

# The Power of Human Conscious Intent

Ilija Lakicevic

Marsla Tita 91/12, 21460 Vrbas, Serbia

**Abstract:** *We human beings – souled beings – are consciousness – embodied Spirit. We are not our physical bodies, as we've been deliberately falsely taught from our adversary, but we project our bodies mentally as our thoughts and record them electrically in two-dimensional thought pattern which is called DNA in science. We can use power of our verbally expressed conscious intent to alter our DNA and cause desired changes on our bodies. Everything is possible with KNOWLEDGE – only knowledge can make us free.*

**Keywords:** Human Being, DNA, Conscious Intent

## 1. Introduction

The hardest thing to teach God's children is the natural order of how the universe ("One-Song" - "Uni-verse") truly functions. By falsely teaching us of "Earth" that we are "sinners" and "imperfect" in spirit, there develops a belief system that man is but mud/clay of Earth, and not capable of higher Godly ("Goodly") thoughts and physical behavior. Therefore, mankind can be easily encouraged to "fall-by-the-wayside" and say, "Well, I'm not worthy to begin with." Or, whatever excuse comes to mind.

This is exactly what our Khazar adversary hopes we will do! By teaching us falsely about our own religion we fail to learn the Christ teachings laid down by our Master Teacher. Is this not how Satan would come at us? Would he not begin by molding our children's brains to suit his needs??

And we thought he would present himself as a pentagram 5-star goat of Mendez, or, with a pointy tail, horns and a red pitch fork! Evil will ALWAYS wear a clue. And it will always be cloaked in that which is portrayed as "good". Lucifer is the prince of deceit and the father of lies. The Khazar "Jews" know this well, for it is written in their "bible" - the Talmud! This is NOT THE SAME as the Hebrew Judean (not spelled J-E-W) bible, known as the Torah, from which our own Holy Scripture is derived.

This knowledge is not "secret", it is just that we have been trained and educated by the Anti-God and his wayward flock! And, please understand it is your so-called "National Security", and "Intelligence Apparatus" that run the show! This IS the secret establishment hidden beneath the clandestine cover and cloak of your secret "spy network". By stamping everything from President Kennedy's assassination to the "UFO" crash at Roswell, New Mexico, as "TOP SECRET", you-the-people are never told the truth of the happenings!

This is WHY you must come into the understanding of where you are, and WHAT YOU ARE in the 3rd dimensional, physical HUMAN existence. Therefore, we will speak of "aliens" among you; their incredible crafts, and the geometrical and SPIRITUAL ASPECT of your "sensed" reality. You must KNOW what you are, and who your enemy is. Otherwise, you cannot fix – anything - family or nation!

Death of the physical body is nothing - you are not your body! However, through the eons of time, as you perceive it to be, you have been taught - nay, PROGRAMMED to believe that the physical YOU is all that matters.

If you are waiting for "Jesus" on Easter Sunday, then why do you prepare with colored eggs and fairy tale nonsense? After 2000 years when the Master Teacher returns, by whatever label, He will be an energy form, will He not? This "other world", you all believe in, must come AFTER A DEATH OF SOME SORT of the physical body. So, there must be some realization that an "invisible" (to you now) world (dimensions/worlds/placements) exists - somewhere. What are you doing to prepare yourself for THAT?!

At the very MOST, you need to know HOW it works [1-23].

## 2. Soul

The Soul is your akashic, your DNA. It contains the sum total of all your experiences through time and eternity, ALL your lives, your loves, and losses; your victories and defeats, your trials and accomplishments and on and on. In meditation you will begin to "see" all of this come up. You will have flashes of your history and who and what you have been. Things you are particularly struggling with now have most likely followed you through time. As you invite Light and Divine Assistance, Understanding and Guidance into your crown and anchor it in meditation and communion, you will begin to experience bursting revelations and comprehensions unfold. You will "see" through the veil and gaze into perfection. You can then begin to replace discord with this perfection of feeling. This is grace. This power heals and completes your karma, so to speak. It is simply resolved and lifted off, freeing you and your karma, so to speak. I do not like the definition now applied to the word "karma", so let us release the burden of assumed penalties and paybacks and other unseemly definitions and simply state that you can, as a student, SEE and UNDERSTAND the LESSON at hand. In the power you hold as creation of GOD in perfection of reflection, it means you also have the power to cast aside the "karma" and simply do not accept it. It is simply resolved and lifted off, freeing you and your mind and emotions and allows the true passion of love and life to come forth. This will happen more and more as you go.

