

What is Light?

Ilija Lakicevic

MarslaTita 91/12, 21460 Vrbas, Serbia

Abstract: *Light Is, like God Aton Is, Love Is. Light cannot be seen, but only KNOWN. Knowledge can be obtained by Man only through awareness of the Spirit within him. Man can acquire that knowing only through greater awareness of the Light of the universal Self which centers him as ONE WITH GOD ATON. All matter is light. All matter in the universe is but differently conditioned motion simulating Light, and all differences in condition are Pressure differences. Waves of light do not travel. They reproduce each other from wave field to wave field of space. Human has a compressed matter, or "physical" body and an expanded "ghost", or energy form. In Visible universe is in absolute control of visible universe. The whole purpose of life is to learn how to manifest God Aton in Truth and the Law.*

Keywords: Light, Human, light, life, seed, universe

1. Introduction

This current time era (age) is marking an epochal advancement in Man's evolution toward his goal of omniscience and omnipotence. Man becomes a higher being with greater power as he acquires knowledge. In knowledge alone lies power. Only through knowledge can Man become co-creator with God Aton. **Knowledge can be obtained by Man only through awareness of the Spirit within him.** Lack of that awareness is the tragedy of today's civilization. During the last century or so of the greatest progress in the history of man, great nations of the world have killed, robbed, and enslaved other men to build their own empires. Today Man has killed millions, condoning his killing as necessary for his self-preservation. He is now but reaping the seed of his own sowing. He who lives by the sword shall die by the sword. **No Man can hurt another Man without condemning himself to greater hurt.**

Fear dominates the world of today. While fear is in the world, love cannot also be. Love can never dominate the world until Man ceases to live a primarily sensed existence and knows the Light of the Spirit within him.

This age brings man one step nearer to the universe of greater knowing through greater comprehension of Man's relation to man, and to God Aton. Each past cycle in the growth of Man toward higher levels has been illumined by the few inspired messengers of the Light who have known God Aton in themselves.

New inspired messengers who know God Aton in themselves will likewise give the Light to this new cycle. **And these few messengers of the Light must multiply to legions, for the need of a spiritual awakening is great.**

Man's whole reason for being is to gradually pass through his millions of years of physical sensing into his ultimate goal of spiritual knowing. Man has now reached a transition point in his unfolding where he must have that knowing. He can acquire that knowing only through greater awareness of the Light of the universal Self which centers him as ONE WITH GOD ATON.

2. Two Supreme Illusions of Man

The secret of Light is fathomable to man only by first solving his two supreme illusions. **The greater of these is the illusion of the universe itself.** Man has never known his universe for that which it is in reality, but only for what his senses have made him believe it to be. His senses have deceived him mightily.

The other is the illusion of Man himself. With but few exceptions, Man has never as yet known Man. Nor has he known his relationship to the universe, nor to his still more unfathomable God Aton. The little that Man knows of himself and his universe is what the eyes and ears of his body have told him that they have seen and heard about himself and his universe. But Man has eyes and ears of the Spirit which see and hear what Man's sensed eyes and ears can never see or hear, for man is still too new in his unfolding. He is still but in the ferment of his beginnings-which is seeming to also be very near his ending.

Man senses motion, change, sequence, multiplicity, time, activity, life, death, good and evil. Of these things he is most certain. His senses have made him most certain of their substantial reality. In the face of the fact that he has lived with his familiar universe all his life, it is not easy for him to accept the statement that it has no existence whatsoever, that it is all illusion, all of it, nothing being left upon which to even base that illusion. He can accept the illusion of the railroad tracks meeting upon the horizon, but the railroad tracks are real, even though their seeming meeting is not. They, at least, still remain as a basis for their own illusion.

A mirage of a city is comprehensible to man also as an illusion. He knows it does not exist but he also knows of the reality of the city which thus repeats itself, ghostlike, in the mirrors and lenses of light waves of the heavens above the city. To tell him that the city, as well as its own mirage, has no existence is to lay too heavy a tax upon his credulity and patience. Yet that is what the very secret of Light would reveal, and that is what you must tell, simply and convincingly, to layman, churchman and scientists alike, and in the language standards and methods which each requires for his conviction. Thus comes forth our work in the manner laid-out that each might come into understanding within his

given realm of perception. So you must come, therefore, and know God Aton, His universe, and Man with other eyes than our sensed ones. The eyes of the Spirit are knowing eyes. God Aton's universe of knowing is all that is. The universe of seeming motion simply does not have existence. Therefore, why be a slave to sensing when you can be as God Aton in our knowing?

Without thinking God Aton's One Idea could not become many "one ideas" for His stage setting. Without motion His cosmic play could not be played, nor could its actors be. Without change His undivided One Idea could not unfold. Without time His drama of His own creating universe could have no sequences. Without motion, time, change and sequences the unfolding of God Aton's Mind imaginings could have no measured space for its stage settings, no screen for its light projections.

