5. Titanium (Ti-6Al-4V) alloy is mostly often used titanium alloy since it is known to have the best property balance.

Author Profile

Yassin Mustafa Ahmed received his first certificate from Slemani Industrial School\ metallurgy Department. Then he attended a Technical Institute of Kirkuk- Iraq to get a Diploma in Machines& Equipment Technology\Automobile. He had obtained his Bachelor degree in Mechanical Engineering from the University of Salahaddin, Erbil, Kurdistan region, Iraq. His Master Degree in Engineering Technology welding was received from the Technical College- Baghdad / Foundation of Technical Education. Now he is a PHD candidate in the Tenaga Nasional University (UNITEN) Putra Jaya, Malaysia. His research is on the modeling and optimization of multilayers welding 15 mm thickness of titanium (Ti-6Al-4V) alloy by response surface methodology through study the Microstructure and Mechanical behaviors. He serves more than sixteen years in institutes and technical colleges and work in laboratories and workshops, and has supervised many projects of the students in Sulaimani, Kurdistan region, Iraq. His experiences are in the field of mechanical works and teaching.

Associate Professor **Dr. Khairul Salleh Mohamed Sahari** is a head of Department of Mechanical Engineering, Universiti Tenaga Nasional where he has been working since 2007. He obtained his Bachelor in Mechanical Engineering from Waseda University, Japan in 2000. He then obtained his Masters (2002) and PhD (2006) in Engineering from Kanazawa University, Japan in the field of robotics. He later continued to work as a postdoctoral research fellow in Kanazawa University from 2006 to 2007, and again in 2010. His current interests are in mobile robotics, robotics for power industry, home service robot and control system.

Dr. Mahadzir Ishak is a Senior Lecturer in the Faculty of Mechanical Engineering, Universiti Malaysia Pahang. He obtained his Bachelor in Mechanical Engineering from Ehime University, Japan in 2000. He then obtained his Masters (Ecosystem Engineering) from University of Tokushima, Japan in 2002, and PhD in Industrial Science from Ibaraki University, Japan in 2010. His current research interests are joining & welding of similar and dissimilar materials, laser processing and casting.

Associate Professor **Dr. Basim A. Khidhir** is the Head of Department of Production Engineering & Metallurgy, Slemani Technical Engineering, Sulaimani Polytechnic University spending more than 28 years since 1985 in industrial practicing and academic teaching. He obtained his Bachelor degree in Production Engineering from University of Technology Baghdad-Iraq in 1985. He received his Master degree in the Production Engineering/ Metal cutting, University of Technology-Baghdad-Iraq in 1991 and later on he obtained his PhD in 2011 in Mechanical Engineering (Manufacturing) Universiti Tenaga Nasional – Malaysia. He later continued to work as an Associated Professor in Mechanical Engineering Program, Faculty of Engineering, and UNISEL Malaysia from 2008 to 2011. His fields of interest are Automation, CAD/CAM, Metal cutting process, Cutting tool design.
