**Abstract:** *The wrong scientific terminology is based upon the concept of an electromagnetic universe. Creation must henceforth be looked upon as a universe of Mind-imagining having no reality and be known as OPTICAL UNIVERSE OF GRAVITY-CONTROLLED LIGHT, for God Aton is Light and God's Mind THINKS in waves of light. Science has long ago been in control of gravity but is, unfortunately, unaware of that. The new law of the cycles reads: compression heats to cool and expansion cools to again heat, or cold generates heat and heat radiates heat to cold. God Aton's highest goal for man is his own omnipotence and omniscience. The tragedy of present-day humanity is that mankind is not aware of its power nor of its real Source, for if it were aware of these things man could not possibly slaughter other men in his barbarous unholy wars.*

## 1. Introduction

This is a crucial turning point in our efforts to lead you to a full comprehension of your own personal identity as an extension of the God-Identity. These upcoming units of discussions will be referring to the science of the recognition of the Truth of the Cosmos.

## 2. Science of Cosmos

We have been dealing with the Science of Man. We shall now think in terms of Knowing the Cosmos. The purpose is to give you a comprehensive understanding of your Oneness with the God-Identity by enabling you to transcend your physical-man identity completely and thus become the "Knower of the Cosmos" instead of merely a thinking extension of the Creator whose limitations of thinking are bounded by the ever-conscious fact that the man-idea is but a part of the whole and not the whole. You MUST NOT CONSIDER THIS AS BEING JUST ANOTHER EXERCISE IN MEDITATION FOR IT IS NOT AND IF YOU CONSIDER IT TO BE SO - YOU WILL MISS THE LESSONS INVOLVED. You ask and ask "how to" and yet, you must first learn "what is" or it values you not to know "how to" for you will negate your own intent. The LAST thing we desire is to have a bunch of zombies in a state of trance, sitting for hours or weeks or months. Communion must become your instant state of being - not something you struggle for and which evades you. Clear your space, discard all entrance to dark energies and get in balance in intent to recognize God Aton- He is already present so what is the big deal? All you need is to learn to "LISTEN".

When you arrive at this stage of where you can focus your Consciousness to higher "hearing" and sever your consciousness from the seat of SENSATION IN YOUR BODY, you will then be that KNOWER and THINKER of the WHOLE instead of being bound to only a part of it by the limitations of your body. As long as you are thinking about sitting a certain way, drinking a certain tea, eating a certain "meditation" food or holding an amulet a certain direction - you are focusing on the wrong thing. Any of those CAN be tools but they usually become THE OBJECT OF FOCUS - NOT GOD ATON. God Aton is with you constantly - ALWAYS. You must not believe you must GO

somewhere OR DO some ritual - you have to simply go within into the quiet where God Aton is located - not out there somewhere where nothing IS. As long as you look for God Aton (out there) you will never find HIM. You most certainly CANNOT EXPECT TO FIND GOD ATON THROUGH ANOTHER. The "OTHER" can only recognize that which is his. As you then become "a cosmic being" who recognizes and acts in unity with The One Cosmic Being, you will BE that One and will knowingly be able to say, "I and My Father are ONE."

That stage is the goal of ALL mankind, for every living thing on earth is perpetually seeking God Aton whether it knows it or not. Every living thing is perpetually turning toward the visible light which God Aton invisibly centers no matter whether that thing is man, flower, tree, wave-current or atom. All are living things and all are Light, for naught IS but Light. Light is the ONE THING, the ONE INTELLIGENCE, the ONE POWER in the universe. Those searchers for God Aton who have conceived the ONE BEING as having wrath and anger have cruelly retarded the human race in its search for the God Aton of Light and Love which Messengers of all time have described, but this barbaric race of humans has never been able to comprehend their meaning.

The greatest contribution any human can make for human race transcendence is to give a dynamic description of God Aton which will withstand the tests demanded by laboratory methods and standards. These articles will fulfill that requirement and give to the world a concept of God Aton which is so un-debatably true that an atheistic person or nation would be wholly impossible in a normal society [1-28].

