

Collective Responsibility for our Current Circumstances

Ilija Lakicevic

MarslaTita 91/12, 21460 Vrbas, Serbia

Abstract: *The corona virus is an economic virus – our planet was a kind of due for an economic adjustment. Probability that we get the corona virus is very low – just 0.0002%. All we need to do is not pay attention to it and not fear it, because fear is triggering the virus. The self-imposed quarantine is so nice opportunity to turn within and connect with the divine core within ourselves – the glorious opportunity for soul growth and taking decision to change our behavior and accompany planet earth in her ascension, but not to resist progress and be thrown off the planet. Millions of people are awakening and coming into truth. They start to realize that desired changes are possible without fight and opposition but with expressing conscious intent for peace and love on this planet and placing their intent on their hearts so that the new energy of love, which is present on this planet, can make it manifested.*

Keywords: corona virus, new energy, soul growth, awakening, wisdom of the new era of consciousness-ism

1. Introduction

Without slightest doubts the corona virus is the hottest topic on the planet right now. What's that? The coronavirus is more than what it seems, and you'll see perhaps by the end of the article how this all kind of ties in.

The coronavirus is getting the news on the planet right now. Why is that? Well, *because of drama*, but because the news is faster than ever. You get the news very, very quickly and people on social media, people with their blogs and everything else, it's very, very quick. It just goes to show how quickly something can be brought to consciousness on the planet. Everybody's tuned into it. It's going so fast, the news is spreading so fast, partly because it's drama. *It's a lot of drama, and a lot of people feeding into the drama.* They love being the one that posts something that's really not true. And there's a lot of mistruths about it right now, but there's a lot of drama.

And, my experience is that, as much as people say they don't like drama, they love it. They love it, otherwise it wouldn't be in their lives. Otherwise, they would leave it. They would walk away from it. But they love it. They feed off it. It's kind of like an odd way of reminding them that they're alive. So there's a lot of drama going on right now on the planet with this coronavirus.

As we all know, nothing happens by chance in our lives – everything is our co-creation and there is a GOOD in every our experience.

What is GOOD in this experience and which lesson we should learn from this experience?

2. Corona Virus is an Economic Virus

Everybody's got coronavirus. Everybody's got it. You have the potential within you. You have the genes or the chromosomes that essentially have it. It just hasn't manifested, hasn't been brought to the surface. Just as every one of you has the genes and the chromosomes for cancer and just about everything else nasty that you can get. You

don't necessarily get it from out there and it suddenly arrives because somebody comes up to you and gives you a *big hug*, you know, face-to-face. You've got the potential within you. It's already there. It just is triggered by things, triggered by attention. A lot of attention in the news to it can actually kind of trigger it. So everybody's got it.

You've already got it. Don't worry. But it doesn't mean it's going to manifest.

Every virus that there is has its thought patterns, energetic patterns, its origins in something. It's not necessarily what it appears to be. **The coronavirus, for instance, it's the energy of economics on the planet.** It's an economic imbalance, so the virus comes in. You know the sexual energy virus? It's a virus of consciousness. It shows up in the body and the mind in different ways, but the **coronavirus is an economic virus.**

Look what's happening. Not that many people have it. How many people died from it?

By the beginning of April this year in America 80.000 people got it and 4,000 died from it. But in the scheme of things, it's not really a lot in terms of a virus. The normal flu in the United States this year, since the flu season started – when would that be, about October – 39 million people in America have gotten the flu. That's a lot. That's a lot more than coronavirus, but it's not in the news. And out of those, about 30,000 have died from just the common regular flu.

So, you see kind of the strange dynamics, the drama, the imbalance taking place with this whole coronavirus thing. It's in the news. It's everywhere. Everybody's talking about it. People are panicking. People are going to the store and wiping out – no pun intended – the toilet paper supply and hand sanitizers and all the rest of these things. Panic all over. It is crazy. I've never seen anything like it with the people rushing and pushing each other and taking toilet paper off of somebody else's cart and putting it on their own. So there's a lot of panic about the coronavirus. In a way, that's good, because it brings a global consciousness. There's nothing else in the world right now that's bringing that kind of

Volume 9 Issue 5, May 2020

attention, focused attention on things. But, at its core, it's really about economics.

