Author Profile

Eng. Yves E. AbouRjeily, received his engineering diploma from The Lebanese University, Faculty of Engineering, Branch II, received his Masters from The Lebanese University, École Doctoral des Sciences et de Technologie, and Université de Lille1-Sciences et Technologie.

Prof. Michel F. Khouri received his Ph.D. from The University of Michigan, Ann Arbor, in 1989. Since 1993, he is a professor of Civil Engineering at the Lebanese University, Faculty of Engineering, Branch II. Since 2011, he is serving as the Chairman of the Civil Engineering Department; he is also served in the same position from 1997 till 2002 and from 2004 till 2008. He has written many articles in the area of Finite Element Analysis, Structural Dynamics and Shell Analysis.
