## Author Profile

**Dr. Shantaram L. Bonde**, Former Principal, Nowrosjee Wadia College, Pune (India). He is the author of twenty three research papers. His research interests are in the field of rapid kinetics, ionic equilibrium,

**Dr. V. T. Dangat**, Former Head, Dept. of Chemistry, Nowrosjee Wadia College, Pune (India). He is the author of twenty three research papers with a few citations. His research interests are in the field of rapid kinetics and polarography.

**Dr. Mrs. R. P. Bhadane**, Associate Professor, Dept. of Chemistry, Nowrosjee Wadia College, Pune (India). She is the author of twenty one research papers. Her research interests are in the field of rapid kinetics and ionic equilibrium.

**Sandhya B. Walke**, received her M. sc in Physical Chemistry from Nowrosjee Wadia Collge, affiliated to Savitribai Phule Pune University. Currently pursuing Ph.D Degree in the same university.