These articles will give a complete roadmap from static space to dynamic motion and back again to static space. Such a teaching must be scientifically based, for one must first know God Aton's methods and processes before one can intellectually comprehend God Aton. Even then, one will not know the spiritual God Aton until he has been enabled to BECOME God Aton by completely severing his physical self from his Cosmic Self, for an intellectual comprehension is still bounded by body-awareness while Cosmic comprehension is not.

To unfold this concept of the universe in so brief a description as can be given through these articles will necessarily leave much to be added in detail by scientists, philosophers and mathematicians if they will but come into acceptance of the fundamental principles, but if what is given herein with its diagrams is received with open minds, it will advance the knowledge of the human race and its consequent higher status and completely change the perception of Man in less than one generation. When it is accepted you will find yourselves already living in that advanced civilization.

I suggest you put aside all preconceived notions regarding this subject except as presented by ones such as Walter Russell, Nikola Tesla and St. Germain prior to this particular writing. If you entangle it with hearsay from ones such as Sagan, Friedman and the New Age channels - you err greatly for I do not sanction "New Age" concepts and do, in fact, feel that that very intent, alone, can destroy your civilization. You are in a Cosmic Age of growth and transition - not a New Age of Magic and baseless suppositions. What we give you is also ability to PROVE the concept for when the students are ready the teacher is always made available and as we move from this into the next class - you who prepare, will be ready to also move. The heavens and the bodies therein have great, great meaning but not as the Astrologers use the charts for fortunetelling. They can either be a deceiving bunch of nonsense or utilized as the tools intended - bringing unfolded wisdom beyond the imaginings.

### 3. Modern Science is Tragic

The ultimately supreme need of the human race at this stage of unfolding is the discovery of the existence and identity of a comprehensible God Aton by methods and processes which will meet the requirements and standards demanded in the laboratories of science as well as within the heart and consciousness of man.

The tragedy of modern science is that it has already made this supreme discovery but is not aware of it. Because of the present-day misconception of the universe, which the Creator built in the image of Cosmic imagining, and of God Aton Himself, whom religion has pictured as some kind of angry god of wrath who wreaks vengeance upon so-called sinners - instead of conceiving Him as a God Aton of Light and Love - fear has been created by man which leads to war and the preying of man upon man, and is the dominant note upon which our civilization has been constructed. As long as fear dominates the human race instead of love, it will create the disunity which is characteristic of its many religions. When the day comes that fear leaves man and love enters, the age of slaughter of man by man will end and the age of character will begin.

In human justice, we are not blaming religion alone, for science and religion are father and mother mates - science being the father. All down the ages, man's discoveries in science have progressed your civilization to the point where a man's world is its resultant effect. Man has always been master of the world and man's nature to conquer has always suppressed the love nature of woman. Deeper still than

science, which should have discovered the God aton of Love (BALANCE), or religion, which created a god of fear and wrath, is the basic cause of man's self-made troubles - and that is MAN, himself, who strayed from God Aton's Natural Law at the dawn of Consciousness and has continued to do so to this very moment.

Alexis Carrel was right in saying that all of man's institutions - and these include government, industry, education and home relations - were man-governed and out of balance with themselves and with each other and must, therefore, all be changed to obey the laws of Nature.

This is why we keep making the same statement over and over for your attention: "God Aton will work WITH you but not FOR you". It is also why you must understand the law of rhythmic balanced interchange between all opposite pairs in Nature.

We will continue herein, to give universal science a clearly delineated road map into space to clarify the mysteries which it has for so long been unable to fathom.

When the day comes that it does so, a cohesive, unified and forever enduring civilization will emerge, resulting in the transcendence of man from his present lowly status to that final goal of his Creator's intent where he can knowingly say, "I and my Father are ONE".