All this progress is painfully slow at first. It is the same for

everyone that way, but the further you go, the faster you go and you can fly free for very long periods. Then it is but a matter of fine tuning and flight time experience. You will find that your soul is clean and new and that you suddenly have a great deal of "space" for wonderful things, space that was formerly taken up by conflicts. You have forgiven all and self for all trespass. This is freedom. This is true freedom and you will find yourself having tea with Creator every day. It is simple. Not easy - simple.

### 3. The Law of Cause and Effect

Creation (this material universe) is a play of CAUSE and EFFECT. The CAUSE is SPIRIT and is undivided. CAUSE is always balanced. It is always ONE.

EFFECT is divided. Instead of one balanced condition, it is a division into two unbalanced conditions.

The play of life is to keep the two unbalanced conditions of EFFECT in balance with each other. When CAUSE and EFFECT are in balance with each other, the spiritual and physical manifestations of either man or nature manifest harmony, unity, growth and normalcy in all parts. It is impossible to keep one's body in perfect balance always. To say that Spirit made man's body perfect, as well as man, does not mean that man can keep his body from being damaged. He must go to a dentist when his teeth wear out, or to an oculist when his eyes grow old - or put up with the inconveniences for the avoidance.

It is inconsistent for one to believe that Spirit will set a broken bone and, therefore, refuse a surgeon's help, but will go to a dentist to have his teeth filled.

Spirit's law of CAUSE and EFFECT always works. When anything goes wrong with you, or with civilization, it is you who are at fault, not Spirit. If men steal from each other for ages they harvest hate and fear which culminate in wars. The seeds of fear, hate and greed will not yield harvests of love, prosperity, happiness and peace.

Men pray to ask Spirit to protect them from their enemies, instead of praying to ask Spirit to so enlighten them that men can practice the love principle in their human relations and, thereby, not make enemies. As long as man continues to violate Spirit's law, he will hurt himself. All the faith and belief in the world will not alter the Effect of any Cause whatsoever. Try it. Try putting finger on a red hot stove while praying reverently with full faith and belief that Spirit will cancel the law as a favor to you - and see what happens. The finger will burn!

Can we override that result? Yes, but it requires preparation of the body responses in direct effect of orders from the Mind to make those changes - I see almost none who can successfully do this. To walk across a bed of coals, say, is not proving much of anything but is fooling the people around as well as ourselves. If mentally prepared properly, the Mind can cause the body to react in directed conditioning - but this takes a lot of attention and work.

Therefore, I again say that when you ask Spirit for anything,

never ask Spirit to fulfill Spirit's part, for Spirit has already done that, but ask Spirit, rather, to show you *what should you do to fulfill your portion*. Everything that is wrong with you is of your own making. Therefore, ask that you be enlightened. Perhaps it will be as simple as putting an asbestos finger mitten on before touching the hot stove! The answer will always be quite simple and always most reasonable.

That is what I mean by the prayers of men who tell Spirit what they wish Spirit to do instead of asking Spirit to tell them what they should do. How many times do you think of something only to put it aside and later say, "I thought of that but didn't do it." You have to listen when Spirit tells you for it will always be through IDEA.

This is the great misconception of the power of prayer. The cause of that misconception lies in the fact that people who ask Spirit for fulfillment of their desires forget that requests for material things are created only through two way action. Material things are not created by rubbing an Aladdin lamp or through wishful thinking. They are created through balanced action and reaction.

When a mechanic fixes your broken car through KNOWLEDGE of its workings, or a surgeon fixes your broken body through KNOWLEDGE of its workings, those operations are as much Mind-healings as the **elimination of toxic poisons from your body by thoughts of love is a Mind-healing. Mind and Spirit is the same.**

ALL CREATIONS ARE MIND CREATIONS

ALL MIND CREATIONS HAVE BODIES FORMED IN THE IMAGES OF MIND-THOUGHTS.

