth].

- This post-meridian [top semi-clockwise] journey of the so-called Sun [light or electromagnetic wave or tarash-shamsa] from the right [yamin or weak field or border] to the left [shimal or magnetic field or back border] of the prime meridian [Rabbun Gafuur] represents Evening Star [Marwa].
- 'Equal & Opposite' [Creation in Pairs] is an unalterable law of nature [apriori universal principle]. Alteration of day and night in a day i.e. day and night of the Eastern Daylight Time Zone [North America and South America] as well as day and night of the Western Daylight Time Zone [South Africa, Asia, Australia, Arabian Peninsula, and Europe] denotes **twice day and twice night within 24 hours** [References: regular eclipsing binaries (cycle of light and darkness), probability theory, and infallible & unerring statistics]. Moreover, we are on the surface of the earth. Earth is a physical planet beneath our feet. We have not yet directly perceived rotation of the earth [including our houses, mountains, and rivers] within apparent horizon of the visible universe under natural settings & un-manipulated conditions. Copernican Heliocentric Hypothesis is vitiated by the several well-established fallacies [specifically fallacy of universal mal-observation]. On the contrary, each day we [including global scientists and global leaders] directly perceive entering/rising and setting/ending Electromagnetic Spectrum [appointed daylight or afterglow of GRBs] within the apparent horizon of the pre-existing stable universe under natural settings & un-manipulated conditions. It is also being taught at school that the appointed daylight [so-called Sun] rises and sets. Again, none has yet perceived 'common run' [post hoc ergo propter hoc statistics] of the appointed daylight [polarized light or electromagnetic spectrum or so-called Sun] from the East Pole to the West Pole for the equal & opposite Eastern Daylight Time Zone [North America and South America] and Western Daylight Time Zone [South Africa, Asia, Australia, Arabian Peninsula, and Europe]. - The Anti-meridian **Morning Show** [**Safa or Morning Star**] of the so-called Sun [appointed daylight or electromagnetic wave or tarash-shamsa] from the North Galactic Pole [E-Point] to the South Galactic Pole [T-Point] for the Eastern Daylight Time Zone [North America and South America] represents **Electroweak Force**.
- The Post-meridian **Evening Show [Marwa or Evening Star]** of the so-called Sun [appointed daylight or electromagnetic wave or tarash-shamsa] from the South Galactic Pole [T-Point or Border] to the North Galactic Pole [E-Point or Back Border] for the Western Daylight Time Zone [South Africa, Asia, Australia, Arabian Peninsula, and Europe] represents **Electromagnetic Force**.

