

The Growing Beauty in the Art of Gardening

Robin Ghosh

Abstract: *Apart from what has been explained above it is quite clear that science has not yet been able to give a clear cut picture that what is the time limit for the different type of flowers to blossom and when it appears in full bloom or when the flowers will die just as it is not known when the beauty of flowers and the sunlight of their growth is visible, similarly it is the same with flowers.*

Keywords: Plants, Flowers, Water, Fruits, Vegetables

1. Introduction

Before we go to know the details of gardening we should first of all know about gardening. Gardening is the process of growing plants for their flowers, fruits, vegetables, herbs and appearances within a designated space.

Gardening is the laying out and care of a plot of ground devoted partially or wholly to the growing of plants such as flowers, herbs or vegetables. It is a hobby that is beneficial to the mind and body.

Research Methods

Quite a good research methods have to be adopted by seeing it day and night and see whether the type of flowers are growing or dying at the dead of night.

1) Farming

Gardening is a farming system that combines physical social and economic conditions on the whole land area around the family home storage and processing of farm products, it is also a place where people live and dispose of wastes. Gardening provides us with fresh produce, clean area and create habitat for wild life.

Skill of Gardening

You need to know the skill of gardening: the difference between what you are cultivating and a weed, you need to understand how much sunlight, what type of soil and now much manure and moisture is necessary for your cultivator to flourish. It is indeed a creative art.

Purpose

The production of aesthetic pleasure areas, medicines, cosmetic, dyes, foods, persons, wild habitats and saleable goods. It teaches us patience, planning and ownership. It

2) Gardening is also addiction

People who are also addicted to gardening also attends to garden in the morning and evening to know about the affairs of garden one of my senior colleagues can't sleep unless he attends to the garden both in the morning and evening.

3) A scenic beauty

Blooming flowers in the garden make a scenic beauty. The combination of red, pink and yellow, and black roses excels in beauty. In the Chowk Area at Faizabad (Now Ayodhya) there is a good nursery and other plants are growing there. Black roses are found in abundance where people go there for evening walk especially and enjoy the beauty of the nursery as whole pure water is supplied free. The beauty of Hibiscus and China Rose are spell found. China Hibiscus China Rose Black Rose

4) Importance of Hibiscus Flower

Hibiscus flower is known as Gudhal flower or Jaba Kusum in Hindi. It looks very beautiful plus it has medicinal value. It reduces cold and cough, blood pressure, High blood pressure and cholesterol etc. It is used in making drinks and is used in tea etc. It serves as a natural condition for hair.

is a great work out for mind, body and soul. It is a passion that brings joys and fulfillments to their lives.

Gardening is also known as Horticulture, the art and science of growing plants. It gives four types of exercise - Endurance, Strength, Balance and flexibility.

Lover of Flowers

I do not think that there is any one in the world who is not a lover of different kind of flowers. If you have not visited

the Mughal Gardens in Kashmir, do visit it once in a life time. We had visited the Mughal Gardens 7 with my wife (who is no more) who was a lover of flowers. The blooming flowers, there attract the visitors. It is wonderful. It is fun children enjoy it, but they were not allowed to fluck it. As the great Romantic poet Keats 8 says, "Beauty is only to see and not to touch. Keats says "A thing of Beauty is a joy forever. Its loveliness increases. It will never pass into nothingness, but still it will keep a better for us. In the Wikipedia it is mentioned that the Poetry Foundation 9 a literary society that seeks to promo poetry and lyricism 10 in the wider culture. It was found banned from poetry foundation and culture. But it still continues to publish it with a 2003 gift of 200 million dollars from philanthropist Ruth lily. The Poetry Foundation recognize the froer of words to transform lives. We work to amplify poetry and celebrate poets by fostering spaces for all to create, experience and share poetry (publisher of poetry magazine, Chicago - From the Business Profile Management).

Summary

There is not much to say about the art of gardening. Everything has been mentioned above. It is also explained how farming system combines social and economic conditions on the whole around the whole land area around the family storage and processing of form products is a place where people dispose of wastes.

2.Conclusion

With reference to the details furnished above it would be clear that everything about flowers have been clearly expressed. We have seen how the beauty of pink roses and Hibiscus flower, all other types of flowers not only attract the on lookers but are useful tool to every man. It was also seen how the Hibiscus flower has medicinal value and reduces cough and cold, blood pressure and cholesterol etc. It is also to be noted How Keats wandering in Beauty, says beauty is only to see and not to touch".