Therefore, see them as God Aton imagines them, but know that they are but unfolding patterns of His knowing through His thinking. **Know, therefore, that time is naught, nor are there moving things which change; nor is there life, nor death, nor cam, nor heat, nor good, nor bad in His universe of Himself.**

3. Light can only be known

Light cannot be seen; it can only be KNOWN. Light is still. The sense of sight cannot respond to stillness. That which the eyes "feel" and believe to be light is but wave motion ("electricity") simulating the idea of Light. Like all things else in this electric wave universe, the idea of Light cannot be produced. Electric waves simulate idea only. They do not become idea.

When man sees the light of the sun he believes that he is actually seeing Light when the nerves of his eyes are but "feeling" the intense, rapid, shortwave vibration of the kind of wave motion which he senses as incandescence. The intensely vibrant electric current mirrored into the senses of the eyes fairly burns them. They cannot stand that highly rate of vibration. The eyes would be destroyed by such a vibration, but light would not be the cause of that destruction. Fast motion simulating Light would be the cause. It would be like sending a high voltage electric current over a wire so fine that the current would burn it out. Man likewise cannot see darkness because the nerves of his eyes which sense motion slow down to a rate of vibration which he can no longer "feel".

Man is so accustomed to the idea that he actually sees light in various intensities illuminating various substances to greater or lesser degree that it is difficult for him to realize that his own senses are but acting as mirrors to reflect various intensities of wave motion. But that is all that is happening.

Every electrically conditioned thing in nature reflects the vibrations of every other thing, to fulfill its desire to synchronize its vibrations with every other thing. All matter is the motion of light. All motion is expressed in waves. All light waves are mirrors which reflect each other's condition onto the furthestmost star. This is an electrically conditioned

wave universe. All wave conditions are forever seeking oneness. For this reason all sensation responds to all other sensation.

4. Light Is

We people have had ongoing arguments amongst our "top" scientists for generations as to what is light. Newton claimed it to be "corpuscular". By definition this would be something like the little separate "cells" which are represented as "blood cells" (red, white, etc.). Obviously this means "literally": a minute particle of matter. Or is light a "wave"? Evidence is abundant in favor of the argument for both theories. **It IS both.** Light is expressed by motion. All motion is *wave* motion. All waves are expressed by fields of equal and opposite pressures of two-way motion. The entire volume within wave fields is filled with the two opposite expressions of motion - the positive expression which **compresses light into solids**, and the negative expression which **expands it into space surrounding solids**.

Figure 1: God Aton's projection mirrors of action (left) and mirror planes of reaction (right)

5. "Matter" is Wave - "Matter" is light

These together constitute what is called matter and space. It is difficult to conceive light as being purely corpuscular for light is presumed to fill ALL space. Space is not empty. It is full of wave motion. Corpuscles of matter are half of wave cycles of light. Space is the other half. There needs to be no mystery as to whether or not light is corpuscular or wave, for waves of motion which simulate the Light and darkness of space is all there IS. The light and motion of solid matter, and of gaseous matter of space, differs only in volume and condition.

Water of Earth is compressed into small volume while water of the heavens is expanded thousands of times in volume. Each condition is the opposite half of the cycle of water. Is this beginning to make some logical sense to you?

Water vapor is water turned inside-out. It again becomes water by turning outside-in. Expansion-contraction sequences result from this process. You are now into the cycle wherein all within must come without. If you can think about this "concept" and be comfortable with it - you are a long, long way along our trail to knowing.

All matter is light! Water of the heavens **still is water**, and it still is **light waves**. No change whatsoever has taken place between the waters of Earth and those of the heavens except a change of its condition from positive to negative

preponderance. This change is solely due to a change of its direction in respect to its **center of gravity**. Now don't go crazy here either, for "gravity" is going to have to come to our knowledge as not what you perceive it to be. It has to do with **density** and not magnetic pull or push.

All dense cold matter, such as iron, stone, wood, and all growing or decaying things, are light. You do not think of them as light but all are waves of motion, and all waves of motion are light.

Please pay attention here: Light is all there is in the spiritual universe of knowing and *simulation* of that Light – light - in opposite extensions is all there is in the electric wave universe **of sensing**. The simulation of Light in matter is NOT Light. There is no "Light" in "matter".

6. Waves or Corpuscles

A lot of controversy has come forth as to whether light is corpuscular, as Newton claimed it to be, or waves. There is much evidence in favor of both theories. It is both. Light is expressed by motion. All motion is wave motion. (A "tornado" vortex, the surface of an ocean...) All waves are expressed by fields of equal and opposite pressures of two-way motion. The entire volume within wave fields is filled with the two opposite expressions of motion - the positive expression which compresses light into solids, and the negative expression which expands it into space surrounding solids.

