Abstract: Creator God Aton is perfection who created you in His image so that you are reflection of perfection – means you are perfection as well. You are an infinite and eternal spiritual being which expresses God's idea of a human in action – that's why God will work with you, but not for you. In other words, you are God in action. In order to create a perfect body for yourself, a perfect business or perfect social relationship - as well as to create masterpieces of perfection in whatever you give out from yourself to the world, all you need is to obey the God's Love Principle of equal giving and regiving. Your purpose is to multiply God-awareness in you so that your purpose becomes God's purpose which is to manifest that which God Is in imagined form. As that God-awareness in you increases, you then become Love which YOU manifest by giving - and YOU become truth and the Law of Balance which YOU CONTROL. When God-awareness is complete in you, YOU are the Creator of all that IS because of your knowing your Oneness with the One.

Keywords: human being, perfection, God-awareness, purpose

1. Introduction

Man has concepts of himself and he makes mysteries in his thinking - *he shall need come into KNOWING. HE THAT THINKS GREATLY EVER SURPASSES THAT WHICH HE THINKS. God Aton thinks in terms of that which comes to pass - thereof is Spirit manifest. Only Spirit matters, beloved.*

It would seem incredible that the little spiral "pinwheels" which balance - and complete - every sound vibration are the same in principle and construction as those of solar and nebula wave-vibrations, but that is the amazing fact of Nature. Nature has but one system of mechanics for "dividing the undivided" and "conditioning the unconditioned" and that is the same in microcosmic waves or macrocosmic ones. All matter is wound up tight by concentrative thinking and unwound by decentrative thinking.

The journey from rest to rest and back again is always a spiral one. Centripetal force compresses inward from without to create hot suns, and centrifugal force thrusts outward from within to expand them into cold gases.

The same forces which create the stars of the heavens create the cells of your body. For this reason, what we shall be telling you as we continue, for which I am now laying a foundation, is of vast import in knowing how to create a perfect body for yourself, a perfect business or perfect social relationship - as well as to create masterpieces of perfection in whatever you give out from yourself to the world. The more you comprehend the **principle of BALANCE** in Nature, the more you can control it in vitalizing your own body and the products of your Mind.

The reason I have stressed this one **balanced form** of the spiral nebula of the wave in the heavens and in the harp string is because **that position in the wave is one of perfect polarity and perfect spherical form for all the suns in such a perfected system**

Figure 1: All bodies are but transient light-waves – they are but thought-forms set in motion

Figure 2: Wherever this form appears in Nature, whether in loops of force in an electric current – sound vibrations of a

harp string –in a chemical element such a carbon – or a giant nebula such as the above pictured Andromeda Nebula, it means that life and death, sex oppositions, centripetal and centrifugal forces, and generation and radiation have reached perfect balance in each other. It is maturing point of each cycle where the two opposing pressure conditions which create matter unite with each other.

Figure 3: Nature creates bodies by winding light-waves into incandescent spheres, then destroys them by unwinding them into space

whose equators coincide with the plane of its nuclear giant sun. This is not true of any of the planets of solar systems within any nebula, for planets are born from rings which extend from the balanced equatorial planes of their father-mother suns and soon lose their perfectly spherical forms and begin to oblate [1-25].

Our earth Shan has spiraled so far away from its *balancing plane of gravity - which the sun's equator is*-that its axis of rotation is tilted some 23 degrees from the plane of the solar axis. *You can best visualize this by remembering how the hoop you may have rolled in your childhood wobbled unsteadily if you did not keep it rolling steadily at an angle of 90 degrees from the ground. That is the way planets die and, also, as all other bodies die.*

When axes of rotation are not 90 degrees from the planes of their equators, such as the axis which runs through your particular Earth at 23 degrees from its pole of rotation, the planet is dying just as a wobbling top is dying. That pole which always wobbles on a spinning top, or hoop, when it revolves out of balance with its equatorial plane is **GRAVITY expressing its function of division of force by the process of expansion of direct bodies to their planes of rest**, which is the unwinding process of Nature – the angle of gravity from the plane of rest is decreasing. The winding process is just the opposite. *Compression increases the angle of gravity from the plane of rest*, as the ground is in relation to a hoop or top, and *compression multiplies speed and power for the hoop or top to stand upright.*

That principle of balance which gravity controls by multiplying motion into high potential, or cold into white-hot heat, is the same principle you make use of in generating your nebulous ideas into perfectly matured and balanced workable forms. When you cease concentrating upon your desire to create formed bodies to

manifest YOU or your IDEA, gravity then expands and formed bodies wobble in their unsteady spiral paths to the zero from which they sprang.

