

Retraction of Published Article

The Editors of the International Journal of Science and Research (IJSR) hereby retract the following article:

- **Title:** Power Comparison by Using Monte Carlo Simulation Between Traditional Test and Newly Proposed Non-Parametric Tests for the Two Sample Scale Problem considering the Normality Assumptions
- **Author:** Chikhla Jun Gogoi
- **Volume/Issue:** Volume 14, Issue 11
- **Publication Date:** November 2025
- **Paper ID:** SR251114202521
- **DOI:** <https://dx.doi.org/10.21275/SR251114202521>

This retraction is issued due to substantial plagiarism identified in the article. Upon investigation, significant portions of the content, including methodological descriptions, mathematical formulations, and conceptual frameworks, were found to be directly copied or closely paraphrased from the following prior publication without proper attribution:

- Goyal, M., & Kumar, N. (2021). Non-Parametric Tests for Testing of Scale Parameters. *Journal of Modern Applied Statistical Methods*, 19(1), eP3079. <https://doi.org/10.22237/jmasm/1619482440>

In accordance with IJSR's plagiarism policy, which prohibits the use of others' work without acknowledgment and mandates retraction for post-publication violations, the article has been removed from the journal's index and online archives. This action aligns with guidelines from the Committee on Publication Ethics (COPE) for handling misconduct, ensuring the integrity of the scholarly record.

The journal apologizes to the readers, the original authors (Manish Goyal and Narinder Kumar), and the academic community for any inconvenience caused. Authors are reminded of the importance of originality and proper citation in all submissions.

Date of Retraction: December 04, 2025