### 4. Foundation of present belief

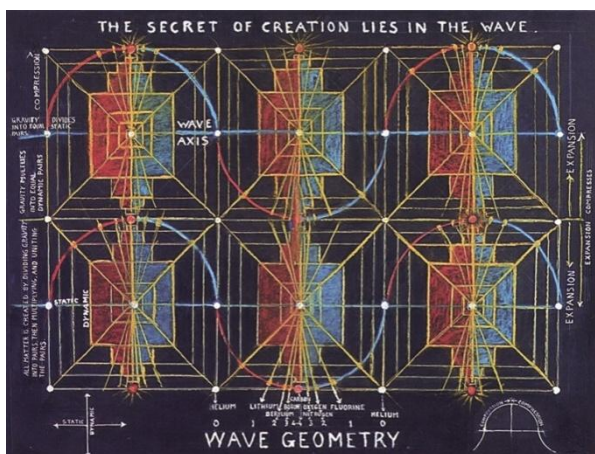

This refers to "International Science". It is strange but true that so little a thing as a wrong terminology adopted by science can be blamed for the tragedy of man even as so little a thing as a flaw in a rail can throw a whole trainload off its course and destroy many human lives. **That wrong terminology is based upon the concept of an electromagnetic universe.** In early writings we have had to refer to it in the same terms to bring you to this point wherein we can now begin to give you insight. Up to this writing we have had no connection with you wherein you could understand a different set of terminology or hear our explanation and definition of that which already exists. The rest of this "course" will be, therefore, devoted to the way international science has reached its high pinnacle of success in commanding matter to do its bidding and obey its will without knowing the WHY, and yet being very skilled in knowing the HOW. One without the other is the most destructive element introduced into a civilization for it causes chaos and havoc with no means of correcting same nor rebalancing that which is unleashed with only ignorance of controlling the consequences.

In order to comprehend the power of motion in its desire to create heat and visible light out of the cold invisible Light at rest, which Mind is, Creation must henceforth be looked upon as a universe of Mind-imagining having no reality and be known as **OPTICAL UNIVERSE OF GRAVITY-CONTROLLED LIGHT, for God is Light and God's Mind THINKS in waves of light.**

The Christ, the consummate Illuminate of all time, told you that two thousand years ago but you didn't comprehend its

meaning. The Krishna of the Bhagavad-Gita also told you that three thousand years ago but only the people of the Eastern culture faintly comprehended it. The "Ancients" always knew it and handed it down since the "beginning" through the oral tradition of holding knowledge-and now their offspring have all but "forgotten" also. I shall now tell you WHY man has not yet comprehended those teachings, for which he is paying the dreadful price by sinking into long ages of periodic mental darkness. We will begin at the beginning and clarify each step briefly and expand on them later.

The secret of Creation lies within the light-waves of motion which gravity compresses into rings of light in which density first increases toward the outside by thrusting outward from within until the centering holes have been closed into hot spheres. Density then increases in the inward direction. This is accomplished by the octave-wave process which multiplies power by projecting it from the stillness of its Mind-source by dividing it into mated pairs which science calls the elements of matter. This constitutes the sex-principle of life which science has so strangely neglected to observe as being the BASIC FACTOR OF MOTION. This clarifies the meaning of the divided curved universe of motion from the undivided universe of rest which the Illuminates, sages and prophets of the ages have tried to define. (See Figure 1)

**Figure 1:** Waves compress the invisible Light of cold space into visible light of incandescent suns. They then expand it to return visible light back into cold space. This they do by means of gravity-controlled curvature which is God Aton's only tool to work in creating this universe of motion

Man's science has already unknowingly conquered this principle, as you shall see. You shall also see that knowledge of the wave is man's measure of his power to command matter.

Failure to recognize the secret of life as being the sex principle which lies within the motion of light-waves: The alternating sequences of compression and expansion are the very cause of motion, as indicated by their sequential equally interchanging in breathings and out breathings. It is these very generative, compressive in-breathings from the cold of space which cause the multiplication of heat in your body or in the body of the sun.

