

approach based on sensitivity analysis,” in *Proc. 2nd Conf. Exhib. Innovative Smart Grid Technol.*, 2011, pp. 1–8.

- [10] V. Calderaro, G. Conio, V. Galdi, and A. Piccolo, “Reactive power control for improving voltage profiles: A comparison between two decentralized approaches,” *Electr. Power Syst. Res.*, vol. 83, no. 1, pp.247–254, 2012.

### Author Profile

**Y. Nagaraja**, he was born in 1984. He obtained a bachelor's degree in electrical & electronics engineering in 2005 from MEC, Kadapa. He obtained post-graduation in Electrical Power Systems in 2008 from SVEC, Tirupati. Currently, he is doing research on integration of renewable energy sources to the grid. Presently, he is working as an assistant professor in AITS, Kadapa. He has published in 10 international conferences/journals. His interested areas are power systems, generation of non-conventional energy and grid interconnected systems, Electrical Machines. He is also a Life Member of the Indian Society for Technical Education and a Member of the Institution of Engineers.

**S. Hyfha Rehaman**, She was born in 1992. She obtained a bachelor's degree in electrical & electronics engineering in 2013 from MEC, Kadapa. Currently, she is pursuing post-graduation in electrical power systems in AITS, Kadapa. Her interested areas are Power Systems.
