## Author Profile

**N Sindhu** is currently working as an Assistant Professor in Institute of Aeronautical Engineering, Hyderabad. She received M. Tech degree with specialization in Energy Systems in 2014 from Jawaharlal Nehru Technological University Anantapur and her B. Tech degree from same University with specialization in Electrical and Electronics Engineering in 2012. Her areas of interest are Solar Energy, Power systems and Control Systems.

**P Mabuhussain** is currently working as an Assistant Professor in Institute of Aeronautical Engineering, Hyderabad. He received M. Tech degree from Jawaharlal Nehru Technological University Anantapur, with specialization in Energy Systems in 2014, and B. Tech degree from Sri Venkateswara University, Tirupati with specialization in Electrical and Electronics Engineering in 2012. His areas of interest are Solar Energy, Electrical Machines and Control Systems.