All bodies, whether thought-bodies or material bodies such as sounds, animals, suns or galaxies - are but light-waves. All previous lessons were devoted to the purpose of building new concepts, such as the duality of bodies, as a basis for a better understanding of the as yet unknown facts of reincarnation. *These new concepts of the polarization of bodies into concentrated and decentrated, visible and invisible mate pairs which interchange their polarity forever in repetitive cycles, are the first steps in peering behind the scenes of God Aton's workshop where the making of bodies takes place.* You are beginning to know how God Aton builds visible bodies by **compressing long waves of low potential** into short high ones and then reverses that process so that visible ones again become invisible. Science has practiced that method of compressing waves but does not KNOW that it has been practicing it. Science merely says, "Matter seemingly emerges from space and is then swallowed up by space, but it may be that man will never be able to solve this great mystery of the creative process of matter". We will slowly build up a complete explanation of this process of Nature. Please bear with us.

2. Illusion of disappearance and reappearance

If you totally disregard the thought of repetition of its two opposite conditions and substitute the thought of the eternal continuity of that body of water which forever appears within the range of your vision, then disappears beyond that range for an interval before it again reappears, you will have taken the first simple step toward a comprehension of the sequential interchange of visible bodies with their invisible counterparts. That realization is what we must now impress upon you until you fully realize that each interval of time between the disappearance and reappearance of any body is **not a discontinuance of the body** - it is merely a "blackout" of your senses. When things disappear from your vision or your hearing, **they have not ceased to be. They are not "dead"**. And when they reappear within your vision or hearing, they are not reborn to life. They have but again come within your range of vision and hearing.

Together with the above realization, you must fix in your Consciousness that the Soul of that disappeared body still IS - and in that Soul is the same *desire* that created the disappeared body. That **desire of the Soul to unfold the form of an idea** will cause it to reappear, again to unfold, forever and forever as a continuity which is forever **changing** but never **ceases**.

3. Changing sound bodies

We must exemplify this thought to make it a part of your knowing. Consider, therefore, a body of sound that you create by talking. When the sound ceases, it is not "dead". You no longer hear it - but if there is a cliffside up the valley and you have talked loudly enough, your voice will again be heard as it condenses into small waves by impacting against the cliff. It is the same voice and the same sound continued

out into its spatial counterpart. It is still living. It is a continuity of itself. It is the same sound extended from the point of desire where its body-form was created. You call it an echo. It is just as appropriate to call it a mirror, for **sound-waves are light which reflect light.**

4. The illusion of repetition

Consider this same sound being again brought into appearance three thousand miles away by the condenser of your radio which shortens the lengthened waves to the dimensions created by you when you spoke them. Again we say they were not "dead" when they disappeared three thousand miles away from their birth. They but disappeared from the range within which your senses were able to perceive them. **No matter where upon this Earth you set your condenser to restore the dimensions of those sound-bodies to their original wave lengths and frequencies, you will hear those sounds again in their original pattern and identity.**

5. Continuity

These facts are true to Natural Law, and you are not correct when you use the terms death – birth –disappearance – repetition – reappearance - or reincarnation. How can you be correct in the use of such terms when you know that there is a continuity of such bodies - and that nothing has changed in them but their **dimensions and their polarity**? Likewise, if their recognized identity and pattern were that of Putin who spoke them - or Paderewski who played them - or Caruso who sang them - why, then, should you question whether or not you lose your individuality when the body which you call PeraPeric refolds into its seed, as all bodies do, whether mineral, vegetable or animal, as you shall be shown a bit later. The seed of mineral life is the zero element known as the inert gases.

All bodies are the result of desire of Mind to create bodies. Desire of Mind is eternal - therefore all bodies are eternal in their continuity. We should not even say that they are eternally repetitive - for "repetition" is suggestive of discontinuous intervals between each repetition.

You must see that the same is true of the flower which disappears into its inert gas seed. It is a continuity, however, for it again unfolds from its seed to relive. How can you say that it has stopped living? You can only say: by **RESTING** it has stopped manifesting life.