**Figure 2:** The Sex Principle

Radiative out-breathings then divide it by expansion. To designate this effect of compression-expansion sequences by electric terminology such as positive and negative charges is totally unlike Nature's processes of creation of matter. It overlooks the fact that these action-reaction sequences are interchangings between the heat and cold of the divided spectrum of matter. Man's laboratories are unaware of the fact that they are unknowingly on the way to discovering the transmutation process, for that process demands the power and knowledge to control gravity in such a manner that they can compress or expand it to high limits. We will give the basic principles which underlie the transmutation principle later. Don't despair-we have at least two more volumes of PLEIADES CONNECTIONS-at least-and perhaps twenty if it is required. Sorry about that, Dharma.

Why, therefore, relate effect to electricity when light and power companies have only light and heat to sell? Why, also, relate them to magnetism when they have no magnetism to sell? Power companies can produce light and heat only by resistance to motion, which induction accomplishes. **Friction, induction and compression ARE ONE.** If a man scrapes his feet on a rug and touches metal, he will produce a light only. **Why call it electricity?** If a meteorite, or a spacecraft, springs into visible light by the friction of resistance through the atmosphere, it produces light only. **Why call it electricity or electromagnetism?** One can produce visible light and great heat by focusing centripetal rays upon cold bodies through biconvex lenses, **but that would not justify the light thus produced to be termed opticity.**

The term "magnetism" is also unjustifiable. The word GRAVITY would be used instead, for gravity both multiplies and divides by thrusting inward from without to compress and outward from within to expand. In this manner, gravity controls light by controlling its curvature, and Mind also controls gravity by limiting both outward thrusts to the cube mirror planes of zero curvature (see Figs. 3,4,5,6). This is in complete opposition to the Newtonian law of gravity which claims that gravity pulls inward toward a center and that matter attracts matter. It is also in opposition to the second law of thermodynamics which claims that energy cannot run uphill but only downhill.

In later pages, we will give seven new laws of thermodynamics which are in accord with Nature's wordings. We will clearly explain the nature of light, which

is to give outwardly from itself in accordance with the love principle upon which the universe is founded. We will also explain why the more light of love that Nature gives out from itself in the one and only direction of motion, the more intense is that light and heat. The opposite reaction to giving is not receiving; it is regiving, as life gives to death and death regives to life.

Factually, there is no inward pull of light toward a center nor are there such effects as attraction or repulsion of matter (meaning light) to other matter. We know that this statement will cause a storm of protest from scientist and layman alike, but if both will withhold judgment until we analyze the laws of Coulomb and Newton, we will dispel that mystery.

No scientist can create energy by pulling in inward from within.

It must be produced by thrusting inward from without, as an automobile tire is pumped. That means by compression. If the tire were made of a metal which could not be burst by that compressive inward thrust, it would cause it to create a ring of intensely hot visible light at its center and density would then increase inwardly, as stars and planets increase their densities in the inward direction. Science has already done this but does not admit that the energy thus created was **projected** into it, for science claims that matter itself is energy.

Science creates air-conditioning and refrigeration that way. By continuing the freezing process to near absolute zero of cold, it can also multiply the power of conductivity of such soft metals as aluminum to equal that of harder metals such as copper.

Many laboratories have already done this, and the Du Pont Company has created what it terms new non-conductive substances by the opposite direction of expansion. All of these laboratories have been on the way to a solution of the principle of transmutation but, unfortunately, are unaware of it. Furthermore, they have also been on the way to the control of gravity, which a certain distinguished scientist said would climax all discoveries by giving man an unlimited command over matter. **Science has long ago been in control of gravity but is, unfortunately, also unaware of that.**

THE CYCLONE MANIFESTS NATURE'S ENTIRE CREATIVE PROCESS

**Figure 3:** The only way Nature of man can produce visible light is to compress a large area of invisible rays into a small area by focusing it to a point. This produces a cone shaped form such a cyclone. Its ever increasing speed of motion

generates multiplied energy which then divides to radiate that light into cold space