All space within wave fields is curved. Curvature ends at planes of zero curvature which bound all wave fields. These boundary planes of omnipresent magnetic light act as mirrors to reflect all curvature into all other wave fields in the universe, and as fulcrums from which motion in one wave field is universally repeated. The outstanding characteristic of waves is that they forever interchange. Troughs become crests and crests become troughs. Gravity pressure above and below their axis is equal. So long as equality of interchange continues rhythmically, waves repeat their interchange. When the sloping sand at the beach prevents this equality of rhythmic balanced interchange, the waves accumulate unbalance until they crash on the shore.

Every transaction in human relations either continues or discontinues, in accord with obedience of disobedience to this one law. A man, who sells and gives less value for that given to him, lays the foundation for his own wreckage. He finds it ever harder to sell and loses many purchasers by gaining their ill will. He who gives equally for what is given to him multiplies his purchasers and prospers by gaining their goodwill.

The pulse beat, the swinging pendulum, the in-breathing and out-breathing of living things all exemplify God Aton's one law of rhythmic balanced interchange. Any deviation from that law in the heart beat of a man would endanger his continuance, but when there is a rhythmic balanced interchange between the two compression and expansion opposites, man's life continues to function at maximum.

Man has free right to choose his own actions, but he must

balance those actions with equal and opposite reactions until he learns that God Aton's one law MUST be obeyed. This God Aton holds inviolate.

The whole purpose of life is to learn how to manifest God Aton in Truth and the Law. The lesson is a hard one but man, himself, makes it hard by his unknowing of the Law. **As man gradually knows his purpose and the Law by knowing God Aton in him, life becomes more and more beautiful, and man more powerful in his manifestation of power. Man's power lies in giving. He must learn to give as nature gives.** Each half of a cycle eternally gives to the other half for re-giving. Nature forever unfolds into many for the purpose of refolding into one. **Each individual must manifest this universal Law.**

The desire of some parents to run their children's lives for them, often claiming that they have sacrificed their own lives for them, are taking from their children - not giving. They are taking away the initiative children need to complete their own cycles; they must live their own lives for themselves. Ah so, just as God Aton with US. If He lived our lives and do this or that FOR us, He would've taken from us our very right of passage. Man must know the principle of Creation, giving between each interchanging opposite half of each cycle for the purpose of repeating its giving.

This is Universal Law and each Individual must manifest this Law.

Man will forever war with man until he learns to give his all with the full expectation of equal receiving, and never taking that which is not given as an earned reward for this giving. Where do you think our world is in this particular cycle? Does look pretty bleak, eh what?

There is abundant confusion concerning the many kinds of particles of matter such as electrons, protons, photons, neutrons and others. These many particles are supposedly different because of the belief that some are charged negatively, some are charged positively and some are so equally charged that one supposedly neutralizes the other. There is, however, NO such condition in nature as negative charge. Nor are there negatively charged particles. "Charge" and "discharge" are simply opposite conditions, just as is filling and emptying, or compressing and expanding which are opposite conditions.

Compressing bodies are charging into higher potential conditions. Conversely, expanding bodies are discharging into lower potential conditions. To describe an electron as a negatively charged body is equivalent to saying that it is an expanding contracting body. They are also opposite in direction. In this two-way universe, light which is inwardly directed toward gravity charges mass and discharges space. When directed toward space it charges space and discharges mass.

The charging condition is positive. It multiplies speed of motion into density of substance. *The principle of multiplication of motion because of decrease of volume is the cause of the acceleration of gravity.* The discharging condition is negative. It divides speed of motion into tenuity

of substance. *The principle of the division of motion because of expansion of volume is the cause of the deceleration of radiation.*

You can perhaps better comprehend this principle by knowing that what we call "substance" is purely motion. Motion simulates substance by its variation of pressures, its speed and its gyroscopic relationship to its wave axis. Particles are variously conditioned as to pressure but there are no different KINDS of particles. ALL are light waves wound up into particles which are doubly charged. Their position at anyone point in their wave causes them to have the electric condition appropriate for that point.

Light particles are forever moving in their "octave" waves. All are either heading toward their cathode or their anode, which means toward gravity or vacuity. They are all moving either inward or outward - **SPIRALLY**.

Yes, indeed, I usually "lose" a lot of electrical engineers and ones who are TAUGHT well but incorrectly. Argument will only PROVE that my statements are correct.

