Abstract: Polycystic Ovarian Syndrome (PCOS) is multi-factorial and polygenic condition. It interferes with metabolic, endocrine and reproductive functions. It affects the pituitary - ovarian hormones and results in infertility, menstrual problems and excessive body hair growth in female. According to Ayurveda this type of clinical features found in Pushpagni Jataharini and Nashtartva. Treatment of PCOS according to Ayurveda is mainly to correct hyperinsulinenia by using Prameghnus drugs, weight reduction through diet, drugs, Vyayama, Pranayama. Give Yakritotejaka drugs for the oestrogen clearance and to decrease its bio- availability and clear the Avarana by using Vatakapahanashaka drugs for the proper follicular genesis and ovulation.

Keywords: Polycystic Ovarian Syndrome, Pathadi churna, Arogyvardhini Rasa

1. Introduction

Polycystic ovarian Syndrome (PCOS), an emerging lifestyle disorder involving multiple systems affecting 5- 10% of the women exhibiting the full blown syndrome of hyperandrogenism, chronic anovulation, and Polycystic ovaries. [1] PCOS is a psychosomatic disorder of uncertain aetiology characterized by Obesity, Anovulation associated with Primary of Secondary infertility, hirsutism, abnormal menstrual pattern, increased incidence of pregnancy loss, and pregnancy related complications. Polycystic ovarian syndrome is a most prevalent endocrinopathy. Incidence of PCOS is affecting 4 to 6 percent of women of reproductive age. [2] Modern medical science has no factorial and polygenic condition. It interferes with metabolic, endocrine and reproductive functions. It affects the pituitary - ovarian hormones and results in infertility, menstrual problems and excessive body hair growth in female. According to Ayurveda this type of clinical features found in Pushpagni Jataharini and Nashtartva. Treatment of PCOS according to Ayurveda is mainly to correct hyperinsulinenia by using Prameghnus drugs, weight reduction through diet, drugs, Vyayama, Pranayama. Give Yakritotejaka drugs for the oestrogen clearance and to decrease its bio- availability and clear the Avarana by using Vatakapahanashaka drugs for the proper follicular genesis and ovulation.

2. Case Report

A 35 years old women came to the OPD of IPGT & RA (Prasuti Tantra and Stri Roga opd ) on 29/06/2019 Opd no. 19000696GAU Jamnagar Gujarat. **4. Discussion**

![Probable mode of action](image)

---

**Probable mode of action**

- Katurasa, ushana vinya
- Agni deepana
- Avaranashara
- Anayapancha
- Vata anulomana
- Srotoshodhana
- Kapha medohara
- Rectification of avara vaha srotu dushti
- Regularization of menstruation
- Ovulation
- Restoration of fertility

Guduchi, Haritaki, Shunthi: - Deepana - Pachana property and help to rejuvenation also act as Rasyayana or ojas. Erandabhristha Haritaki: Helps in cleansing and detoxifying body system. It helps to clear obstruction and normalize strotas. Pathadi Churna: Help to remove blockage in the.Channels and also works on polycystic ovary due to kaphanask and granthi hara property. Arogayavardhini Rasa: Helped to stimulate function of liver and thus enhancing kayagmi and dhatwagmi. This give stimulus to all secreting glands leading to normal secretions i.e. increase secretion of SHBG by liver which leads to decrease in androgen production. Triphala: helps in cleansing and detoxifying body systems. It helps to clear obstruction and normalize the strotas. Triphala also very useful for reducing body fat. It also contain Tamra (copper), which has scraping (Lekhana and Vranashodhana action) ultimately reducing body fat and also good result of acne due to Vranashodhaka property. It also contain chitrakamool treating a multitude of disease like menstrual problem, liver problem and infertility. Guggul holds high significance in the management of complication of PCOS like Obesity, Cardio vascular disease and Hypertention. The chemical ingredients of drugs possess hypolipidemic, hypoglycemic, folliculogenesis, antioxidant, hepato protectve etc. Pranayama and meditation calm the mind which leads decrease level of depression, anxiety and stress.

**5. Conclusion**

PCOS is an increasing public health problem which is very common and leading cause of infertility in women. Polycystic ovarian syndrome or PCOS is a condition in which a women’s level of sex hormone like oestrogens and progesterone are imbalanced. Allopathic medicines are limited, comparatively Ayurveda have various options of medicine without any side effects for every symptom of PCOS. Allopath helps in managing and controlling effects of PCOS while Ayurveda can be considered as best cure and promising treatment with no side effect.