You know, every virus, again, has its energy pattern, its meaning in something else. This is the economic virus. And look at what it's doing. Look at how it's affecting the planet. It's affecting everything. Travel – people stop making travel plans. They're in **fear**. And the chances of them getting this are about 0.002 percent. Not a lot. But people are in this hysteria. If they even think the word "airport," they think they're going to catch it. Just thinking the word "airport." It's causing a lot of disruptions and will continue to in anything related to travel – airlines, hotels, business meetings, going to the office. Really anything that requires transactions with groups is going to be affected on the planet.

It's also going to affect ultimately food distribution, because, for instance, the farmer may not want to go to the market. The truck driver doesn't want to haul the goods in. Nobody wants to go to the grocery store, because they're afraid they're going to pick it up there. So it's really going to have a big impact on distribution and goods.

Now, as this happens, as this occurs, it's going to have an impact on the planetary economy of about 3,5 to 4,5 percent hit on the economy. It's going to have an impact, let's say, about 3,5 percent, maybe 4,5 percent of the global economy. Now, that's a lot of money. That's a lot of money, but not really, because after this whole scare thing is done, things will get back to normal. People will need to go back and replenish their supplies, and then they're going to think, "Oh, boy. I didn't have enough toilet paper. I didn't have enough emergency food. Now I better stock up on that also." And so they're going to buy a little extra.

But ultimately, it's bringing a focus, a worldwide focus. **Ultimately, the thing it's going to affect most is the economy, but ultimately it's going to get back to where it was.** If you are in the stock market, if you're an investor, invest now when the prices are down, because it will go back up. I mean, some of the airlines, a few may go out of business, but they'll figure out a way to get your money sooner or later. They'll be right back in the black pretty soon.

But I want you to feel into what's really happening on the planet, the scare with it, the fact that really not that many have it. Worst case scenario is you're going to get maybe 100 to 140 million people that have it. That's a lot of people. That's a lot of getting sick. That's a lot of laying in bed. But ultimately ***the mortality rate, the death rate, is actually not that high. It's similar to or slightly higher than a regular flu.***

So, a lot of people die, and I'm not glossing over that fact, but it's just something that's on the planet like cancer, like anything. It's going to happen. I'm not taking it lightly, but I'm saying let's not overreact to it. Let's see it for what it really is.

3. Economic Balance

And, more than anything, I'm hoping that you stop and take a look at your own economic balance. One of the most frustrating things almost all of you is the money issue. And there are some who are still insisting on their lack of abundance, and then they're doing it from a mental standpoint. They're saying, "Well, I've never had any and I don't know how to get it, and it's corrupt, and it's the big companies and big businesses." So you're going to continue that way. I want you to just stop and say, "No, I am abundant. I allow that abundance." You don't have to know anything about making money. You don't have to have a high paying job. You don't even have to quit the job you have now, and I know to the mind, it says, "Well, that's nice talk, but the reality is ..." The reality is what you want it to be, not necessarily what you think it to be. So you shift your whole perspective about abundance and about the economy.

I hear so much from people complaining that it's all these big corporations that are doing all this nasty damaging things to them and to the world, and, you know, that's being a victim. It really is. I'm not defending big corporations, but what I've seen is they get so big they fall apart. You know, what really makes the world move are the small companies, starting with the farmers, and then going to the small shop owners and the small entrepreneurs and the small inventors and creators. That's the real movement.

Once things get up into the big corporate level, it slows down. It gets inefficient. There are very, very few risks that they take, and eventually they're disrupted and replaced. It's kind of almost a natural rhythm. They get so big, they can't really do anything anymore and then internal corruption will set in and eventually they fall apart. Look at some of the big companies that don't exist anymore. I mean, big in your lifetime. For example Kodak. Kodak was huge. You found Kodak everywhere. Where are they now? Nowhere. Nowhere.

So I want you to stop, in this whole time of the coronavirus – which is going to last approximately six months, you're going to see it on the planet and it's going to be in the news, there's going to be a lot of fear and concern about it – I want you to **stop and really assess your own economy.** Do you need a virus, this virus that's kind of already in your body, do you need it to come forth to do this battle which affects your health? ***Or are you willing to allow abundance?*** And don't worry about where it comes from. You don't have to start a business or anything like that. **You actually don't have to do anything except allow it and then it's there.**

So it's a big scare right now that's out there taking place, a really big scare, and people feed off of it. But just stand behind the short wall. In other words, you're aware of it but you're not getting involved in it. Stand behind the short wall and really take a look at what's going on, how it's affecting the planet. It doesn't matter really actually what it is. ***You know, it's the coronavirus, but it doesn't matter what it is; look at how it's affecting people and look at how it's affecting the economy, in particular, how it's affecting the planet.***

The planet was kind of due for an economic adjustment, and I'm not talking about a market crash. I'm talking about an adjustment. Nearly every company on the planet right now has to stop and take a look and say, "What do we do? Do we have all of our staff members work from home? What do we do if we can't get goods from China or India? What do we do if there is an outbreak in our distribution system and we can't get the components that we need? What do we do if one of our staff members falls sick with this?" Nearly every company, at least in the western world, is having to stop and take a look and say, "What if?"