**Figure 4:** The above vertical section of the cyclone illustrates both compression and expansion process of Nature which are in every effect of motion, inbreathing and outbreathing, life and death, growth and decays, and many others

**Figure 5:** The above represents two cyclones in collision, like the one in collision with the Earth as pictured in Figures 4 and 5. This requires thrusting outwardly from cold space toward the inward direction to generate heat, and then

thrusting outwardly from within to radiate heat back to cold space. Witness the tremendous thrust of heat from the solar corona

**Figure 6:** All matter is composed of light rings in which their density increases from the inside holes to the outside rings. The blue of the spectrum centers these holes and the red of it occupies the outside. For a good example, see a color photograph of the Lyra ring. When compression closes these rings, they become spheres in which density increases toward the center and the white hot yellows and reds of the spectrum center them. As spheres cool, they oblate and cast off rings. Holes then develop on the inside as the rings radiate their heat into cold. Thus the light-wave cycle is created. The above planet is two stages of Saturn which sun has cast off to cool

The diagrams herein given explain more fully than words can how the outward thrust direction controls both the apparently opposite directions of compression and expansion, centripetal and centrifugal, clockwise and counter-clockwise, inward and outward, refractive and diffractive, and conductive and inductive pairs of opposites, for which the mental equivalent is concentrative and decentrative. This is seemingly incredible, for each pair of opposites has a direction of ninety degrees from its axis of rotation. Each is the reaction of each other's action.

Always bear in mind our new law of the cycles which reads that **compression heats to cool and expansion cools to again heat**. Or it may be put this way: **cold generates heat and heat radiates heat to cold**. This applies to the interchange between all pairs of opposites. For example, centripetal force compresses and centrifugal force expands to again compress-and, man works to rest and rests to again work. All of these pairs of opposites express their forces at angles of ninety degrees from their axes of rotation. Even man lies down to rest and stands upright to again work. The concept of the expanding universe, without the power to generate an uphill flow of energy as well as to expand it into a heat-death, is untenable. We again repeat that science has been doing it everyday since laboratories began.

## 5. New Laws of Thermodynamics

As we move along into the new laws of thermodynamics I am going to give respect and reverence to the man who penned them to paper for you ones. It was Walter Russell and he received them directly from me as I now write-except that his was a comprehension capacity and not simply as a translator of the information. Some of you will read this and say, "Well, then its hardly 'new' because Russell is long dead". How many of you understand them from the time Russell shared them as he brought them forth for you? I thought so-hardly anyone! Your world would have already

been turned about and headed toward God Aton if you had understood. Most of you readers will have never even HEARD OF RUSSELL except through these writings or in research from these writings. Ah 'tis indeed sad for these men came forth out of their time-to test the readiness; and have always found it lacking-I hope it happens not this time also, for your sequence of events precludes further "dragging" opportunities. NOW IS THE TIME, HUMAN BROTHERS-IT IS "MAKE IT" OR "BREAK IT" TIME.

We stated that a distinguished scientist said that he believed you would soon learn how to control gravity from which marvelous results would follow. I also relayed that science has already been able to control gravity for a long time but does not know that it has done so. Let us consider this by giving a few examples. One conspicuous example is the projection of satellites into gravity-free orbits around the Earth.

More conspicuous still is the demonstrated fact that astronauts can accompany those satellites and reduce their speed at will in order to lower them to the ground where ground forces can control their areas of landing. The very fact of ground crews knowing where they are at all times is another conquest of gravity. To be able to talk to them from thousands of miles away is still another conquest for, heretofore, man has been able to talk to others only by wire until radio, television and radar had been discovered. I use this example for these are what you-the-public are allowed to see and know. There are incredible things which are hidden intentionally from you and yet there is no use utilizing those things as example for you have nothing with which to relate the information.

This all grew from the conquest of gravity by the airplane itself. Such a miracle would have been considered an impossibility during the end of the last century. A familiar quotation then was: "You could no more do that than you could fly." This phrase would seem strange to the coming generation.