ALL BODIES ARE CREATED PERFECT BY CONFORMITY WITH LAW AND MADE ILL BY BREACH OF LAW AT SOME POINT IN YOUR LIFE STREAM.

**The Law of Cause and Effect can be summarized in this well known true statement: "As you sow so shall you reap!"**

### 4. The Paradigm Shift

You are still experiencing civilization of the old energy (actually we are experiencing creation with the old energy since everything what is material is MENTAL PROJECTION) which is dual energy, energy of opposition, of fight, of force and fear. The main tools of creation in the old energy are: POWER (based on material possession), FEAR, FORCE and EFFORTING. Creation with the old energy is: HARD (means dis-easy - that is why so many diseases), COMPLICATED, INEFFICIENT and EXPENSIVE. All technologies in our civilization are made that way and that is why everything is complicated, inefficient and expensive.

But, we human beings are becoming aware of it and we have decided to change the old energy and substitute it with the new energy. The process of establishment of the new energy

on this plane has begun on August 17<sup>th</sup>, 1987 and has been finished on September 18<sup>th</sup>, 2007; much earlier than it was expected and foreseen. The main tools for creation with the new energy are: JOY, LOVE, SIMPLICITY and FREEDOM. Creation with the new energy is: EASY, SIMPLE, EFFICIENT and CHEAP – opposite of the creation with the old energy. And an amazing feature of the new energy is that new energy is CONSCIOUS ENERGY and instantly responds to your creative desires! New conscious energy is all around us and ready to be applied for our conscious manifestations. All those who decide for the new energy can consciously create easy, simple, efficient and cheap.

Actually we have decided to change the old energy paradigm (concept – ALL KNOWLEDGE IS CONCEPTUAL) with the new energy paradigm, and that is why it is called PARADIGM SHIFT, or simple SHIFT.

## 5. DNA Teaching

There are so many scientific papers with the complexity and chemistry of high biological science. In actuality, there is a lot more to it even than science sees, for it is doubtful if science will ever see what I'm about to share. There are components of our DNA and attributes that are simply useable in 3D. What is missing at this moment in scientific endeavor, which would literally change everything, is an instrument that would measure an interdimensional field. Once that instrument or scenario is developed, and it will be, it is the closest thing we'll ever have as proof of all that I speak of. For the instant that instrument is turned upon the various things of the planet, including Human biology, there will be revelation in science, everywhere. Energy that is invisible will appear, or will at least show its shadow. It will then be real, where at the moment it is only conjecture.

Interdimensionality is here on the planet every day in so many ways. Gravity is an interdimensional force. Magnetism is an interdimensional force. Even light has components of it - all invisible and unexplainable to us at the moment. But like so many other things, we use it every day, and our bodies are also part of it.

Let me explain some things that enhance what is already known about DNA. In order to do this, I must review. I will briefly review what is known before so that I may expound upon it and give things that are not given yet.

## 6. The Review

To your science, the very premise of DNA is bio-chemical. That what you have in your physical body, what you believe is responsible for the blueprint of life is totally explainable by science through the chemistry and biological processes. But there are attributes within DNA that are interdimensional spiritual attributes that are quantum. The actual majority of the chemistry that you can see in the Human Genome is in a quantum state. Although your science cannot measure at this time either a quantum state, or the field around it, there is evidence of it within the puzzle of the Human Genome.

The DNA in your physical body carries with it a tremendous amount of unseen information and energy. I speak of DNA as an entity, not as a chemical double helix. That is to say, 100 trillion loops of DNA all work together as one energy to be called "your DNA." This group is unique. It has to be, for it is absolutely, 100 percent you. Because of the quantumness of DNA, it can contain a huge part of your spirituality. Not only does DNA contain the record of all that you have been on the planet, but your relationship to Gaia as well. It contains all that you have ever done and the spirituality of what you've learned in every lifetime. This information is literally imprinted within it.

