Author Profile

Gagan D R received the B.E. degree in Electronics and Communication Engineering from Reva Institute of Technology and Management in 2013. Presently he is pursuing his final year M. Tech in Digital Electronics and Communication from Bangalore Institute of Technology and the proposed research work in this paper is part of her M.Tech thesis. His area of interests includes OFDM, MIMO systems and smart antenna design.

Sujatha S received the B.E. degree in Electronics and Communication Engineering in 1988 and M.E. degree in Electronics in 1992 from UVCE. She has working experience of 23 years as associate professor in Electronics and Communication Engineering at Bangalore Institute of Technology. Her area of interests includes communication, microwave and antennas.
