also got a Certificate in oil and gas exploration from the "Institut Direct Service Management" in Cameroon in 2012. He is now preparing a PhD Degree in Geothermal exploration and Systems at the University of Maroua in Cameroon.

**Noël Djongyang** received a PhD Degree in Energy systems from the University of Yaounde I in 2010. From 2007 to 2013, he was a senior lecturer at the Faculty of Science of the University of Ngaoundere. He is since 2013, the Head of Department of Renewable Energy at the Higher Institute of the Sahel of the University of Maroua in Cameroon

**Abdouramani Dadjé** received a Msc Degree in Electronics, Electrotechnics and Automatics from the University of Douala in 2011. He is now preparing a PhD Degree in Energy Systems and the Environment at the University of Maroua in Cameroon.

**Danwe Raïdandi** received a PhD Degree in Mechanical Engineering. He is now the Director of the Higher Institute of the Sahel of the University of Maroua in Cameroon

## Author Profile

**Janvier Domra Kana** received the Bachelor Degree in Physics at the University of Ngaoundere and Master Degree in Geophysics at the University of Yaounde I in 2010 and 2012, respectively. He