So that's really actually, in a way, kind of incredible, because it's causing this consciousness focus. **Most people don't know it's about money or the economy,** but they know they have to stop and do something. It's going to affect businesses more than anything.

So, a couple of things. What for you to do? *First of all, take an assessment of your own abundance level. Does it need a virus to move in to shake things up? Are you truly allowing abundance or are you still playing the victim? Are you truly opening and allowing abundance?*

And then what next? What else is happening with this whole virus? It's kind of interesting, really fascinating. It's going to **cause people to stay home.** It's already doing that. People stay home, canceling travel plans, not going to meetings, not even wanting to go out to the store, any place where there's a gathering, a sports gathering or anything like that. So you're going to find a lot more people sitting at home watching TV or just sitting on the computer creating more drama about the coronavirus. So it's causing people to have to go home, kind of a cocooning time. It's kind of interesting.

And what you're also going to see is kind of a side effect from a lot of people staying home, and they're going to be doing a little bit of office work, but not as much as normal. Now they have this extra time and a lot of them are going to be bored. *Instead of using that extra time to, let's say, do something for their health or their wellbeing, their spiritual being even,* they're going to sit at home being really bored and creating more drama. So that's what you have to look forward to between now and probably the end of summer, maybe a little bit beyond that.

For yourselves, you've been staying at home a lot more. And when I say home, not just your physical home, but you've been going inward for year and years now. As you come into **your Realization,** you've been staying inward. You've already been avoiding the crowds and, I mean, most of you really don't have a big desire to go to a sports game with thirty, forty thousand other people. They cringe at the thought. Not even a rock concert, unless it's somebody really good. You've been staying home. You've been kind of cocooning for a long time now.

What to do? Not worry about it. What about taking more *vitamin C?* Is that going to help? And I'll say yes, on two counts. Vitamin C is pretty good anyway and you can't take too much. Your body dispels it, gets rid of it. So it's not like you're going to OD on orange juice or anything or vitamin

C. Vitamin C is really good, and it'll be coming out more and more in the news pretty soon that vitamin C is a good preventative for the coronavirus. I think it's interesting though.

I look at vitamin C as like 'vitamin C' as in 'consciousness'.

So take more vitamin C and take more "C" **just for consciousness.** Allow yourself to be more aware, more conscious of what's going on.

4. Realization

I am Master of disaster because TRUTH is a disaster for LIE, KNOWLEDGE is a disaster for MYSTICISM (lack of knowledge), LOVE is a disaster for FEAR, EASINESS is a disaster for BUSINESS, SIMPLICITY is a disaster for COMPLEXITY, EFFICIENCY is a disaster for INEFFICIENCY and CHEAP is a disaster for EXPENSIVE. I'm proud of being Master of disaster. Life must be lived anyway, why not, therefore, live it masterfully?!

I am Truthbringer in service of Word of Truth from Father God Aton, One Light, Source [1-7]. My mission is to bring truth and it is up to you if you will accept or turn away from the truth – certainly you will live your choices.

We human beings are spiritual beings who have started to incarnate on this beautiful planet many millions of years ago in order to resolve the issue of relationship between consciousness and energy and the possible danger that energy could get stuck and destroy whole creation. Good news is that we have succeeded in our mission and that we now know that energy responds to human consciousness, that all energy is ours to serve us, if we choose so. With that on April 4th this year the Order of the Arc has been disband and all interferences, aliens, has been removed so that we people as sovereign beings can guide ourselves together with planet earth into ascension.

Let me quote here God Aton: "Keep in mind, also, that your adversary - while causing you to lose your way - HE HAS NEVER LOST SIGHT OF HIS GOAL - TO DO YOU IN! Khazars - false Hebrew, Judean-Judaists (who call themselves "JEWS") - ARE THE ENEMY OF CHRISTIANITY. "Their" bible tells them to murder Christians any way they can! They are opposed, or THE OPPOSITE OF Christness and Christ! So they certainly don't like His kids - YOU!"

