Author Profile

Nishat Sultana received her B.Sc. degree in Electrical and Electronic Engineering from American International University-Bangladesh (AIUB) in 2013. Presently she is a P.G student in AIUB. Her research area of interest is renewable energy sources.

Abdul Ahad has obtained his B.Sc. degree in Electrical and Electronic Engineering from American International University-Bangladesh (AIUB) in 2012. Currently he is a P.G student in University of Windsor, Ontario, Canada. His current research interests include power system and solar energy.

Dr. Md. Kamrul Hassan has obtained his B.Sc. degree in Electrical and Electronic Engineering from Bangladesh University of Engineering and Technology, (BUET), Dhaka in 1987 and his Dr. of Engineering degree in Plasma Science and Engineering (Plasma Deposition & Electrical Characterization of Diamond-Like Carbon (DLC) Thin Films) from Kochi University of Technology, Japan, in 2007. Presently he is an Assistant Professor at the American International University-Bangladesh (AIUB).