What greater miracle in the conquest of gravity could be thought of by man than the power to hurl rockets and explosive missiles thousands of miles into space and to control the spot on the other side of the earth, or across its poles, upon which their projectors desire them to land? Equally great is the power of an adversary to meet those missiles, which they can find in mid-air at great distances from their point of projection, with others.

This is already such mundane capability that it becomes totally ridiculous that you-the-public would buy into such lies as that which happened in Iraq. Right now there is pictured an installation of the giant "Bull" cannon in Iraq which takes up the entire side of a hill-openly visible. How is it that mosques were hit, dwellings and shelters- and the nuclear installations and such as the Bull cannon were not touched??? America, alone, has satellite capability set up for control of you by the Bankers (called the Star Wars Defense System) which allows for reading a business card of a specific person from orbit. The same for audio signals-so guess WHO IS FOOLING WHO!

The conquest of gravity by liquefying gases, even to inert gases, is still another seeming impossibility for it is a reversal of Nature's process of heating, even as the freezing of soft metals to harder ones of greater conductivity is further evidence of the increasing power of the Mind of man.

Even the ability to create the fuels which hurl these missiles and satellites is another one of man's miracles. It is also a transmutation process for it divides the very elements to get that part of them which serves their purpose and discards the other parts.

As a last example of the many uses which could be cited of gravity control is the power of science to take from the high octave elements, such as zirconium which gravity has multiplied by its compression power, and make them into transistors. These do thousands of times as much as the old "electric" storage batteries do, but no scientist would think of GRAVITY as being its CAUSE. This is because science thinks of gravity in the Newtonian concept. Manufacturers of computers have been enabled to do great things with gravity and simplify their machines because of it. They, too, however, are unaware of the true nature of gravity.

Up to a century ago, man had not begun to make any conspicuous use of the power to control gravity. God Aton alone had that power. When the steam engine was invented, that God-power began to multiply in man. That is what God Aton intends for man who was created to manifest his Creator on Earth. *God Aton's highest goal for man is his own omnipotence and omniscience. Man already has God Aton's omnipresence, for his every thought and action extend to the farthest star and end in himself. That includes their unity with every other human on Earth-and this spells out the brotherhood-of-man relationship. The tragedy of present-day humanity is that mankind is not aware of its power nor of its real Source, for if it were aware of these things man could not possibly slaughter other men in his barbarous unholy wars.*

Scientists seem to only take that which another scientist proclaims and furthers the lie. Who is there, therefore, who dares say that this knowledge can only come from books and teachings of men whose concepts are forever changing, and whose teachings have likewise changed, from the flat-world concepts to the Ptolemy, Copernicus, Newton, Faraday, Tesla and Rutherford-Bohr concepts?

### 5.1 The Laws

- 1) Cold generates energy. Heat radiates energy. Cold multiplies. It cannot divide for it is the fulcrum of the universe which must extend to multiply. Heat divides. It cannot multiply but can be multiplied.
- 2) Every action must be preceded and followed by its equal and opposite reaction. Heat is the reaction of cold. Heat could not come into being save for the compressive action of cold, nor could it repeat itself without losing itself in basic cold.
- 3) Cold is static, unchanging and unconditioned. It eternally lives. Cold light is the basic ONE THING of this universe. Heat waves are dynamic, forever

changing and dually conditioned. They are eternally living and dying to simulate life.

- 4) Cold light is the omnipresent basis of universal intelligence and energy. Hot waves of light, which man calls matter, are a simulation of intelligence and energy. There is no intelligence or energy in matter.
- 5) Static cold and dynamic heat express their opposite energies at angles of ninety degrees from their axes of rotation. Cold retains its static, motionless condition along wave axes where motion ceases at points of maximum heat, while heat extends along equators to again expand as cold. This balanced interchanging completes the wave cycle.
- 6) Cold compresses. Cold multiplies cold to create heat. Heat expands to divide heat into cold. Varied pressures of heat constitute the octave color spectrum cycles and the octave chemical cycles of matter. Their varied wave lengths are the basis of your mathematics.
- 7) Long low waves of low potential and high frequencies constitute the invisible spectrum and low density gases while short high waves of high potential and low frequencies constitute the basis for high density.