6.1 All light Particles are *Alike*

Furthermore, all light particles are either expressing the mother-light principle or the father-light principle. For example, if a particle is on the amplitude of the wave, it would be a true sphere, and as a true sphere it would be neither positive nor would it be negative. It might then appropriately be called a "neutron". A particle which is spirally heading inward toward the apex of a vortex in the process of becoming a sphere might appropriately be called a proton, because of its expressing the father-light principle. We will cover these "concepts" also as we move along. It is difficult to get it all said at once. So, **AGAIN: if it is moving spirally outward, it could appropriately be called an electron because it would then be discharging in excess of its charge or expanding in excess of its contraction.**

The light rays, for example, leaving the sun, are discharging the sun. They are also discharging themselves because they are expanding into greater volume. They are also lowering their own potential by multiplying their volume. They alternate their charge when radially converging upon the Earth. They are then charging the Earth and themselves by contracting into smaller volume and are simultaneously multiplying their own potential by thus contracting. This is also why it becomes easy to prove that our body is simply a result of compression and expansion. This, in addition, shows you vividly that the material universe is an "electric wave universe". Think of it as breathing out and breathing in and let go of the complexity always thrust into the equation by those who would dislike you to actually know anything about ourselves.

6.2 Alternators and Cycles

How about adding to that semi-cycles. *In an electric current there is a constant interchange between anode and cathode or positive and negative poles. A light particle expands as it leaves the cathode in an outward radial direction and*

contracts as it radially approaches the anode. This light particle has been the same light particle at all times in all parts of its journey. Its variation of charge and discharge, its direction of motion and the condition of wave pressure in which it finds itself at all times are the sole reasons for its changing from one condition to another. The light particles are all the same light particles, all being different only in **pressure** conditions.

This same is also true of the elements of matter. Whether they are iron, carbon, silicon, radium, etc., all are composed of the **same kind of light particles**. They all **seem** to have different qualities and attributes, but those qualities and attributes *are likewise given to them purely by the positions they occupy in their WAVES.*

7. God Aton is Light

Without Light all things perish. Even in the greatest depths of the oceans wherein life seems to be resting - there is life and thus - there **MUST** be Light. To the human eye indiscernible but, nonetheless, it is there for God Aton is there and with God Aton goes and comes that which is projected as "Light".

We speak of things great and small and, yet, ALL is tiny compared to the vastness of infinite universe - greater "ALL". Man comes forth and overlooks his most wondrous attribute - that (s)he, too, is naught save Light and he, being "Light", is as God Aton for God Aton IS LIGHT. Man searches and searches, figures and calculates looking for that which is NOT in his hope to find God Aton and Source for he longs to be with the ONENESS again.

It has been difficult to conceive light as being purely corpuscular, for light is presumed to fill all space. Space is not empty. It is full of wave motion. Corpuscles of matter are one half of wave cycles of light. Space is the other half. **Just like man who has a compressed matter, or "physical" body and an expanded "ghost", or energy form.**

There need be no mystery as to whether light is corpuscular (solid), or wave (invisible movement - a so-called "heat mirage" on a hot desert road is invisible, but you can still see it, can't you), for waves of motion which simulate the Light and darkness of space is all there is. Just like man's cinema - light and darkness SIMULATE life. But when you turn off the light projection machine, which suns are, the motion picture of "Creation", projected upon the Black Movie Screen of SPACE, ceases to be. The light and motion of solid matter, and of gaseous matter of space, differs only in volume and condition. Water of earth is compressed into small volume while water of the heavens is expanded thousands of times in volume. Each condition is the opposite half of the cycle of water.

8. All Matter is Simulated Light

All things *simulate* Light. A particle of light which belongs to an atomic system of sodium has in it all of the entire range of the elements, besides all of every other creating thing in the universe. It acts to carry out the purposefulness

of the idea of sodium simply because it is in the pressure condition of sodium, and is a part of the unfolding pattern of the seed of inert gas of the octave from which it has unfolded. If that same particle unfolded from the seed of the oak, it would be part of the wood fiber of its trunk, or leaf, or of the chlorophyll which colored its leaves, but it would be the same kind of particle while fulfilling the purpose of cellulose as while fulfilling the purpose of the sodium as well.

All matter in the universe is but differently conditioned motion simulating Light, and all differences in condition are PRESSURE differences.

8.1 How about "Travel"?

Ok, here is a recognized number: The speed with which light presumably "travels" is 186,400 miles per second. Now consider that the distance between stars and planets is so great that the speed of light is computed as "light years", for the distance computed by lesser units of time would yield figures so great that they would be meaningless. Almost as meaningless as to say the fact of it - there is no distance at all and no light "travel" at all. BUT...

It only *SEEMS* that light travels. It is but one more of the countless illusions caused by this nice "wave" motion. Waves of the ocean seem to traverse the ocean but they **only APPEAR to do so**, for waves are **pistons** in the universal engines, and pistons operate **up and down**. Wave pistons of light, or of the ocean, operated radially and spirally inward and outward, toward and away from gravity. Now aren't we having fun with this nasty old scientific subject?