Now read carefully: no Human ever loses any spiritual revelations they have ever had. Understand? With intent, any Human can awaken to the point at which their DNA holds what they've learned over all lifetimes. We awaken the DNA ourselves with our intent and epiphany of Spirit inside. All of the spiritual things that we have learned will come flying back and be ours again. How could they not? We opened the door originally and we own them. This has to be good news to the individual who wonders what it's going to be like if (s)he comes back. Will (s)he have to start over? Will (s)he have to go through the things again that (s)he's gone through this lifetime? The answer is no. It remains free choice, and many lifetimes might go by without any kind of spiritual quest, but in this shift, many are beginning to "remember" who they are and what they know.

Some of you have actually said that you do not choose to come back again, for it has been difficult this time. There is an intrinsic, innate feeling to some of you that this is your last time. Here is what happens: the first thing that masters and old souls (souls who have had many incarnations on Earth) want to do when they arrive on the other side of the veil is come back! Most of you will, and when you do, you will pick up where you left off, not restart. That's in the DNA. It's beautiful. The wisdom of the ages is imprinted within the DNA. It is quantum, and therefore huge. There is a crystal which stores this for you and activates your DNA when you return within a different Human physical body.

Isn't it interesting that now the humanity has seen the Human Genome, they see how unique it is? Isn't it interesting? DNA is totally unique. Not one Human Being has DNA like the other, not even identical twins. Only a fraction of it is identical in twins (less than 5%), but not the non-protein-encoded quantum parts. They are absolutely unique to each Human.

There is more. Within the DNA are attributes of the piece of Spirit that you are. **The imprint of the Higher-Self is there.** The angelic name is there. That name is not a name in linearity or one spoken in the air with vibration. Instead, it is a name that you sing in light. And when it is spoken, it vibrates with majesty. That's the truth! Feel it! The imprint of who you really are is in there. You carry with you pieces and parts of the lineage from another planet and other areas of the Universe. The energies of those who helped seed you with humanity's spiritual portion are there as well - Pleiadian. Appropriate, it is. Beautiful, it is. Loving, it is. All of that is there within your DNA, and in order for it to be there, it has to be quantum energy.

Now, let me speak of the 3D biology. When the Human Genome Project was finished, all the chemicals in the double helix had been identified. In that very, very small double helix, three billion chemical parts were then known and identified. It is so small that this DNA molecule must be seen via an electron microscope. So complex it is that it has three billion in chemical parts. Then the task began of identifying what the parts did, and science began to study the enormity of what was there. They were looking, indeed, for that which created more than 23,000 Human genes. So they looked for the coding, the linear protein coding, so that they could understand how these things worked.

Science had waited a long time to see “the blueprint in action,” and they did. But the shock came when less than five percent of the DNA created genes. Indeed, they saw linearity and they saw the coding in the protein-encoded portion of DNA. This small portion created the genes, but the rest of it seemed to be random, even chaotic. More than 90 percent of DNA seemed to be scrambled and useless.

The quantum state appears to be chaotic. It appears to be random, for there is no linearity to be discovered in a true quantum reality, none at all. One of the things that keep you from seeing a quantum state is the linearity bias that you have in your 3D reality. So you, indeed, stare at that which is quantum, but to you the concept of what it might be is invisible. This DNA attribute of randomness could not be taken lightly, for science was looking at something that was unexplainable. Imagine, 90 percent of DNA seemed to do nothing at all! The biologists knew better, but there simply was no explanation at hand.

*Your mind and consciousness, as amazing as you feel it might be, is currently completely separated from your chemistry, and that was never the design.*

## 7. The New Information

So I start from that point in order to reveal a few things that you need to know, many of which will be eventually confirmed.

DNA is far larger than you think, and even today science is starting to acknowledge that the 90 percent of DNA that is seemingly random may not be a language or code at all. Instead, it may be what they would call “influential chemistry” that somehow modifies or configures the five percent that is the engine of the genetic blueprint. The irony here is that this is exactly what’s happening, but not in the way science is looking at it.

