1. Introduction

The Co-operatives are based on the values of Self-Help. Self-responsibility, democracy, equality, equity, mutual co-operation and solidarity members of the co-operative society believe in the ethical values of honesty openness social responsibility and caring for others. The first Co-operative Law in India passing in the year 1904. The Co-operative Society engaged in only one activity is called as single purpose in Co-operatives, and if a society under takes more than one function, it is called as multi-purpose co-operatives. The co-operative movement in many countries was started with single purpose co-operatives, but after the great economic depression of the 1930s. Emphasis was shifted to multi-purpose co-operative. The importance of multi-purpose co-operatives is functioning well in countries like Japan, Germany, and India etc. On the other hand single purpose co-operatives are advantageous to the farmers.

A Multi-purpose society is expected to undertake the functions of “better farming, better business, and better living”. It is an organization which is owned and operated by a group of individuals for their mutual benefit. This cooperative attempts to gain various objectives whereas others cooperative objectives are limited. Whenever any cooperative society establishes to attain various goals such as production, purchasing, selling, credits sanction and so on this cooperative is called multi-purpose cooperative, multipurpose co-operatives which prevent an economic growth of members and non-members.