Waves of light do not travel. They **reproduce each other from wave field to wave field of space**. The planes of zero curvature which bound all wave fields act as mirrors to reflect light from one field into another. This sets up an appearance of light as traveling, which is pure illusion.

The "sunlight" you feel upon your bodies is actual light from the sun. What is happening is that the sun is reproducing its own condition on the Earth by extending the reproductions out through cold space into ever enlarging wave fields until those reproductions begin to converge again toward your center of gravity into even smaller wave fields. The heat you feel and the light you see is dependent entirely upon the ability of the **wave fields to reproduce the light and heat**, and that ability is conditioned upon the amount of moisture in the atmosphere.

If there was no moisture in the atmosphere, your bodies would simply carbonize from the heat thus reproduced. One cannot consistently think of that heat as direct rays of the sun, for that same sunlight was intensely COLD during its reproduced journey through the immensely expanded wave fields of space between the sun and Earth.

8.2 The Male and Female Universe - the fundamental building block of the Universe

The invisible UNIVERSE IS in ABSOLUTE Control of The visible. The invisible Universe, Dominates and

Controls all Motion By Magnetic Division into Cube wave Fields of Zero Curvature beyond which no moving thing can pass. It can, however, Repeat itself in Neighboring Wave-Fields but always in Reverse, as Mirrors Reverse the Geometry of the zero Universe is based upon the Cube and Cube Sections their Planes are of Zero Curvature and they reflect their forms in Matter in Crystal Structures, which are the only forms of Zero Curvature in nature, all motion in the Electric Universe is Curved. The Curved Universe of Matured form is based upon the Sphere. The Sphere is a compressed Cube. The sphere is a series of true circles, no matter where it may be divided into sections by cutting through it in one plane anywhere in motion is equally compressed in respect to gravity. Motion is in true gravity centered circles which moving into spheres and again divide into true circles. The source of energy which creates true circles is at their very center. The source of all energy is the creator, all motion of every nature whether of thought or action spins in true circular control around the omnipotent creator of that motion and in planes of 90 degrees from a shaft of any extension of motion, the time must eventually come when man must know where God Aton is at every moment in respect to himself, he must completely understand how God Aton controls every action and desire of all living things. From man to Fungus Cell or from galaxy to electron during their entire journeys from their beginnings in him to their endings in him, these are the unknown things which unfolding man must know before he can begin to manifest his own divine in heritage.

Figure 2: Male and Female Universe

It gives cause to stop and think upon these things for a while in order to consider that which is and that which may come to be. There is NO FUTURE, there is only the curved universe which shall bring into your attention that which you are expressing NOW. Complicated? No - it only seems complicated and complex because of all the incorrect lessons and perceptions. Moreover, *you have reached a time in cycle evolution where you MUST consider the Spiritual aspects of self more carefully than the physical if you are to continue your journey to KNOWING*. The gourd of ashes has been shown in the heavens and time of recognition of

plight is at hand. This means the "Day of the Lord" is also at hand for when the student is ready - the teacher will always come for the higher lessons.

Water of the heavens still is water, and it still is light waves. No change whatsoever has taken place between the waters of earth and those of the heavens except a change of its condition from positive to negative preponderance. This charge is due solely to a change of its direction in respect to its center of gravity.

All dense cold matter such as iron, stone, wood and all growing or decaying things are light. We do not think of them as light but all are waves of motion, and all waves of motion are light.

Light is all there is in the spiritual universe of KNOWING, and simulation of that light in opposite extensions is all there is in the electric wave universe of sensing. The simulation of light in matter is not light. There is no light in matter.

The confusion which attends this idea would be lessened if you classify everything concerning the spiritual universe, such as life, intelligence, truth, power, knowledge and balance as being the ONE LIGHT of KNOWING, and everything concerning matter and motion as being the TWO SIMULATED LIGHTS of thinking. **Thought is "electric", remember? Thinking expresses knowing in matter but matter does not think, nor does it know.** Just like YOU are not the moving lights and sound upon the motion picture cinema screen. It is only A SIMULATION of you.

Thinking also expresses life, truth, idea, power, and balance by recording the ideas of those qualities in two lights of matter in motion. But matter does not live, nor is it truth, balance or idea, even though it simulates those spiritual qualities.

Man's confusion concerning this differentiation lies in his long assumption of the reality of matter. His assumption that his body is his Self, that his knowledge is in his brain, and that he lives and dies because his body integrates and disintegrates, has been so fundamentally a part of his thinking. Contrary to the fact that matter is but motion and has no reality beyond simulating reality.

The light which you think you see is but motion. You do not SEE light. You FEEL the wave vibrations set up by the motion which simulates light, but the motion of electric waves which simulate light is not that which it simulates.