The 90 percent of DNA is a reflection of your spirituality. The Higher-Self which you seek, that you call “a portal to the other side,” is there. In a quantum state, these things are not actually in the chemicals at all. Think of all of those chemicals together as a bridge, somehow a pipeline, a portal or quantum pointer to everything. Think of a doorway instead of thinking in a linear way that there is a compartment or a box where our Higher-Self is. If you could go there and see the quantum state of it, you would enter a pipeline that takes you to everything that is. So understand that this 3D/quantum chemical bridge is a sacred influencer

of the genome, and it’s very large, containing most of the information in the Human blueprint of life.

## 8. DNA is More Than You Think

Now, let me speak of DNA as never before.

Science considers your brain to be the center of consciousness, but it is not. The brain, the highest ordered neurological group they can see, is filled with a complex synapse. Therefore, it must be responsible for what is called Human consciousness. It is not. The brain is only the 3D engine that responds to the 90 percent quantumness of DNA. It is the engine of the synapse and it’s vastly complicated. But the brain is only the receiver of information to create electrical signals that do as they are instructed, as influenced by the DNA.

One hundred trillion parts of DNA working together communicate as one. Did you realize that? Science doesn’t know how this happens, and the communication link from your head to your toe somehow has one purpose. Is that your brain? No. It’s the DNA all together, creating the Human Being. DNA “knows.” It all works together. This isn’t something you are going to find in the medical books, but it completes a large missing link that science gives no credibility towards. DNA communicates with itself! It has one “mind” and it “knows” what is happening in every part of your physical body.

The new information is that DNA provides a “field” around your physical body that is interdimensional. That field is your consciousness, not your brain. That which your brain does is in tandem with the DNA. Your brain dreams, or does it? The synapse is there to show it, and in your deepest REM sleep, so many complex things come out. Those things are all in your DNA, supplied to your brain. So the DNA even supplies instructions and influence to your brain’s dream activity for you. These things are difficult to explain, since I’m not speaking about linear things, but that which is quantum.

All of us dream in a quantum state. That is why there’s no linearity, and things don’t always make sense. Those who have passed away and those who have not are all together in our dreams, yet they are looking at one another. Dreams don’t make sense because they’re not in the reality we are used to. That’s your DNA talking - the Higher-Self coming forward and playing “the tapes” to your brain. Science does not acknowledge this, for it cannot see the field, but the **DNA is Human consciousness and the brain simply is the 3D engine of the synapse that supplies the bridge for your reality.**

Is there evidence of this? Oh, yes, very much so. When a Human Being has an accident and the spinal cord is completely severed, it leaves the physical body innate. This is the paraplegic who can no longer move anything – not a finger, not a toe. And yet the heart keeps beating, does it not? Digestion continues, does it not? The kidneys and other organs function, do they not? Even reproductive activity is possible! Everything keeps going, yet you learned in school that the brain sends electrical signals through the spinal cord

and keeps your heart beating, doesn't it? Well, if the spinal cord is severed, what keeps your heart beating? The answer is logical – it's the blueprint of DNA!

When the engine of the synapse is broken, the DNA finds other pathways and instructs the body to continue the life force. That is why the organs continue even though control of the muscles does not. Interesting, is it not? There is proof there if you look. Science finds it curious, don't they? Therefore, you might say that your DNA is actually an esoteric, ethereal brain, containing things that our regular brain does not contain. You'd be right. There are all manner of very spectacular attributes in your DNA that are here to look at, which current science has yet to even see.

## 9. DNA “Knows”

The biggest attribute that I wish to discuss is this – **this interdimensional DNA field is knowing**. That is to say, it is built to extend life. It knows who you are. It contains the blueprint of your sacredness, and is one of the largest tools you have for health, for joy, for opening the door. It is in the DNA field, not the brain. That's where it is. And in that truth, there is celebration. For it releases you from having to create what you think you need.

Let me give it this way. If you're going to use that field as a tool, now that you know what it does, you're going to work with your cellular structure to manifest things. The normal Human experience is to gather knowledge on how. “How do I communicate? What is the best thing to ask for? How do I specify it so the DNA will know what I'm asking? Do I have to be a certain way or be in a certain place? Do I follow many steps that will open the door?”

