## 1. Introduction

The Kasturba Gandhi BalikaVidyalaya scheme was introduced by the Government of India in August 2004, then integrated in the SarvaShikshaAbhiyan program, to provide educational facilities for girls belonging to Scheduled Castes, Scheduled Tribes, Other Backward Classes, minority communities and families below the poverty line in Educationally Backward Blocks.

Gender disparities still persist in rural areas and among disadvantaged communities. Looking at enrolment trends, there remain significant gaps in the enrolment of girls at the elementary level as compared to boys, especially at the upper primary levels. The objective of KGBV is to ensure access and quality education to the girls of disadvantaged groups of society by setting up residential schools with boarding facilities at elementary level

2578 KGBVs were sanctioned by Government of India till date. Of these, 427 KGBVs have been sanctioned in Muslim concentration blocks, 612 in ST blocks, 688 in SC blocks. A total of 750 residential schools would be opened in educational backward blocks. 75% enrollment is reserved for girls from SC, ST, OBC and Minority communities and the other 25% to girls from families below the poverty line.