8.3 The life principle

For centuries man has been **searching** for the life principle in terms of matter. He might as well cast his nets into the sea to search for oxygen. This becomes the errors incorporated in affording to find matter frequencies of vibration for visibility, etc. It matters not where vortices and grids are, if the only calculations are based on "material" "matter" locations and particles. Granted, vibration is not such - however, in the earth calculations, half the equation is not even dealt with in any manner correctly. If man deals not with the "One Whole" idea of Creation and comes into

KNOWING of that which IS, he can find no whole solution.

There is no life in matter, nor is there death, for matter is but motion. Motion begins and ends to begin again, but life is immortal. It has no beginning. It has no ending. It cannot die.

Man has long believed his body to be his self, the person, the being. Man's body is but motion. It can have no being. God Aton dwells in man. The Person, the being in man is immortal. Life in him is God Aton in him. The body of man manifests God Aton in him by manifesting life in life—death—resurrection sequences, as all creating—de-creating—recreating things in nature likewise do.

The body of man is a part of the One Whole Idea of Creation. All Creation is but an expression of the One Idea, part by part, each being a part of the Whole. God Aton gives an eternal repetition of bodies to all parts of His idea to manifest that idea in wave cycles of the divided light of His thinking. One half of each cycle unfolds the idea into the form of that idea and gives it action for producing that form. The other half of the cycle refolds the idea to give it rest in the light of its source for the purpose of repeating the manifestation in a repetition of that body.

A return to rest in the Light is not death; it is a return to Life for the purpose of rebirth to again manifest Life in a renewed body.

You do not say that Man is dead when he rests in sleep to partially renew his body. You know that he will awaken with new parts of his body to replace those which have served their purpose and disappeared.

When man's whole body wears out and needs replacement, he likewise rests in a longer sleep. Man's body is but patterned waves of light in motion. Waves disappear into the ocean's calm but then reappear. The ocean is a part of the idea of Creation. Waves express the idea of the power of the ocean but the power and the idea are in the calm of the ocean whether expressed by waves or not.

The turbulence of the ocean springs from its calm just as the movement of the lever springs from its still fulcrum. All motion is a two-way extension of stillness. You do not think that the ocean is dead while it is at rest in its calm, for you know that it will again manifest its power by waves of motion when desire is strong enough in it for manifesting it by motion.

Waves of light which give transient form to a man's body are but his body. They are not the man, nor the man-idea. The body of the man is an extension of other waves of father-mother light in the sun, and the idea of man exists in the still Light which centers the sun.

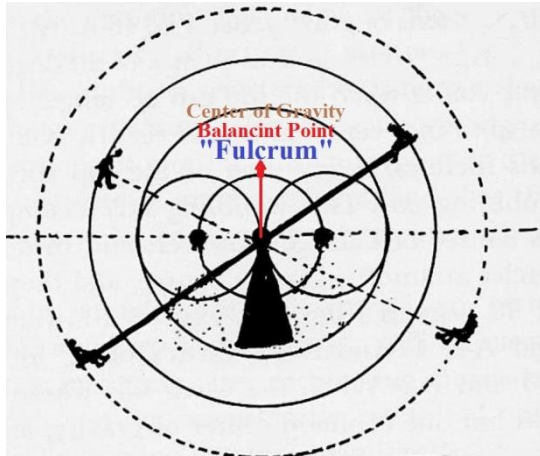

Figure 3: Two children on see-saw

Man can never die for he is omnipresent Light and he exists everywhere. Likewise, man's body cannot die for man's body manifests immortal man, and immortal man always has a body in which to manifest.

This body which extends from the earth disappears into the heavens and the earth, but that which disappears to sensed man of earth has not ceased to be, for its pattern has been recorded for repetition. It still IS and will reappear.

The senses of man are not attuned to the rest of the cycle of man's bodily journey from disappearance to re-appearance, but man's knowing reaches out over the entire cycle and man can know eternal repetitiveness of his body when he knows God Aton in him.

When water disappears beyond the senses as water vapor and gases, you know they will reappear as water when they have completed their cyclic journey. As man knows the Light in him he will as surely know that he will return for eons to complete the purpose of manifesting his Creator as one part of the whole idea. That purpose cannot be completed in one life cycle, nor in ten times ten million life cycles. Man has but begun to express the Man-Idea on our planet. He still has a long way to go, and the body he needs in which to manifest will return to him as surely as the light of day reappears from the darkness of night into which it has disappeared.

9. What happens after "death"?

The unanswered mystery of "where do you go when you die" needs a comprehensive answer. Abstractions and theories are not satisfying. Nature's processes are simple and are all alike. What happens to one thing which disappears happens to all things. There are no exceptions to this process of nature.

All things in our solar system come from the sun and return to it!