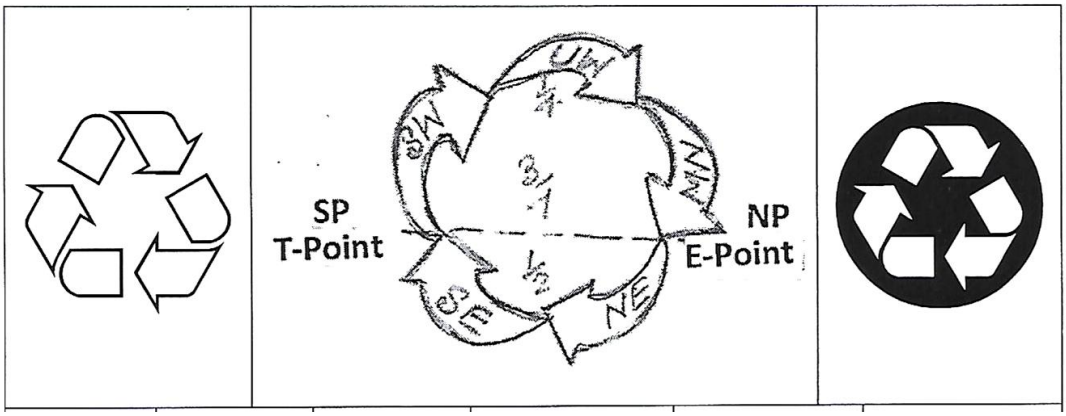
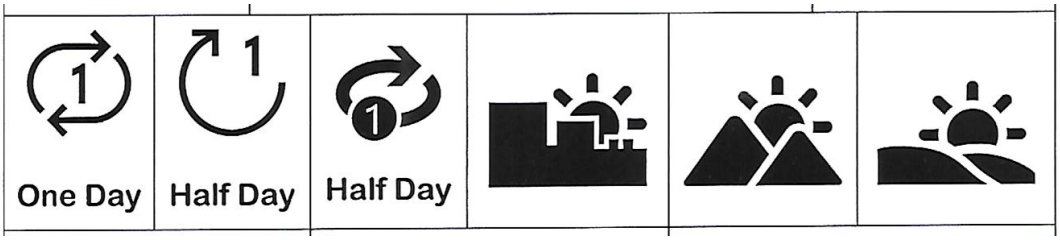
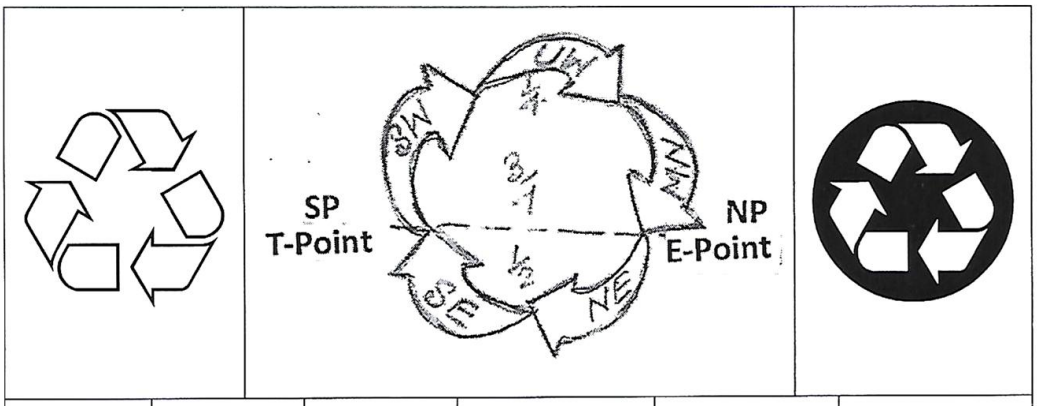
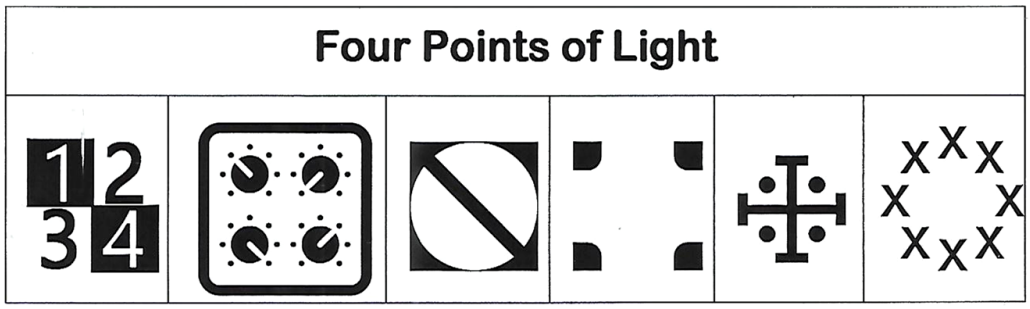
- **Kepler's Semi-major Axis:** Vulgar Fraction Three Quarters Journey for the middle stair [zaytuun or median] of the appearing pentagonal planet earth like Spider's Web [South-West Region of South Africa – Asia – Australia and North-West Region of Europe]
- **Kepler's Major Axis:** Vulgar Fraction One Quarter Journey for the mountain top stair [Tuur or City] of the appearing pentagonal planet earth like Tent House [Upright-West Region of Arabian Peninsula]



