Now-a-days we may be observing in our society there is no particular aim, adjectives, or work to youths they are living only under the fashion, blinking, they enjoyed without earning or by the others pocket money or illegal activities money, So they are getting good respect with earning friends. Some youths selected his own life way for the enjoyment with others.

4) Lack of family members or parents responsibility

The family members or parents doesn't know anything about his son. Because they are busy with his own risk or job. The parents provide more money facilities to son for the relief from the risk. Other hand some families suffer from poverty. Then the young men earning some money from illegal way and pay some part of money to his family. The parents has been full happy from that money but they not asking to young about source of money. Day-by-day the young men going in to same way.

5) Mass Media and Social network

Majority of young men and girl have more attracted smart cell-phone. They always busy in internet facebook, twitter, message chating, and they busy in prone images or videos, then the mind expecting some experiences like that images or videos. The young generation fulfilling his needs through the illegal way. Because there is no particular decision to them about future life.

6) Lack of public participate

The public as first control center for the inhuman behavior of youths. But majority of people observing some incidents, or harassments, in public places but they not participate about avoid or threatening to that men or protection of girl or women in that situation.

Majority of young men now- a- days break down his life from un suitable friends or neighbors. All slum peoples are

not living under the illegal activities but some of slum peoples and his children has been selected for illegal works. Which means they found easy way for the earning of money. Other hand the earning money spent for the drinking, gambling, illegal sexuality, and other scams.

8) Lack of formal Education

Now-a-days the educational institutions or government policies is not suitable to learning to youths. Last Ten years old syllabus system provided by government to schools and colleges for the teaching and learning. The learning contents used only for the job orientation but not useful to how we leading our life. [example Karnataka govt primary education Syllabus 2017]. Those who are participate in sexual harassment to women they are studying in higher education or drop out form higher education. [example 31/12/16 incidents accusers all below 10th class failed, one among them B.com on going].

9) Sexual harassment do not register a police complaint

An overwhelming majority of women (90%) who experience sexual harassment do not register a police complaint. Majority of them do not do so as they do not think it would serve any purpose revealing abysmal faith in law enforcement agencies. The kind of sexual harassment women faced following the horrific gang rape and brutalization of a 23rd -year-old in Bangalore on Saturday night at 2.42 A.M.

10) Lack of Strict Legal policies or legislations

In 2013 India passed a law to ban sexual harassment in the work place, public place, at any where. 17% of women working in urban have experienced some form of sexual harassment while on the job. But the effective of this law only in white paper so many accused freely living in public places with bale system. The constitution should be take serious action to accused.

Whatever it may be the Indian Society as a model to universe but no-a-days bend his neck in front of the UNO. Often we are telling about that incidents that is not culture our society but unexpected occur in our society, let it next we will take serious action about controlling of that incidents. This is statement of representatives or public servants. But the incidents repeated. So we all are citizens of our country we must have one feelings not only a that girl or this girl, all women or girls, we will create general awareness among the youths, we will participate in protection of women from that incidents, and cooperate to public servants and constitution.