If you desire to know what happens to your bodies after "death", and if you wish to thoroughly understand the illusion of reincarnation, you must first thoroughly understand what we mean by the term "**reversal of potential**". And you must also know what is meant by the term "**cycles**".

6. Reversal of potential and cycles

POSTULATE No. 1:*All bodies are continuous. They never cease. They merely reverse their potential TWICE in every CYCLE of their eternal journey within and beyond the*

range of your sensing by compressing into visibility and then expanding into their invisible seed-recordings.

POSTULATE No. 2:*All bodies are expressed in cycles. A cycle is a continuous two-way spiral journey from the expanded condition of a body to its opposite compressed condition and back again to its expanded condition.*

A most familiar example of a cycle is DAY and NIGHT. Each is the opposite half of the other, such as one's breathing.

You will understand these postulates better by exemplifying them. The disappearance of a glass of water into vapor and its return is one kind of an example which you will find difficulty in harmonizing with reincarnation. Let us take an entirely different type of example which you should more readily associate with reincarnation but they are the same in principle.

Instead of the glass of water, let us substitute a tree, an oak. It does not evaporate in order to disappear; it **decays** by heat and **decay** is just another word of exactly the same meaning but with a different connotation. Both demonstrate Nature's manner of disappearing by expanding. The element of time also makes it difficult to see both effects as one. The water returns quickly. It may rain the next moment, but the oak tree which has disappeared will not stand there again as the tree you saw for fifty years. Now comes the question, "Where is the water after it disappeared and where is the oak"? That is equivalent to the old, seemingly unanswerable question: "Where do I go when I die"? Further, as the seed (acorn) is again planted and grows, it does not grow into a rose bush, nor a frog or dog or rock--and neither will you for your seed is of human and you will be reborn in the same format in whatever level of dimensional growth is suitable. If the acorn is transported to Mars and has facilities for growth--it will produce the oak of itself with the same genetic DNA as it was in its original tree.

A human being is one unit of an imperishable, eternal idea. His body manifests that idea. When his body disappears, it passes beyond his sensing but his identity, as IDEA, is as continuous as eternity is continuous. I can take you one step further and tell you that the form is just as visible to us in this dimension as it was to you in yours. It is never changed in the vision or idea of God, its source.

Your bodies are thought-wave recordings of God's thinking through your thinking. God's thinking is continuous - therefore, the recording of God's thinking is continuous.

Nature's storage batteries can become depolarized but cannot die in the sense that they have come to an end. Nature's storage batteries are bodies. They automatically recharge as you automatically re-breathe. Every body in Nature is a permanent live storage battery. Every body consists of dense matter surrounding a center of gravity which controls its density. Every body periodically disappears into the zero of space and reappears into the visibility of matter.

God Aton is LIFE. In Him there is not death. Bodies manifest that which their Creator IS. Bodies are as eternal as the ideas which they manifest are eternal.*That still point fulcrum of desire which motivates every body is eternally present in every body. It is the Soul which centers every body in the universe from giant star to a speck of dust on a butterfly's wing.*

Desire to manifest idea is the fulcrum of the universe.

7. Cube-Sphere

IN this knowledge of the inter-relationship of the cube-sphere lies the answer to thought-transmission between living people and those whose bodies have passed beyond our range of sensing. This much-hoped-for possibility will come within the range of your comprehension, and possibly within your powers of practice, when you KNOW that **thought-bodies are the basis of the material bodies** with which you are familiar.

The sphere is the result of the concentrative pulsation of god's thinking which concentrates by compressing inward from without to focus the light of God's thinking to a point of stillness around which a thought-body can be formed. This causes that the

Figure 4: Cube-Sphere

universal effect which we know as generation, and the still point of concentration is a center of gravity. **Generation multiplies power.**

The cube is the result of the decentrative pulsation of God's thinking which thrusts outward from within to the stillness of the cube boundaries to produce the opposite effect which we know as "radiation". **Radiation divides power.**

Generation and radiation are the opposite ends of the piston which motivates the heartbeat of this eternally living dual body of God, which is your dual body. Its continual giving and regiving manifests the love principle in **both the action and reaction - not just in one of them.**

Their continual interchange in spiral lanes of opposed directions gives you the incandescent light of hot spheres by the friction of resistance to the inter-passings of both in such close quarters as the vortical centers of cube-spheres.

