### Authors' Profiles

**Kumbi Mugwindiri** did Bsc Mechanical Engineering Honors at the University of Zimbabwe, and Masters in Manufacturing Systems at Cranfield University, England. Currently, lecturing Engineering Management at the University of Zimbabwe. He worked as Workshops Engineer for Zimbabwe Phosphates Industries responsible for heavy maintenance of process plant equipment. In 1993 carried out a project with the Ford Motor Company to determine ways of improving working patterns and practices, this was a European Union wide project. In 2000, he undertook collaborative research in Clean Technologies at Tulane University in New Orleans. Has worked with many organizations researching/and or consulting in Maintenance Engineering and Cleaner Production.

**Ignatio Madanhire**, graduated with a BSc Mechanical (Hon) Engineering and MSc in Manufacturing Systems and Operations Management in 1993 and 2010 respectively from the University of Zimbabwe. He has been a mechanical engineer with Department of Water – Large Dam Designs, and also worked as a Senior Lubrication Engineer with Mobil Oil Zimbabwe as well as Castrol International dealing with blending plants and lubricants end users. Currently, he is a lecturer with the University of Zimbabwe in the Mechanical Department lecturing in Engineering Drawing and Design. He has published a number of works on cleaner production in number of journals.