The "life germ" for which man is seeking is in the sun. The idea of man is in the sun. Likewise all idea of all things is in the sun awaiting birth into form. The pulsing light of polarity births all idea into its form, when conditions are favorable for each idea to be mothered by an extension of

the sun.

Everything in nature is a moving extension from a still point of the One Light. The center of the sun in our solar system is the point of still light from which everything in the entire solar system radiates spirally, and toward which it gravitates spirally for its resurrection into another cycle.

The sun is the seed of our solar system from which all manifestation of idea in the entire system extend, and to which they return.

Motion is for the sole purpose of manifesting idea. All idea springs from a state of rest in its seed. As it unfolds from its seed, it refolds into it. It therefore follows that motion is a seeming two-way extension-retraction from and to a point and has no existence save which sense but the extension, and not the voiding simultaneous retraction.

All the suns of all the heavens are centered by the still points of omnipresent light from which all idea extends and returns. Suns are seeds of idea. From those seeds all form emerges. To those seeds all form returns. The earth has been extended from the sun for that very purpose. Organic life is part of God Aton's One Whole Idea. Organic life cannot be expressed in form in the sun although the idea of it is there. Everything which appears on earth as form of idea is in the sun as concept of that idea in the seed. The seed is the Father-light which extends its idea of man and other creating things out into far space where its children, the planets, have sufficiently cooled to manifest the Man-Idea in organic form.

Suns are crucibles which born their children, the earths, and set them out to cool in order that God Aton's idea which is in the formless suns, can manifest form in the sun's extensions.

10. Seed of Creation

The Creator scatters his seeds of light throughout all space to father and mother all borning imaged forms of His imagining. In the still center of suns is all idea for borning into the images of God Aton's imagining, but in the oneness of the light of suns they are without form and void. All seeds are without form and void even though the pattern of all idea is in them.

The oneness of incandescent suns must be divided and extended to cooling earths before the ideas of the mineral, vegetable and animal kingdoms can sequentially unfold to prepare the way for man's unfolding from his seed in the sun.

All expression of idea of earth is likewise in the sun and must be extended to earth for manifestation. Mountains and oceans are in the sun but also all things else, the crying sound of a newborn babe, the roar of an avalanche or the street noises of a city. All of these are light, and such expressions of the light are possible only through division and extensions of the One Light into the two which manifest as ONE.

Millions of years ago, our planet became sufficiently far from the sun for the water idea to be expressed as pairs of opposites and organic life appeared upon the earth in lowly forms. These forms gradually complexed until the Man-Idea began to be expressed, not by a germ, but by the polarization of light itself, as manifested in the interchanging heartbeat of the father-mother light of the universe.

The idea of all things is omnipresent in the One Still Light. The expression of all idea is extended to the two lights of white suns and black space surrounding suns which manifest the Creator's two desires.

Desire for expression is manifested by the electric action-reaction sequences of interchange between the two opposing white and black lights of suns and space. It is this interchange which polarizes the still seed of idea into unfolding form of that idea. To polarize means to divide stillness into opposing pulsing extensions.

11. Conclusions

Man becomes a higher being with greater power as he acquires knowledge. In knowledge alone lies power. Only through knowledge can Man become co-creator with God Aton. **Knowledge can be obtained by Man only through awareness of the Spirit within him.**

No Man can hurt another Man without condemning himself to greater hurt.

Fear dominates the world of today. While fear is in the world, love cannot also be. Love can never dominate the world until Man ceases to live a primarily sensed existence and knows the Light of the Spirit within him.

New inspired messengers who know God Aton in themselves will likewise give the Light to this new cycle. **And these few messengers of the Light must multiply to legions, for the need of a spiritual awakening is great.**

Man's whole reason for being is to gradually pass through his millions of years of physical sensing into his ultimate goal of spiritual knowing. Man has now reached a transition point in his unfolding where he must have that knowing. He can acquire that knowing only through greater awareness of the Light of the universal Self which centers him as ONE WITH GOD ATON.

Light cannot be seen; it can only be KNOWN. Light is still. The sense of sight cannot respond to stillness. That which the eyes "feel" and believe to be light is but wave motion ("electricity") simulating the idea of Light. Like all things else in this electric wave universe, the idea of Light cannot be produced. Electric waves simulate idea only. They do not become idea.

The secret of Light is fathomable to man only by first solving his two supreme illusions. **The greater of these is the illusion of the universe itself.** Man has never known his universe for that which it is in reality, but only for what his senses have made him believe it to be. His senses have deceived him mightily.

The other is the illusion of Man himself. With but few exceptions, Man has never as yet known Man. Nor has he known his relationship to the universe, nor to his still more unfathomable God Aton.