Conversely, the release of that resistance in the widening lanes of the outer spiral direction gives you the cold and dark of the cube half of the wave-field which encloses every divided body in the universe. Always vision the zero universe as God's end of the universal piston and the moving electric universe as man's end of it.

8. A supreme discovery

It might help you to comprehend what is now coming by my asking you if you have ever considered why it is that all of those millions of stars out in space do not crash into each other and wreck each other, accidentally or otherwise?

The answer to that question is that all wave-fields which bound and enclose each body-pair in the universe - human and otherwise - are insulated from each other by the invisible planes of zero curvature, such as the six flat planes which enclose a cube beyond which light cannot pass without reversing its direction which is the reaction to the action.

Reversal of direction from inward to outward, and from red to blue, and from generation to radiation, is the insulator which keeps all wave-fields in the universe in balance with each other and insures their centering suns from colliding with other suns, and adjusts the changing orbits of all centering bodies to balance always with each other's continually changing orbits.

Let us now consider your own dual-body in this same light. Your own body is composed of countless billions of little wave-fields which bound each corpuscle of dense matter and its surrounding spatial counterpart. What is there to prevent these spheres and spheroids of your body from colliding with each other? The answer is the same for your microscopic wave-fields as it is for the mightiest stars in the heavens.

You, as an individual unit of Creation - like every star in the firmament, are an individual unit of Creation - center your own collective field which includes the millions of little ones within it and those you take on as your desire increases in intensity. You, as an individual unit of Creation, are a POINT OF DESIRE in the zero universe of Mind. Around that centering point, which is your Soul, you create a record of your desire, which is your dual-body, in a wave-field measured out for you in the stillness of the unchanging zero universe. Thus you become that which you think. ***The measure of your wave-field is the measure of the intensity of your desire. The pattern of the body you create in it is a record of your desires. Your body is the record of the sum total of the desire you have expressed in the millions of years of your unfolding.*** You never lost that patterned record of your desire which is your body. You always have your body. Your senses lose awareness of it during your death period just as they do when you sleep, but your conscious Soul never loses awareness of it. ***Desire in your Consciousness recalls it - reassembles it, part by part, in the pattern of age-long desire*** - just as desire of Soul which centers the seed of an oak reassembles the oak tree in its own pattern, leaf by leaf, its wood, its bark, its strength and its majesty of form.

If you look into the seed of a flower, you cannot find the flower or any part of it. Even with the finest microscope, you cannot see any indication of leaf or color or stem which will assemble itself around and extend from that seed. *Nothing material is in that seed. It belongs to the zero universe of Mind-desire. Centering it is that point of desire of Mind to manifest the idea of a rose or violet. Around that centering Soul are invisible states of motion known to chemists as "the inert gases".*

The body of the oak is not in its seed, but the IDEA of it is there. God Aton is there- God the Creator, who has desired to manifest that part of the whole idea of Creation at that point of desire which centers the seed of the oak. Where, then, is the body of the oak? Where has it gone? It is in that other half of its wave-field - the invisible seed within which the visible half rests from its concentrative action. It has gone beyond the range of your vision but it still IS. When desire of Mind reconcentrates upon its desire for a concentrated form of body, that concentrated form reappears by reversing its direction from negative to positive. It centers the cube of its wave-field. It becomes the fulcrum of the wave lever which pumps each patterned part of the oak from its outer invisible body to its inner visible one. Conversely, when desire of Mind decentrates, every state of motion which constituted the visible body expands centrifugally into the invisibility of its cube by again reversing its direction from charging to discharging.

Always remember that you have two opposed halves of your one body, just as you have two opposed swings to the pendulum of your thinking. One half of your body is for its "work" period, with short intervals for rest and body renewal, while the other half is for its long rest period, "the death period", for complete renewal of the working half. Remember, also, that desire to reassemble your visible body by reversing your own body polarity, is centered in you as it is in the oak and all other forms of IDEA.

When these processes of God Aton's creative secrets are yours to **KNOW**, you will more fully understand His meaning of these words:

"For behold I am within all things centering them, and I am without all things, controlling them."