The only way that mankind can save this present degenerating civilization is to throw off all that is barbarian and ungodly in him through acquiring the higher knowledge necessary for his inner, spiritual unfoldment [8-19].

The only way that mass-man, who constitutes a civilization, can acquire that higher knowledge is through mass-teachers, and there are no such teachers in any of our scientific, educational or religious institutions. None of them has made any attempt to fulfill this requirement for bringing God Aton Creator and man together in close communion and companionship. In fact, every one of these presumably man-

building organization has done just the opposite, which has retarded the unfoldment of the spiritual nature of man. This is indeed unfortunate for some hundreds of thousands of advanced thinkers have freed themselves from the anchors of traditional material concepts and are seeking earnestly for the Light of higher knowledge which will eventually illumine them into Cosmic Christ Consciousness.

I'm one of these teachers dedicated to the final victory of the Word of Truth.

Let me share with you the true perception:

Everything here is about REALIZATION: who we really are, becoming One with Creator again and understanding that energy responds to consciousness and that all energy is ours to serve us. Total conscious devotion to that sacred goal leads to success and changing of everything in our lives, but first and foremost changing our attitude to energy: *let energy serve us!*

Realization can only be achieved if we take full COLLECTIVE RESPONSIBILITY for our co-creation:

We have pandered to the wishes of the "powers that be" (powers which will soon be no longer)
 We have scrambled for money.
 We have degraded our principles.
 We have relinquished our divine sovereignty.
 We have let ourselves be led by the ass.
 We have ignored "dreadful situations", both near to us and on the other side of the world.
 We have let despots rule.
 We have allowed despots to develop biological weapons.
 We have let corrupted religions dictate the rules.
 We have deserted our fellow humans.
 We have sunk into the depths of depravity.
 We have injured ourselves and the planet.

According to the inevitable law of action and reaction, all this MUST have serious consequences: we must reap what we sow!

Do we really think we can stop the natural and sacred desire to progress towards perfection? Our beautiful planet earth cannot bear this stagnation any longer, and as she is supported by celestial forces (AS WE ALL ARE, IF WE CHOOSE THE PATH OF PROGRESS TOWARDS PERFECTION), *we are now at the point where we must CHOOSE whether to change our behavior and accompany her, or whether to resist progress and be thrown off the planet.*

These may seem like incredible developments, and incredible consequences, yet if we fully investigate our falsely presented planetary "history", and that of our solar system, then all this will actually appear to be a logical conclusion.

In this time of imposed or **self-imposed quarantine**, many of us are cut off from our familiar routines, familiar contacts and familiar habits. In short, we find ourselves in a "tight corner", on a physical level but also on a mental level.

There is no point in trying to describe exactly what situation we are in, or what awaits us, for **this will differ so tremendously from person to person, and from country to country.** Suffice to say that wherever we are, if we look out of a window and see a bird flying, we *will realize that we are not "free" to do as we wish, compared with the past.*

What does it mean, on a *mental level*, to be in a "tight corner"? *It means that our views and our outlook on life have so far been restricted, that we have put on corsets of superstition, that we have steeped ourselves in dogma, that we have swamped ourselves in rituals which have hadstifling and harmful results.*

We may still be naive to all this, but *when we come to rest in our "corners", we will be forced to discard all this. We will become "naked", separated from all structures and pre-meditated priorities. We will be pared back to the bare essentials of caring for ourselves and others.*

We will be forced to give up our addictions. We will realize our dependency on outer attributes, instead of relying on OURSELVES and – to put a finer point upon it – on the DIVINE CORE WITHIN OURSELVES from which we have long been separated.

Has this all happened randomly? Has the corona virus inexplicably appeared and run riot across the globe, making us helpless victims?

THERE IS GOOD IN EVERYTHING! What are the *advantages of being "caught in a corner"?*

We are forced to concentrate our gaze in one direction.
 We are forced to be STILL.
 We are forced to self-reflect and GO WITHIN.
 We are invited to DEVELOP FAITH IN THE DIVINE PLAN.
 We gain INNER STRENGTH and SELF-TRUST.
 We are trained to trust OUR OWN INTUITION.
 We are forced to recognize the value of others who are no longer around.
 We are forced to realize what was a burden.
 We are forced to recognize our crutches.
 We are forced to recognize our joys.

In short, this is a GLORIOUS OPPORTUNITY FOR SOUL GROWTH.