None of the above! If you could visit your cellular structure, your Higher-Self, your sacred life lesson, don't you think it would know what was happening? It does, perhaps even more than you do! **All you have to do is speak to that which is the quantum part of you and it knows what you need**. So I am asking to relax the linearity of the lists that you give to Spirit. For suddenly, I'm telling there is a quantum energy that is the sacred you who knows what you need.

Therefore, your meditations could be shifted to become wiser as you speak to your own cellular structure, to your own Higher-Self. You might say, “**Dear Spirit, dear DNA, examine the life that I have and give me those things which will enhance it.**” Perhaps that's the healing you came for? Perhaps that's a miracle that will give you joy in the face of the sorrow that you're in right now? You feel so alone, not understanding there's an entourage around you the whole time, and they would love to touch that field that is your DNA! They'd love to touch it. But not unless you say it's OK to do so.

Understand this: DNA is more than chemistry! It is a **field** and a **portal**. These things are the mechanics of Spirit. I'm starting to give advanced information and the sacred geometry is assigned to all of it. That is accurate and it's correct. But it's a field.

## 10. A Master's Ascension

Let me review something that's ancient, wise, and tells a profound story. In our own scriptures in the western world, there is a story of a master named Elijah. This was the only Human Being in history to select his time of ascension without death and have it recorded by the one who would take his place. Therefore, we could see it within the writings of the one who witnessed it. I want to review it, for even all the way back then, there is proof of the field.

They say Elijah stepped into an opening, asking Elisha to record what was going to happen. Now Elijah was a master with great wisdom and knowledge and he is today what we would call an ascended master, and Elisha loved him. In the linearity of humanism, there is an entire group of people who expect his return. I have some news for them. Get out of your linearity, for he's been back a long time! For the energy of the masters are part of the energy of the great shift they are upon you. They intermingle with the vibration of this planet. They're all back, and it's what you're feeling. In a quantum state, they're in our DNA. Don't you sense this? There is so much expectation around 3D things that were never meant to be 3D. So much information is given in metaphoric terms, so you might understand that perhaps prophesy itself could mean things outside of your linear reality.

Elijah walked into the open with Elisha watching, but he did not die. Instead, **he claimed his sacredness**. Indeed he left, but not without some fireworks. For Elisha indicated that he turned into a chariot of fire, accompanied by three entities. In the best that he could see and describe in his linearity, Elisha described what it looked like and what it felt like. Now, take a look at this, for you will find that it was not necessarily angels from above who came and got Elijah. Instead, something happened on the ground and Elijah turned into light and he left.

Let me tell what that was. That was Elijah energizing his field of DNA! This field has a name, the name given at that moment Elijah was riding a chariot of light. The name was given in Hebrew: Merkabah. And I will now reveal to you that your DNA field is indeed your Merkabah. It has sacred geometry connected to it, for this interdimensional field has structure. If you could see it, you'd see the structure of the **double tetrahedron**, and it's beautiful. It's not just a ball of light. The name Merkabah would indicate that something rides within it, and it is the chariot of your divinity. Each Human Being has this, recorded by Elisha watching the master ascend. **In addition, the chariot contained three parts that split from you when you arrive on the earth, and recombine when you leave**. But, that's all what I want to share in these moments, for that's what each one of you has – exactly what Elijah had.

## 11. Biology and Human Conscious Intent

Let's talk more about biology because now it gets a little more complex. There is an intermingling of the 3D and the quantum that I wish to describe now. It's something that is new, for the vibration of this planet and of humanity, especially of those who are working with the light, is

creating a new tool set. You're going to start to see it and it's going to be visible through examination of the 3D chemistry of DNA, even at the 3D level.

Science is now looking at what they call markers in the protein-encoded DNA, which creates the Human genes. These markers, as they are described by science, are those that are the pieces and parts that would indicate predispositions – attributes that might weaken certain cells so that later in life they would allow disease, such as cancer. They're starting to see these markers, perhaps in certain families where mothers and daughters and their daughters and their daughters all had the same kind of disease. They're starting to see the genetic markers that create predisposed weakness.