ALWAYS figure God Aton first in your life - a lesson ALL OF YOU should take in your daily lives of coming home to the Lord! Whatever your contract with God Aton, do it wondrously and in spirit—IN—SPIRED—IN SPIRIT—and you will be on the track! Don't approach God Aton—or your Self—in an attitude of begging supplication. You are not asking benevolence—nor is God Aton dealing out patronage. **God Aton is Creator—and you are co-Creator—not a supplicant for favors.**

You must put aside your idea of separateness and find your universality. Until you KNOW your attachment with the universe you are but one part of it. As long as you feel yourself to be a separate individual person with no attachment, you will think of God Aton as totally separate and apart from your Self. Until you can think

of your Self as the Person, or the Universal Self, God Aton will be another being whom you may revere or worship, or ask favors from, or depend upon in the measure of your KNOWLEDGE OF GOD ATON.

To have faith—or belief—in God Aton implies separateness. It implies that God Aton is another of whom you cannot say, "I and My Father are ONE." That is why much deep communion with God Aton is the most important thing in your life, for the more you lose yourself in the Universal Self the more you think of God Aton and your Self as being of ONENESS.

When you plant corn you do it with KNOWLEDGE born of experience that the corn will grow and fill your granaries. **It does not grow because you have faith and belief that it will grow; it grows because of the perfect workings of God's Laws. Likewise, you put the seed in the ground by intelligent action—first making sure you begin with corn seeds. You do not sit in the house and pray to God Aton with faith and belief that He will plant it for you, for you KNOW that He will not. God Aton will work WITH you but not FOR you, and all of the faith and belief in the world will not give you a crop without you doing your part with God Aton in the fulfillment of your desire.**

Let us look at the faith and belief that just believing in "Jesus's" death will save you and that you will be raptured away just for that believing. NO. You will not go anywhere unless you take action and do the things instructed for you to do in order to be suitable for the passage—REMEMBER? IT IS TIME YOU ALL REMEMBER YOUR SUNDAY LESSONS—"EXCEPT THROUGH ME SHALL YE ENTER INTO THE KINGDOM OF MY FATHER!" And who was this bold speaker? He was the "Christed" teacher, which means "the perfection of God" and therefore **HE IS THE WORD, THE LIFE AND THE WAY. EXCEPT YOU ACT WITHIN THE LAWS OF GOD WHICH HE IS, YE SHALL NOT ENTER IN.** Just remember the half of the lessons which you enjoy hearing and require nothing of your physical being—you seem to have selective hearing and much more selective actions. You want to practice all the fleshy physical "things" without responsibility and then dump the load on a poor, unsuspecting scapegoat. It shall not come to be! *"For except through the actions within the LAW shall ye enter in!"* Moreover, you won't even get on board a silver craft with that attitude for the Cosmic Brotherhood live within the LAWS and ye who do not and deny them—are not welcome within to foul their order and balance.

Forests rise, corn grows in their majesty, vapors rise and storms rend without faith and belief, or even without knowledge—they follow the natural laws of the universe. God's Law is being fulfilled in them. *God's law is also being fulfilled in you. You may break your leg and God's law will heal it just as God's law grows the corn. But if you ask God to do more for you than fulfill His law—in other words, if you ask Him to do something for you which is YOUR part of it—He will not do it, no matter how much you pray and no matter how much faith and belief you put into your prayers.*

To exemplify our meaning a bit farther, suppose your broken leg is badly twisted out of line or the bones pass each other, and you ask God to reset the bones which you, yourself, should do or have done by a surgeon who KNOWS. You will find that God will do His part by making His universal law work for you, but your twisted leg will be the evidence of your own neglect to do your part of the work that God is doing with you, and you will be a cripple for life—destined to suffer from your own disobedience to God's perfect Law.

And therein lies most of the confusion regarding faith healing. God's Laws of growth are absolute. They work automatically and they work whether you pray or do not pray. **Conversely, God's Laws of decay and disintegration are just as absolute as His Laws of construction, and all the prayers which ask God to set aside His Laws as a special favor to you are more than wasted.**

Again, another example. A destructive fungus develops in a farmer's corn field. The farmer does not go to his chamber to pray with full faith and belief that God will care that blight while he sits by his fireside and does not do his part in working with God to reverse the destructive effect. Nor does he reason with God by making such useless affirmations as: "God made the corn perfect".

Therefore, there is no imperfection in it because there is no imperfection in God. "The farmer knows that he must do his part in checking the destructive growth or he shall simply have no crop".