So you must come, therefore, and know God Aton, His universe, and Man with other eyes than our sensed ones. The eyes of the Spirit are knowing eyes. God Aton's universe of knowing is all that is. The universe of seeming motion simply does not have existence. Therefore, why be a slave to sensing when you can be as God Aton in your knowing?

All matter is light! Water of the heavens **still is water**, and it still is **light waves**. No change whatsoever has taken place between the waters of Earth and those of the heavens except a change of its condition from positive to negative preponderance. This change is solely due to a change of its direction in respect to its **center of gravity**.

Please pay attention here: Light is all there is in the spiritual universe of knowing and *simulation* of that Light – light - in opposite extensions is all there is in the electric wave universe **of sensing**. The simulation of Light in matter is NOT Light. There is no "Light" in "matter".

The whole purpose of life is to learn how to manifest God Aton in Truth and the Law. The lesson is a hard one but man, himself, makes it hard by his unknowing of the Law. **As man gradually knows his purpose and the Law by knowing God Aton in him, life becomes more and more beautiful, and man more powerful in his manifestation of power. Man's power lies in giving. He must learn to give as nature gives.** Each half of a cycle eternally gives to the other half for re-giving. Nature forever unfolds into many for the purpose of refolding into one. **Each individual must manifest this universal Law.**

Man comes forth and overlooks his most wondrous attribute - that (s) he, too, is naught save Light and he, being "Light", is as God Aton for God Aton IS LIGHT.

Space is not empty. It is full of wave motion. Corpuscles of matter are one half of wave cycles of light. Space is the other half. **Just like man who has a compressed matter, or "physical" body and an expanded "ghost", or energy form.**

All matter in the universe is but differently conditioned motion simulating Light, and all differences in condition are PRESSURE differences.

Waves of light do not travel. They **reproduce each other from wave field to wave field of space**. The planes of zero curvature which bound all wave fields act as mirrors to reflect light from one field into another. This sets up an appearance of light as traveling, which is pure illusion.

There is no life in matter, nor is there death, for matter is but motion. Motion begins and ends to begin again, but life is immortal. It has no beginning. It has no ending. It cannot die.

Everything in nature is a moving extension from a still

point of the One Light.

I use to practice sport very gladly and am a unique tennis coach.
Website: <http://www.teslastyle101.com>

Author Profile

I was born on August 6, 1950 in Grab, Montenegro (former Yugoslavia).

1982 – Acquired my PhD in the field of atomic and plasma physics, at the same Faculty, under the title: "Regularities and Systematic trends of Stark Width and Shift Parameters of Spectral Lines in Plasmas".

1985 -1987 Spent two years as fellow of the Alexander von Humboldt Foundation from Bonn (Germany) at the University Düsseldorf developing plasma UV-spectroscopy at the tokamak UNITOR and performing measurements of the plasma instabilities in the scrape-off layer at the tokamak TEXTOR in Jülich (Germany).

1987 – 1991 Worked as the guest scientist at the Max-Planck-Institute for Plasma Physics in Garching by Munich (Germany) performing measurements of the magnetic field configuration at the stellarator W7AS as well as the measurements of the limiter heat load.

1991 – 2000 Was working in the Institute of Physics in Zemun (Serbia) on investigations of the plasma force-free configurations and in 1995 I acquired the Research Professor degree.

2000 – At the end of 2000 I chose to leave the Institute of Physics and went on my own way to discover and learn the God's principles and laws of creation.

After 18 years of the progression toward that sacred goal, I finally succeeded and now I know many of the God's creational principles and laws (unknown until now) and can apply them for the simple and efficient creations which make the basis for a new life quality on this planet.

I am a pioneer, creating with a New Conscious Energy and building a new civilization without electricity.

I've developed the TESLA RADIATION BALANCER – the genuine product in form of a self-adhesive sticker certified by the Hado Life Institute of Dr. Masaru Emoto which 100% balances radiation from any device, if attached to it, protecting the human body and environment from its harmful effects and eliminating with time the damages already caused by the radiation. It can be successfully applied to: cell phones, computers, laptops, microwave ovens, cordless phones, tablets, wireless monitors, Wi-Fi routers, TV-sets, Radios, and any other source of radiation.

Thanks to the consistent pursuit of my Leitmotif "The Authority of Truth rather than the Truth of Authority" I have experimentally proved the true atom, cell and particle "ATON" concept. According to the "ATON" concept, atoms, cells and particles are made of light which are spinning around the centering Mind (Spirit) points (the black holes). Nature expresses energy as electric potential in only one way, which is the same way both for the atomic and for the stellar scale: by projecting mentally the rings of visible light which are spinning around the centering Spirit points. This amazing beauty of creational simplicity is the basic fundamental truth of a new science that is based on the knowledge of the cause.

I wrote two books: "GOD IN THE ATOM" and "DODECA 101 LOVE ENERGY" which are available on my website.