Let's talk about the markers. First the premise: **your CONSCIOUS INTENT to talk to your cellular structure has power.** This conscious intent is your communication to the DNA field to alter something within the 3D cellular structure. You might say it's your own interdimensional "voice" giving instructions to the quantum part of your DNA, which then results in the actual chemical changes that are occurring in the codes within your 3D genome. But now the results are going to be seen, and you can begin by removing the markers, and when you do, they stay removed. This means that something quantum you do today can change the chemistry of your gene-producing DNA so greatly that it will NOT be passed to your children. You can break the chain.

Blessed are the Human Beings who realize that as they purify their lives with the light of the Spirit, it will affect the biology of the protein-encoded parts. They can erase the markers. It's one of the first times that the 3D has intermingled with the quantum so that science can someday look at the same Human Being over time, knowing that DNA never changes - **yet it did!** It's theirs and it's unique and they changed it. There will be no answer for them, but the 3D facts will show it, that they eliminated the marker.

The joy of this and the beauty of this is that the lineage of the young women who do this will be shown, for their daughters will not have the disease, nor will the daughters of their daughters. It's a new gift and reflects the power of the times. Can they really change those who are their children-to-be? Indeed!

I know they might say that it's a little late since they've had their children. Do they not understanding where this message is going? Do they not understanding the profundity of what happens when old souls allow giving this information to Earth? Do they not understand their energy has generated the allotment of allowance to give them this, so that young women and young men who are Lightworkers each will hear it and know what it means to them? Do they understand they're their own ancestors? Has this occurred to them? I see them as actual history from all over the world.

Old soul, it's affected you today because every single lifetime gives you layer upon layer of wisdom. It has brought you to reading this. For this is the lifetime where you have awakened and realized there is more, a lot more. It

brings you as a seeker to a place where you can say, "**What can I do for myself and the earth?**"

I'll tell you what you can do. You can become compassionate on this planet. You can walk around and show your light on this planet. You can change the markers in your own DNA!

All of this that I have told you is correct and real, and will be seen naturally in its own way. But I wanted you to know the sacredness that is here within a structure you thought was only chemical based. DNA is far larger and more sacred than anyone has ever imagined.

So what are you going to do with this information? Why after reading this don't you get up different than before reading, feeling a little more enabled? Perhaps you will feel a little better about the possibilities before you? Perhaps you might even know that what happened during reading is real.

Now you know that everything what is material, including your body, starts as two-dimensional thought pattern (seed, blueprint, called in science DNA) and you know that your DNA is a record of all your thoughts and experiences, actually you know that you've been talking to your DNA every single moment not being aware of it, why then not to talk to your DNA consciously and create your desired reality consciously!?

## 12. An Amazing Supreme Proof

There is no better irrefutable proof for the claims that we are consciousness, that consciousness moves perception, that Man's Mind and Spirit's Mind are One, that desire of Mind is the main motivating force in this universe, that motion and matter are an illusion as well as that the cell consists of the light rings spinning around the centering Mind point, than the amazing teachings by example of a Dutch named Arnold Gerrit Henskes whose pseudonym was MirinDajo. He claimed that his body was invulnerable and he proved it many times by piercing his body with a sword without injury, even through his heart (see Fig. 1. as well as this link: <http://mirin-dajo.com/mirindajo.html>).

Figure 1: Amazing teachings by example

Dajo's teachings were that people should abandon the materialistic world view and accept that there is a higher force - the Source, that Spirit was using him to show us through his invulnerability that there is something better out there and that the materialism only results in misery and war.

What is the difference between the Dajo's Mind and the Mind of a layman?

Both Dajo's Mind and a layman's Mind are One with Spirit's Mind and are omnipotent and therefore can do

anything what they accept as truth. The Layman's Mind accepts as truth that his/her body is real and that a sword would injure his/her body or even kill him/her (because he/she heard it or saw it) and his/her Mind provides for it to happen if his/her body is pierced with a sword. Dajo's Mind knows that both his body and a sword are an illusion, he is aware that the power of desire of his Mind (which sits both in the center of every of his cells and in the center of every atom of a sword) decides about the outcome of interaction of his body with a sword so that he has decided that nothing happened! In other words, Dajo allowed his Mind to function properly in actual thought projection so that a sword striking his body had been hardly noticed, whereas the Mind of a layman is convinced of the ability of a sword to injure and kill and the body reacts as directed - if struck appropriately, it dies.