Whoever you are and wherever you are, this is the period of TRANSITION TO A BETTER WORLD. YOUR PERSONAL TRANSFORMATION IS AN ESSENTIAL STEPPING STONE IN THIS PROCESS. EACH INDIVIDUAL – AND ALL THEIR THOUGHTS, ACTIONS AND LEARNING EXPERIENCES – COUNTS TOWARDS THE CONSTRUCTION OF A PEACEFUL WORLD.

Therefore, rejoice in this time of enforced stillness, for it will result in glory.

5. Wisdom of the New Era of Consciousness-ism

First and foremost, the most important thing is to be AWARE who you are and to KNOW it through experiencing it through conscious breathing!

Let me start with simple thing: you use to say "My body", right? If so, it is so logical that you are NOT your body, you are the owner of your body! WHO IS THE OWNER?!

The latest conclusion of quantum physics is that the entire universe is a hologram! Wow! So right! The main feature of a hologram is that every part of it is equal to the whole hologram. If you suspect it buy a hologram and take a smallest part of it and you will see the whole hologram in that smallest part!

What is not known yet in quantum physics is: who is the Creator of the holographic universe! There MUST be a Creator! We know that every piece of matter must have a creator - only in the official scientific atom model there is nowhere its Creator! Of course it is a BIG FAT LIE! I've experimentally confirmed the true atom model where in the center of each atom is its creator - God, Spirit, Mind, Source, or however you want to call it!

Logically, God created universe and human beings holographically so that every human being as holographic part of God is equal to God!

So, YOU ARE GOD, ALSO! Now you know who you are!

Please do not be confused with religious doctrines and their God's, since every religion on this planet is worshiping and promoting anti-God - satan! Period.

God Creator had created universe and human beings instantly and perfect - in His own image, since God's thoughts are manifesting instantly and had been manifested instantly, and **every potential** had been manifested instantly! So, we are traveling backwards in time and according to our free will we chose to re-manifest something and experience it! That is why it is of utmost importance that we work with God!

God gave us human beings FREE WILL - the same what God has. We can choose to experience re-manifestation of anything in the old energy way: hard, complicated, inefficient and expensive, or we can choose the new energy way: easy, simple, efficient and cheap! I bet you agreed with me and we chose the new energy way! The old energy way is actually what we experience as separated from God - that is what EGO is. We are aware of it but we are aware too, of the truth that we are ONE with Father God.

Now, this traveling backwards in time and experiencing is what we as consciousness are - God in experience! So, we are consciousness and we consciously chose the new energy way.

Please allow me to share with you some insights about wisdom of the New Energy way:

Stay in your Heart no matter what is happening to you and around you. It will not always be easy to do. You will have challenges. The chaos and darkness is not over yet, however, your Heart can help you through it. It is the only way.

5.1 This wisdom is requires

- 1) **Be aware** of the world around you. Do not bury your head in the sand. Know what is happening in your country and the world with politics, education, finances, medicine, weather, the environment, and all other aspects of life.
- 2) View them without attachment, judgment or emotions. Be the Silent Witness. Just observe.
- 3) You will see changes happen. You will see greed and corruption turn into kindness and respect for all of life. You will see anger and discourse turn into peace and harmony.
- 4) **All will appear as Miracles, and they are, yet they are not, because that is the natural state of the new Energy and Awareness** coming.
- 5) When you view the old ways, the greed, corruption, violence, and tragedies, STAY NEUTRAL, and STAY IN YOUR HEART.
- 6) Use your Light on yourself and on the world. Whenever an incident happens, direct your Light to go to that location and transmute all lower energies. ALLOW Dodeca new energy to turn the negativity into the Light.
- 7) Write down ALL you wish to accomplish this year, as well as, what you wish to become. Dream Big! Read this list out loud to yourself once a week, every week for the whole year.
- 8) Take very good care of yourself. Eat well, sleep well, take time in nature, laugh and be happy.
- 9) Know that I AM always with you. Call upon me and I will answer.

Let me add some clarification of the New Energy, with some scientific background keeping simplicity as the guiding tread.

I used to talk about New Energy in my presentations, but jut few have understood it, if any.

The basis of all is to comprehend that we human beings are CONSCIOUSNESS and that we create everything! We create mentally with dreams, imaginations and thinking so that whatever we are experiencing here on Earth we are ACTING!!! Consciousness IS, it is unchangeable, it is infinite and eternal, it is ALL THERE IS!

