in Engineering (M.Eng.) in Electrical and Electronics Engineering from the same University in 2002. He joined the Department of Industrial Physics, Ebonyi State University, Nigeria as a lecturer in 1999 and obtained a Ph.D in Electronics in 2012. He is a member of the Nigerian Society of Engineers (NSE) and holds a Certificate of the Council for the Regulation of Engineering in Nigeria (COREN). His research interest is in electronics.

Patrick Akata Nwofe, Ph.D (Northumbria, UK), received the B.Sc (Hons), Upper Division in Physics and Astronomy from the University of Nigeria, Nigeria, in 2001. He was awarded a tuition-free scholarship for a masters degree programme (September 2003-September 2004) by Northumbria University, United Kingdom and a maintenance allowance scholarship by Ebonyi State Oversea Scholarship (HIPACT), Nigeria in 2003. He received the M.Sc with Commendation in Optoelectronics and Communications System from the University of Northumbria at Newcastle, United Kingdom in 2004. He joined the Department of Industrial Physics, Ebonyi State University, Nigeria as a lecturer in 2006. In 2010, he was awarded a Ph.D. research studentship by Northumbria University, United Kingdom and by Education Trust Fund, Nigeria. He finished his Ph.D. in exactly three years (November 2010 - November 2013), with many publications in high impact factor journals, research presentations in many reputable international conferences, and international awards. He joined back in Ebonyi State University in 2014. He is a member of the Institute of Physics, European Energy Centre, and the European Centre for Research Training and Development. His research interest is in renewable energy (photovoltaics, solar thermal, biogas and waste management).

Celestine Nweke Ukwu received the B.Sc (Hons), in Industrial Physics from Ebonyi State University, Abakaliki, Nigeria in 2008. He is currently running his M Sc programme in Physics at the Industrial Physics department of Ebonyi State University and he is working under the supervision of Dr P.E. Agbo.

Author Profile

Peter Ekuma Agbo, Ph.D received the B.Sc (Hons), Upper Division in Industrial Physics from Nnamdi Azikiwe University Awka, Nigeria, in 1999. He was awarded prize for the best graduating Physics student for that session. He obtained a Master in Production Technology-M,Tech (Physics Electronics Option) from Nnamdi Azikiwe University Awka, Nigeria in 2004. He joined the Department of Industrial Physics, Ebonyi State University, Nigeria as a lecturer in 2005 and obtained a Ph.D in Physics in 2012. He is currently a senior lecturer in the department of Industrial Physics. Ebonyi State University Abakaliki, Nigeria. His research interest is in renewable energy (solar thermal, biogas and thin film materials).

Nweke Ukpai Friday, Ph.D received the Bachelor of Engineering (B.Eng) in Electrical and Electronics Engineering with Second Class Honours Upper Division from Enugu State University of Science and Technology, Enugu State, Nigeria in 1997. He obtained a Masters