If you would not expect a farmer to heal his corn, disease by faith and belief only in prayer to God, why expect it of humans? Yet a blight does develop in a human—a blight such as cancer, tumors, wasted lungs, or any of the many things *that can happen to any material growing body which came out of the ground through the constructive forces of nature and must return to the ground through the destructive forces which are always waiting to do their part in Nature's work the instant they are called upon to do their part.* Many humans would not ask God to cure a corn blight nor condemn a farmer for curing it himself, but when they find that a blight has struck their own body, they pray that God will set aside His inexorable laws because of their great faith in Him instead of doing what the farmer does by working WITH God.

Those who believe this way makes certain affirmations upon which they base their beliefs regarding humans as being quite different from laws governing corn or potatoes. Those believers say with much reverence: "God made man perfect. Therefore there can be no imperfection. If you will but see yourself perfect, you will then be perfect".

The great fallacy of such a belief lies in the fact that man's body is not man. Man is Mind—an idea of Mind, an idea with a spiritual entity. That is what God made perfect—and it is quite true that there can be no imperfection in the spiritual, eternal man.

But it is not the perfect spiritual man that has a cancer or tumor. It is man's body WHICH HAS THE CANCER OR TUMOR. **AND IT IS MAN'S BODY WHICH IS**

FOLLOWING THE INEXORABLE LAWS OF CAUSE AND EFFECT WHICH CONSTRUCT AND DESTROY ALL BODIES SEQUENTIALLY. So, the Mind must be allowed in its own KNOWING and BALANCE to create that balance which allows the BODY TO BE HEALED. It is not "faith" healing—**IT IS SELF—KNOWING RE-BALANCING.**

9. Perfection of God's Law

God made His Law perfect. Perfection of God's Law means perfection of balance between two opposite forces, the force which builds bodies and the force which destroys them. **God made BOTH these forces and they are inexorable and unalterable in their workings. God made the divided universe and the laws which govern it are perfect.**

But God gave man KNOWLEDGE of how to control those forces by putting his knowledge into action. The forces of Nature and the construction of bodies cannot be controlled by wishful thinking. Do you think it wise to sit in front of an onrushing train and wish it would stop when all you have to do is get up and step out of the way? The divided universe of bodies, which come from the earth and go back into the earth, is one of action—not inaction and wishful thinking.

The next time someone taunts you with "Why don't you let God heal that", if you have cut your finger and ask for antiseptic to cleanse the wound—ask him why he doesn't let God eat, wash and toilet for him? Why would you ask your guides, your teachers and/or God to do that which you know full well what to do to tend?

Funny thing—all along the way YOU have helped God to make your body. God did his part perfectly for God has all knowledge and works in harmony with His Law, while you do your part imperfectly because of your perceived limited knowledge of and obedience to the Law, such as eating good food and observing the laws of cleanliness and exercise.

If you eat poison food you will poison your body—why blame God?

10. Bodies belong to the divided universe of divided balance

If you put decaying or poisonous food into your growing body and then ask God in full faith and belief to set His Law aside for you, you are but expressing ignorance of God's way of working with you instead of knowledge of your co-Creatorship with God. You do not realize that you are asking God to reverse His Law and make the destructive force which you have put into your body become a constructive force.

What you should do is KNOW that you are in a predicament and you had best ask for inspiration and IDEA as to how to tend the matter and then you will get guidance to either put the poison out, have an antidote, send your body's own resources or something useful and

you really should do it right away.

11. Perfection is everywhere

There is no imperfection. If something is not to your liking then you are left with but one action—do something to make it otherwise. The only thing you can do is work with God intelligently through action, just as God works with Nature through intelligent action.

The Law is always perfect, however, and imperfect bodies are a breach of Law.

A smallpox or typhoid epidemic cannot be stopped by all the prayers of all the world so long as man continues to build smallpox or typhoid into his own body through ignorance of the Law which he is breaking. Instead of praying to God to stop the epidemic, man should pray for KNOWLEDGE of how to work with God in the elimination of it, just as he prayed and worked for the elimination of smallpox. It was not faith and belief which conquered smallpox—nor will it stop the new strains deliberately developed by other men to reinfect you with more virulent smallpox.

12. Inconsistencies of non-thinking people

Many who believe in healing by prayer alone without working with God through intelligent action vehemently condemn calling in a doctor or surgeon in cases where a purely mechanical action is needed to save a life, for instance, in childbirth where both child and mother die because of lack of a purely mechanical change of position of the birthing child which otherwise could not be birthed.