Dajo had been aware of the power of the desire of his Mind. He had been aware of himself as the still observer of his experiences. He had been aware that he as consciousness had been moving the perception of his experiences with a sword and that is why he had been able to control it absolutely.

### 13. Conclusions

We human beings – souled beings - are infinite and eternal spiritual (mental) beings living in a cosmic vacuum tube of invisibility and projecting from that vacuum condition our creative desires by mental activities of dreaming, imagining and thinking.

We human beings – souled beings – are the most powerful beings in the universe because only we possess the divine felling called compassion – joy of being.

We have been deliberately taught falsely from our enemies that we are physical body in order to prevent us from knowing who we are (omnipresent, omnipotent and omniscient beings, as our Father God Aton Is) so that our enemies who are soulless beings can steal our souls and keep us enslaved – control and manipulate us.

We human beings become consciousness when we take physical bodies which we project mentally and record electrically into 3D forms. That mental projection starts as a two-dimensional thought pattern (seed, blueprint, called in science DNA) and every our thought and experience is recorded in our DNA and projected on our bodies – our bodies are our thoughts in motion.

Human conscious intent is the strongest power in the universe. We can use the power of our verbally expressed conscious intent in order to change our DNA and cause desired changes on our bodies.

Everything is possible with KNOWLEDGE and ONLY knowledge can make us free.

## Author Profile

I was born on August 6, 1950 in Grab, Montenegro (former Yugoslavia). 1982 – Acquired my PhD in the field of atomic and plasma physics, at the same Faculty, under the title: "Regularities and Systematic trends of Stark Width and Shift Parameters of Spectral Lines in Plasmas".

1985 -1987 Spent two years as fellow of the Alexander von Humboldt Foundation from Bonn (Germany) at the University Düsseldorf developing plasma UV-spectroscopy at the tokamak UNITOR and performing measurements of the plasma instabilities in the scrape-off layer at the tokamak TEXTOR in Jullich (Germany).

1987 – 1991 Worked as the guest scientist at the Max-Planck-Institute for Plasma Physics in Garching by Munich (Germany) performing measurements of the magnetic field configuration at the stellarator W7AS as well as the measurements of the limiter heat load.

1991 – 2000 Was working in the Institute of Physics in Zemun (Serbia) on investigations of the plasma force-free configurations and in 1995 I acquired the Research Professor degree.

2000 – At the end of 2000 I chose to leave the Institute of Physics and went on my own way to discover and learn the God's principles and laws of creation.

After 18 years of the progression toward that sacred goal, I finally succeeded and now I know many of the God's creational principles and laws (unknown until now) and can apply them for the simple and efficient creations which make the basis for a new life quality on this planet.

I am a pioneer, creating with a New Conscious Energy and building a new civilization without electricity.

I've developed the TESLA RADIATION BALANCER – the genuine product in form of a self-adhesive sticker certified by the Hado Life Institute of Dr. Masaru Emoto which 100% balances radiation from any device, if attached to it, protecting the human body and environment from its harmful effects and eliminating with time the damages already caused by the radiation. It can be successfully applied to: cell phones, computers, laptops, microwave ovens, cordless phones, tablets, wireless monitors, Wi-Fi routers, TV-sets, Radios, and any other source of radiation.

Thanks to the consistent pursuit of my Leitmotif "The Authority of Truth rather than the Truth of Authority" I have experimentally proved the true atom, cell and particle "ATON" concept. According to the "ATON" concept, atoms, cells and particles are made of light which are spinning around the centering Mind (Spirit) points (the black holes). Nature expresses energy as electric potential in only one way, which is the same way both for the atomic and for the stellar scale: by projecting mentally the rings of visible light which are spinning around the centering Spirit points. This amazing beauty of creational simplicity is the basic fundamental truth of a new science that is based on the knowledge of the cause.

I wrote two books: "GOD IN THE ATOM" and "DODECA 101 LOVE ENERGY" which are available on my website.

I use to practice sport very gladly and am a unique tennis coach.