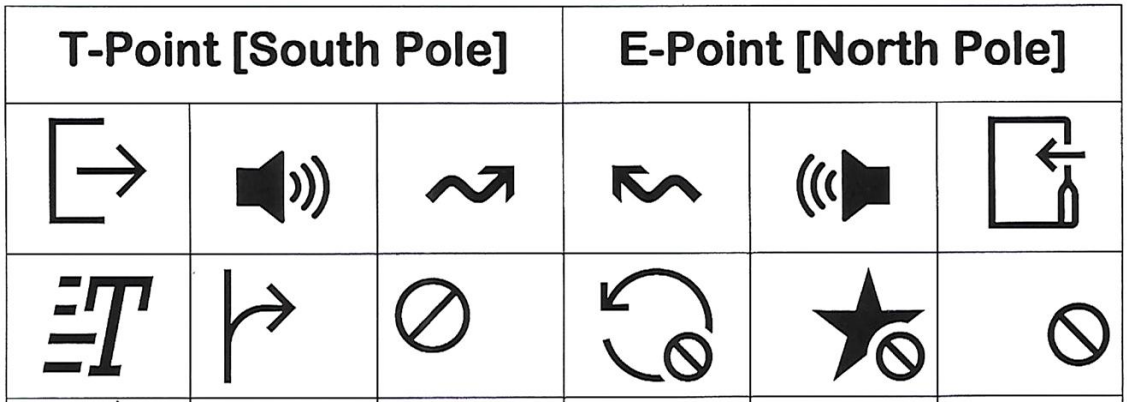






Four Points of Light	
4	**North-East** in correspondence to the North-East Region of North America is the **entering point of light** as Electroweak Force or Morning Star for the Eastern Daylight Time Zone [North America and South America].
3	**South-East** in correspondence to the South-East Region of South America is the **setting point of light** as Electroweak Force or Morning Star for the Eastern Daylight Time Zone [North America and South America].
Eastern Daylight Time Zone [North America and South America] and Revealed Truth: The so-called Sun [appointed daylight or tarash-shamsa] **enters** from the **North-East** [4] and sets in the **South-East** [3].	
1	**South-West** in correspondence to the South-West Region of South Africa – Asia – Australia is the **rising point of light** as Electromagnetic Force or Evening Star for the Western Daylight Time Zone [South Africa, Asia, Australia, Arabian Peninsula, and Europe].
2	**North-West** in correspondence to the North-West Region of Europe is the **ending point of light** as Electromagnetic Force or Evening Star for the Western Daylight Time Zone [South Africa, Asia, Australia, Arabian Peninsula, and Europe].

Western Daylight Time Zone [South Africa, Asia, Australia, Arabian Peninsula, and Europe] and Revealed Truth: The so-called Sun [appointed daylight or tarash-shamsa] **rises** from the **South-West** [1] and **ends** in the **North-West** [2].