Refusal to make use of the knowledge of one to whom God has given such knowledge is as much a commission of murder by the one who refuses as though he killed the mother and child with a revolver.

The same with seatbelts which go unworn. If you do not use the IDEAS God gives for your security—then why blame God if your car crashes and you are maimed? There are some things which can only come from higher resource but mostly humans simply ignore those things which are made available through their refusal to act WITH GOD.

If you encounter ones who refuse surgery and transfusions because God will heal or take according to His choice—I have a question for you to ask. “Would you recommend that a hundred surgeons and doctors be withdrawn from the battle fields and replaced with men of your belief to save the lives of men whose legs have been shot off, skulls crushed and bones exposed to view men who are bleeding to death from terrible wounds or burns where flesh is half gone from the body? (Preferably ask one who is ON HIS WAY TO THE BATTLEFIELD!) Why would you not utilize the wondrous KNOWLEDGE which God has shared with the human to gain skills in medical treatment? It is as much with Ascension instead of working and acting to change the path of destruction—HOW MANY PEOPLE HAVE YOU SEEN ASCEND???

If you feel everything should be ignored and left to some God somewhere out there—then you know nothing of the very basic principle of Creation and have no idea who and what is God.

GOD MAKES ALL THINGS PURPOSEFULLY. THEY MUST FULFILL THEIR PURPOSE. WHEN THEY HAVE FULFILLED IT, OR HAVE RENDERED THEIR BODIES INCAPABLE OF FULFILLING IT, GOD’S LAW RETURNS THE BODY TO THE STILLNESS FROM WHICH IT CAME.

THOSE WHO AFFIRM THAT GOD MADE MAN PERFECT—MEANING THE BODY OF MAN—DO NOT REALIZE THAT THE MAKING OF THE BODY OF MAN COVERS A PERIOD OF MILLIONS OF YEARS. The man of the jungle, of the Stone Age, the Neanderthal man, or the man of the Carboniferous Age, is as unlike as the forest of today. At which one of these many stages was man perfect?

If God made man of today perfect, could we not also say that the Neanderthal man was perfect—or that the cosmic-illuminated man of the future is also perfect—when neither one resembles the other either mentally or physically?

13. Bodies are chemical machines

All vegetable and animal bodies are mechanical instruments which are made for the sole purpose of manifesting God THROUGH ACTION. That is all that bodies do. They do nothing else than express the reactions of their centering Mind which motivates their actions.

Bodies are composed of light waves. One half of every wave is concentrative and centripetal. It is thus polarized in the positive direction of increasing vitality. It is the builder of bodies.

Positive polarity multiplies power in the measure of desire of Mind to express action. Positive polarity expresses LIFE.

The other half of the wave is decentrative and centrifugal. It is thus depolarized in the direction of decreasing vitality. Depolarization expresses death.

One half of every wave, likewise, is alkaline in its chemistry. The alkaline elements are positive and multiply vitality in the direction which expresses LIFE. They compress in the direction of the equator which centers the spectrum.

The other half of the wave is acid in its chemistry. The acid elements are likewise positive but expand toward the two blue ends of the spectrum.

For every acid element, there is a balancing alkaline one. Both are necessary but each must always balance the other, else the body is thrown out of balance and becomes ill or develops the destructive growths and malignancies which are so rapidly increasing in the unnatural lives of great cities.

Centering the body is the undivided Consciousness which rules the body through its divided extensions of thinking-

Mind. The wave vibrations of thinking-Mind are, likewise, divided into opposite sets of emotions.

14. Conclusions

Human is Mind—an idea of Mind, an idea with a spiritual entity. That is what God made perfect—and it is quite true that there can be no imperfection in the spiritual, eternal human.

All bodies are the result of desire of Mind to create bodies. Desire of Mind is eternal - therefore all bodies are eternal in their continuity.

A human being is one unit of an imperishable, eternal idea. His body manifests that idea. When his body disappears, it passes beyond his sensing but his identity, as IDEA, is as continuous as eternity is continuous.

Your bodies are thought-wave recordings of God's thinking through your thinking. God's thinking is continuous - therefore, the recording of God's thinking is continuous.

All Creation is only God's imaginings. The universe is a cosmic cinema - a multiprojection of the dual light of God's thinking onto the blank screen of space. Every happening "unhappens" as it happens. Everything in nature is forever walking into a mirror of itself so that one motion in one direction voids the other opposite one.