By the power of free choice we have created the Old Energy to experience fear and limitations. It is energy of opposition, of conflicts, with main tools of creation: FEAR, POWER, FORCE and EFFORTING! Creation with Old Energy is: Hard, Complicated, Inefficient and Expensive! And that is why war after war and why all our technologies are hard (dis-ease), complicated, inefficient and expensive.

By the power of free choice in 1987 we have decided to create New Energy which has been established on this planet on September 18th, 2007 (triple nine – 9 is number of completion!). New Energy is energy of harmonization, of

balancing, with main tools of creation: LOVE, JOY, SIMPLICITY and FREEDOM! Creation with New energy is: EASY, SIMPLE, EFFICIENT and CHEAP – opposite to the Old Energy tools!

The main law of creation with New Energy is: *Collapse of Power creates Waves of Turbulence which create a Void (which is Source of Everything) when New Consciousness is born and New Consciousness creates further Collapse of Power which creates new Waves of Turbulence and so on in circle!*

Actually, the New Energy is CATCH for all those who are continuing creation with Old Energy tools since they are destroying themselves! Nothing bad – it is about their free choice!

6. Conclusions

We are co-creators of our reality and only if we take responsibility for our co-creation we can change it.

Corona virus is an economic virus which will cause economic rebalance of the planet. Don't fear it and don't pay attention to it, and you will not get it. Pay attention to your own economy – decide for abundance and it will come to you thank to the new energy of love which is present on this planet.

Latest in six months new economy will be established on this planet.

The self-imposed quarantine is so nice opportunity to turn within and connect with the divine core within ourselves – the glorious opportunity for soul growth and taking decision to change our behavior and accompany planet earth in her ascension - not to resist progress and be thrown off the planet.

Millions of people all over the world are awakening by coming into truth and becoming aware of the presence on the planet of the new energy of love which can fulfill every their desire without need for fight and opposition. That is how peace and harmony are establishing on this planet slowly but surely.

1991 – 2000 Was working in the Institute of Physics in Zemun (Serbia) on investigations of the plasma force-free configurations and in 1995 I acquired the Research Professor degree.

2000 – At the end of 2000 I chose to leave the Institute of Physics and went on my own way to discover and learn the God’s principles and laws of creation.

After 18 years of the progression toward that sacred goal, I finally succeeded and now I know many of the God’s creational principles and laws (unknown until now) and can apply them for the simple and efficient creations which make the basis for a new life quality on this planet.

I am a pioneer, creating with a New Conscious Energy and building a new civilization without electricity.

I’ve developed the TESLA RADIATION BALANCER – the genuine product in form of a self-adhesive sticker certified by the Hado Life Institute of Dr. Masaru Emoto which 100% balances radiation from any device, if attached to it, protecting the human body and environment from its harmful effects and eliminating with time the damages already caused by the radiation. It can be successfully applied to: cell phones, computers, laptops, microwave ovens, cordless phones, tablets, wireless monitors, Wi-Fi routers, TV-sets, Radios, and any other source of radiation.

Thanks to the consistent pursuit of my Leitmotif “The Authority of Truth rather than the Truth of Authority” I have experimentally proved the true atom, cell and particle “ATON” concept. According to the “ATON” concept, atoms, cells and particles are made of light which are spinning around the centering Mind (Spirit) points (the black holes). Nature expresses energy as electric potential in only one way, which is the same way both for the atomic and for the stellar scale: by projecting mentally the rings of visible light which are spinning around the centering Spirit points. This amazing beauty of creational simplicity is the basic fundamental truth of a new science that is based on the knowledge of the cause.

I wrote two books: “GOD IN THE ATOM” and “DODECA 101 LOVE ENERGY” which are available on my website. I use to practice sport very gladly and am a unique tennis coach.

Author Profile

I was born on August 6, 1950 in Grab, Montenegro (former Yugoslavia). 1982 – Acquired my PhD in the field of atomic and plasma physics, at the same Faculty, under the title: “Regularities and Systematic trends of Stark Width and Shift Parameters of Spectral Lines in Plasmas”. 1985 -1987 Spent two years as fellow of the Alexander von Humboldt Foundation from Bonn (Germany) at the University Düsseldorf developing plasma UV-spectroscopy at the tokamak UNITOR and performing measurements of the plasma instabilities in the scrape-off layer at the tokamak TEXTOR in Jülich (Germany).

1987 – 1991 Worked as the guest scientist at the Max-Planck-Institute for Plasma Physics in Garching by Munich (Germany) performing measurements of the magnetic field configuration at the stellarator W7AS as well as the measurements of the limiter heat load.