- **North-East:** The so-called Sun [light or electromagnetic wave or cannon ball of Newton or tarash-shamsa] **enters** from the North-East in correspondence to the North-East Region of North America for the East Zone. So, North-East is the **entering point of Light** [electromagnetic wave or so-called sun or tarash-shamsa].
- **North-West:** The so-called Sun [light or electromagnetic wave or cannon ball of Newton or tarash-shamsa] **ends** in the North-West in correspondence to the North-West Region of Europe for the West Zone. So, North-West is the **ending point of Light** [electromagnetic wave or so-called sun or tarash-shamsa].
- **E-Point: North** is common to both North-East and North-West. That means **North** is the equal & opposite **entering** point of Light [electromagnetic wave or so-called sun or tarash-shamsa] for the East Zone and **ending** point of Light [electromagnetic wave or so-called sun or tarash-shamsa] for the West Zone. So, **North** is called **E-Point [equal & opposite entering and ending point of natural light]**.
- **South-East:** The so-called Sun [light or electromagnetic wave or cannon ball of Newton or tarash-shamsa] **sets** in the South-East in correspondence to the South-East Region of South America for the East Zone. So, South-East is the **setting point of Light** [electromagnetic wave or so-called sun or tarash-shamsa].
- **Turning Point:** The so-called Sun [light or electromagnetic wave or cannon ball of Newton or tarash-shamsa] **changes its direction** [Ref. Einstein's Binary Pulsar] due to – [A] Equal & Opposite Apriori Framework, [B] Unalterable Laws of Nature such as Newton's Third Law – "Equal & Opposite", and [C] Un-interfering Natural Mechanism such as Natural Magnetism [Sent Forward and Kept Back].
- **South-West:** The so-called Sun [light or electromagnetic wave or cannon ball of Newton or tarash-shamsa] **rises** from the South-West in correspondence to the South-West Region of South Africa – Asia – Australia for the West Zone. So, South-West is the **rising point of Light** [electromagnetic wave or cannon ball of Newton or tarash-shamsa].
- **T-Point: South** is common to both South-East and South-West. That means South is the **setting – turning – rising point of Light** [electromagnetic wave or so-called sun or cannon ball of Newton or tarash-shamsa]. So, **South** is called **T-Point [equal & opposite setting – turning – rising point of natural light].**
- **E-Point:** North, North Galactic Pole, Magnetic Field, Back Border, Left [Shimal] of the Prime Meridian (Appointed Kaaba], Right [Yamin] of the Observer facing towards the Appointed Kaaba [Prime Meridian], Aphelion, Northern Hemisphere or Haiyalas-Swalaah
- **T-Point:** South, South Galactic Pole, Weak Field, Border, Right [Yamin] of the Prime Meridian (Appointed Kaaba], Left [Shimal] of the Observer facing towards the Appointed Kaba [Prime Meridian], Perihelion, Southern Hemisphere or Haiyalal-Falaah

- We [people of this equal & opposite manifested nature] are the self-evident victims of nothing but the above mentioned conscious conspiracies & manifest hypocrisies. Consequently, we know nothing about Nature-driven Sovereign Sciences after having known much about Human-driven Global Technologies [Well Established Conscious Conspiracies & Manifest Hypocrisies].
- NCERT – India: "Science is neutral to all religions and is not specific to any religion or **community**." [No. F. 1-1/DESM-PA/Misc./2017-18/2554 dated 16th April, 2018, F. - There is no doubt that Science [Natural Mechanism] such as Sirius Binary System [Samawati Wal-Arz], Algol Tripe Star System [Nuurun Alaa Nur], Semi-detached Regular Eclipsing Binaries [Shaaakaras-Shamsa], and Natural Magnetism [Electroweak Force (Sent Forward) and Electromagnetic Force (Kept Back) of the Electromagnetic Wave (Tarash-shamsa)] is **neutral to all religions** and is not specific to any religion [such as Islam] or a community [such as the UN-led Global Scientific Community].
- However, at present " Nature-driven Neutral Sciences" such as Sirius Binary System [Samawati Wal-Arz], Algol Tripe Star System [Nuurun Alaa Nur], Semi-detached Regular Eclipsing Binaries [Shaaakaras-Shamsa], and Natural Magnetism [Electroweak Force (Sent Forward) and Electromagnetic Force (Kept Back) of the Electromagnetic Wave (Tarash-shamsa)] **are not being communicated at school** [educational institution]. Two Moons [White Moon of each Zone or Newton's Visual Binaries]