As a pendulum swings one way, an invisible one swings the other way with equal and opposite force to void the other swing of it.

Your senses are limited to seeing only one-half of the effect. You see events in forward time only, hence you have sequences of events following each other like day and night. From this illusion of motion, due to limited sensing, TIME is therefore conceived. If your senses extended clear around the 360-degree circle, you would sense a backward flow of time which voids its forward flow.

Creation is a wonderful and glorious vision but it has no more reality than the cinema you see in the theater. That cinema consists of motion only - light in motion. Stop the motion and the motion picture would instantly cease. Likewise, God's cosmic cinema would instantly cease if God stopped thinking. Likewise, you also cease to create when you stop thinking.

You ask the purpose of it all. From God's point of view, His purpose is to manifest that which He is in imagined form. God is Light - God is Truth and the LAW - all meaning the same thing with differing connotations.

God desires to manifest Love. He does so by dividing the giving of Love into two opposite directions. The opposite expressions of Love are giving and regiving but it is in this fact of division of giving into two opposite directions that the illusion occurs.

From your own point of view, what is your purpose? Your purpose is to multiply God-awareness in you so that your

purpose is God's purpose. God-awareness in you means becoming the Being which God is. As that awareness increases, you then become Love which YOU manifest by giving - and YOU become truth and the Law of Balance which YOU CONTROL. When God-awareness is complete in you, YOU are the Creator of all that IS because of your knowing your Oneness with the One.

When you have thus become the Universal One Being, you are then the ecstatic IMAGINER - the cosmic dreamer of dreams - the visionary of IDEA and the creator of imagined-bodies for imagined-IDEA.

Author Profile

I was born on August 6, 1950 in Grab, Montenegro (former Yugoslavia).

1982 – Acquired my PhD in the field of atomic and plasma physics, at the same Faculty, under the title: "Regularities and Systematic trends of Stark Width and Shift Parameters of Spectral Lines in Plasmas".

1985 -1987 Spent two years as fellow of the Alexander von Humboldt Foundation from Bonn (Germany) at the University Düsseldorf developing plasma UV-spectroscopy at the tokamak UNITOR and performing measurements of the plasma instabilities in the scrape-off layer at the tokamak TEXTOR in Jullich (Germany).

1987 – 1991 Worked as the guest scientist at the Max-Planck-Institute for Plasma Physics in Garching by Munich (Germany) performing measurements of the magnetic field configuration at the

stellarator W7AS as well as the measurements of the limiter heat load.

1991 – 2000 Was working in the Institute of Physics in Zemun (Serbia) on investigations of the plasma force-free configurations and in **1995 I acquired the Research Professor degree.**

2000 – At the end of 2000 I chose to leave the Institute of Physics and went on my own way to discover and learn the God Aton's principles and laws of creation.

After 18 years of the progression toward that sacred goal, I finally succeeded and now I know many of the God Aton's creational principles and laws (unknown until now) and can apply them for the simple and efficient creations which make the basis for a new life quality on this planet.

I am a pioneer, creating with a New Conscious Energy and building a new civilization without electricity.

I've developed the TESLA RADIATION BALANCER – the genuine product in form of a self-adhesive sticker certified by the Hado Life Institute of Dr. Masaru Emoto which 100% balances radiation from any device, if attached to it, protecting the human body and environment from its harmful effects and eliminating with time the damages already caused by the radiation. It can be successfully applied to: cell phones, computers, laptops, microwave ovens, cordless phones, tablets, wireless monitors, Wi-Fi routers, TV-sets, Radios, and any other source of radiation.

Thanks to the consistent pursuit of my Leitmotif "The Authority of Truth rather than the Truth of Authority" I have experimentally proved the true atom, cell and particle "ATON" concept. According to the "ATON" concept, atoms, cells and particles are made of light which are spinning around the centering Mind (Spirit) points (the black holes). Nature expresses energy as electric potential in only one way, which is the same way both for the atomic and for the stellar scale: by projecting mentally the rings of visible light which are spinning around the centering Spirit points. This amazing beauty of creational simplicity is the basic fundamental truth of a new science that is based on the knowledge of the cause.

I wrote two books: "GOD IN THE ATOM" and "DODECA 101 LOVE ENERGY" which are available on my website.