- **Reference**: "Uranian System", Text Book: "Apriori Science" with ISBN: 979-8-88805-393-5, and Pages – 444 to 466; Text Book: "Quran and Science" with ISBN: 978-1-64951-954-2, and Pages – 623 to 640; "Introduced Calf of Firawn", and Text Book: "Quran & My Qibla" with ISBN: ISBN 978-1-64783-505-7, Pages – 412 to 419
- We often directly perceive **cataclysmic variable**s [sporadic appearances of the white Moon during broad daylight in our zone under natural settings & un-manipulated conditions]. That means we often directly perceive **nature-driven signs of the Divided Moon** [Two Moons or Visual Binaries]. So, we are able to prove that there are Visual Binaries [Two Moons or WD – WD Binaries or Moon's North Pole and Moon's South Pole] for the equal & opposite Western Daylight Time Zone [Europe, Arabian Peninsula, Australia, Asia, and South Africa] and Eastern Daylight Time Zone [South America and North America] **following Combined Observational Method and Unique Window**.
- We are also able to prove removing all doubts and from all perspectives/disciplines that the **Muslims of the Western Daylight Time Zone** [Europe, Arabian Peninsula, Australia, Asia, and South Africa] **should observe the Appointed Days of Allah such as Eid prior to the Muslims of the Eastern Daylight Time Zone** [South America and North America]. Muslims of the Eastern Daylight Time Zone [South America and North America] **should observe the Appointed Days of Allah such as Eid following** Muslims of the Western Daylight **Time Zone** [Europe, Arabian Peninsula, Australia, Asia, and South Africa]. **Muslims** of the immovable hexagonal world [entire world] appearing as a pentagonal earth like 9/11 Pentagon [Spider's Web or Star Emoji] with three ascending stairs [superscripts] within the East Horizon [Main Sequence Sirius A or Arz or Black Square] of the Upright Rectangular Universe [Helium-4] should observe the Appointed Days of Allah such as Eid **within 24 Hours**. This is called **Unity-in-Diversity**.
- There is an **invisible barrier** [Solar System or Lakshman Rekha or Veto] between equal & opposite Eastern Daylight Time Zone [North America and South America] and Western Daylight Time Zone [South Africa, Asia, Australia, Arabian Peninsula, and Europe].
- Consequently, people the Western Daylight Time Zone [South Africa, Asia, Australia, Arabian Peninsula, and Europe] cannot directly perceive the Morning Show [Safa or Top Semi-anticlockwise Journey] of the so-called Sun [Appointed Natural Light or Tarash-shamsa] from North to South [Magnetic Field to Weak Field or Haiyalas-Swalaah to Haiyalal-Falaah] for the Eastern Daylight Zone [North America and South America]. People of the Eastern Daylight Time Zone [North America and South America] cannot directly perceive the Evening Show [Marwa or Top Semi-clockwise Journey] of the so-called Sun [Appointed Daylight or Tarash-shamsa] from South to North [Weak Field to Magnetic Field or Haiyalal-Falaah to Haiyalas-Swalaah] for the Western Daylight Time Zone [South Africa, Asia, Australia, Arabian Peninsula, and Europe].
- Similarly, people of the Eastern Daylight Time Zone [North America and South America] **cannot directly perceive the emergence of 'New Moon' for the Western Daylight Time Zone** [South Africa, Asia, Australia,

Arabian Peninsula, and Europe] from the North Galactic Pole [**Moon's North Pole**]. People the Western Daylight Time Zone [South Africa, Asia, Australia, Arabian Peninsula, and Europe] **cannot directly perceive the appearance of 'New Moon'** for the Eastern Daylight Zone [North America and South America] from the South Galactic Pole [**Moon's South Pole**].

- **We are to prove equal & opposite alteration of day and night in a day** [equal & opposite stages of journey of the natural light] **and visual binaries** [Moon's North Pole and Moon's South Pole] following Combined Observational Method [**Socratic Conversational Method**] as the Unique Window.
- Now, if there is sole Neil Arm Strong's visited Moon [NASA's Moon or Introduced Calf of Firawn] instead of Newton's Visual Binaries [Two Moons or WD – WD Binaries or Moon's North Pole and Moon's South Pole] for the equal & opposite Western Daylight Time Zone [South Africa, Asia, Australia, Arabian Peninsula, and Europe] and Eastern Daylight Time Zone [North America and South America], **then** Sporadic Appearances of White Moon during Broad Daylight under Natural Settings & Un-manipulated Conditions called **Cataclysmic Variables are not possible**. Lunar Eclipse is also **not possible**.
- However, we often directly perceive Sporadic Appearances of White Moon during Broad Daylight in our Zone under Natural Circumstances. That means we **directly perceive nature-driven signs** [cataclysmic variables] **and empirically verifiable proofs of nothing but the visual binaries** [two moons] under natural setting & un-manipulated conditions **within the natural laboratory** [apparent horizon of the visible universe]. We also perceive Eclipse in our Zone under Natural Circumstances.
- Moreover, **it is not possible to perceive Lunar Eclipse at a time** in the equal & opposite Western Daylight Time Zone [South Africa, Asia, Australia, Arabian Peninsula, and Europe] and Eastern Daylight Time Zone [North America and South America] i.e. **within the natural laboratory** [apparent horizon of the upright rectangular universe] under natural settings and un-manipulated conditions.
- So, Sporadic Appearances of White Moon during Broad Daylight [Cataclysmic Variables] and Eclipse are the **Two Nature-driven Signs** and **direct empirical evidences** on the basis of which each individual endowed with common sense is able to prove **Newton's Visual Binaries** [Two Moons or WD – WD Binaries or Moon's North Pole and Moon's South Pole].

NASA: Space is hard. We commend @ISRO's attempt to land their #Chandrayaan2 mission on the **Moon's South Pole**. You have inspired us with your journey and look forward to future opportunities to explore our solar system together.

- **Moon's North Pole denotes New White Moon** of the Western Daylight Time Zone [Europe, Arabian Peninsula, Australia, Asia, and South Africa]. **Moon's South Pole** denotes **New White Moon** of the Eastern Daylight Time Zone [South America and North America]. **Two Moons have been established as Newton's Visual Binaries** [WD – WD Binaries].

Equal & Opposite Morning and Evening in the Context of the Immovable Hexagonal World

- Each day a **new Star** as if it was not flourished yesterday **enters** from the North Galactic Pole [North or Magnetic Field] i.e. Left [Shimal] of the Prime Meridian [Appointed Kaaba] **declining towards Right** [Yamin] for the Eastern Daylight Time Zone [North America and South America]. So, **Morning [**Nature-driven Daylight or Sign of Sight-giving**] precedes Evening [**Nature-driven Night or Sign of Darkness**] in the context of the Eastern Daylight Time Zone** [North America and South America].
- When the Appointed Daylight [so-called Sun or Electromagnetic Wave of Einstein's Binary Pulsar or Cannon Ball of Newton or Tarash-shamsa] **enters** from the North Galactic Pole [North or Magnetic Field] i.e. Left [Shimal] of the Prime Meridian [Appointed Kaaba] declining towards Right [Yamin] for the Eastern Daylight Time Zone [North America and South America], the **New Moon of the Western Daylight Time Zone** [Europe, Arabian Peninsula, Australia, Asia, and South Africa] **emerges** from the **same root** [Moon's North Pole]. So, **Evening [**Nature-driven Night or Sign of Darkness**] precedes Morning [**Nature-driven Daylight or Sign of Sight-giving**] in the context of the Western Daylight Time Zone** [Europe, Arabian Peninsula, Australia, Asia, and South Africa].
- Nature-driven Daylight [**Sign of Sight-giving**] and Nature-driven Night [**Sign of Darkness**] are the **two clear proofs** [empirically verifiable data] **of the Semi-detached Regular Eclipsing Binaries** [Shakkaras-shamsa] of the Algol Triple Star System [Nuurun Alaa Nuur].