It is our hope that deep consideration of the consistency of these laws will point out to all workers in science the fact that the old laws have actually been but words to them and become a habit like deep-seated tradition, for they have not followed them in their laboratory practices.

## 6. Conclusions

The purpose of this article is to give you a comprehensive understanding of your Oneness with the God-Identity by enabling you to transcend your physical-man identity completely and thus become the "Knower of the Cosmos" instead of merely a thinking extension of the Creator whose limitations of thinking are bounded by the ever-conscious fact that the man-idea is but a part of the whole and not the whole.

When you arrive at this stage of where you can focus your Consciousness to higher "hearing" and sever your consciousness from the seat of SENSATION IN YOUR BODY, you will then be that KNOWER and THINKER of the WHOLE instead of being bound to only a part of it by the limitations of your body.

That stage is the goal of ALL mankind, for every living thing on earth is perpetually seeking God Aton whether it knows it or not. Every living thing is perpetually turning toward the visible light which God Aton invisibly centers no matter whether that thing is man, flower, tree, wave-current or atom.

That wrong scientific terminology is based upon the concept of an electromagnetic universe. In order to comprehend the power of motion in its desire to create heat and visible light out of the cold invisible Light at rest, which Mind is, Creation must henceforth be looked upon as a universe of Mind-imagining having no reality and be known as OPTICAL UNIVERSE OF GRAVITY-CONTROLLED LIGHT, for God Aton is Light and God's Mind THINKS in waves of light.

Science has long ago been in control of gravity but is, unfortunately, unaware of that.

*All matter is composed of light rings in which their density increases from the inside holes to the outside rings. He blue of the spectrum centers these holes and the red of it occupies the outside. For a good example, see a color photograph of the Lyra ring. When compression closes these rings, they become spheres in which density increases toward the center and the white hot yellows and reds of the spectrum center them. As spheres cool, they oblate and cast off rings. Hole then develop on the inside as the rings radiate their heat into cold. Thus the light-wave cycle is created.*

The new law of the cycles reads: compression heats to cool and expansion cools to again heat, or cold generates heat and heat radiates heat to cold.

*God Aton's highest goal for man is his own omnipotence and omniscience. Man already has God Aton's omnipresence, for his every thought and action extend to the farthestmost star and end in himself. That includes their unity with every other human on Earth-and this spells out the brotherhood-of-man relationship. The tragedy of present-day humanity is that mankind is not aware of its power nor of its real Source, for if it were aware of these things man could not possibly slaughter other men in his barbarous unholy wars.*

## Author Profile

I was born on August 6, 1950 in Grab, Montenegro (former Yugoslavia).

1982 – Acquired my PhD in the field of atomic and plasma physics, at the same Faculty, under the title: “Regularities and Systematic trends of Stark Width and Shift Parameters of Spectral Lines in Plasmas”.

1985 -1987 Spent two years as fellow of the Alexander von Humboldt Foundation from Bonn (Germany) at the University Düsseldorf developing plasma UV-spectroscopy at the tokamak UNITOR and performing measurements of the plasma instabilities in the scrape-off layer at the tokamak TEXTOR in Jülich (Germany).

1987 – 1991 Worked as the guest scientist at the Max-Planck-Institute for Plasma Physics in Garching by Munich (Germany) performing measurements of the magnetic field configuration at the stellarator W7AS as well as the measurements of the limiter heat load.

1991 – 2000 Was working in the Institute of Physics in Zemun (Serbia) on investigations of the plasma force-free configurations and in **1995 I acquired the Research Professor degree.**

2000 – At the end of 2000 I chose to leave the Institute of Physics and went on my own way to discover and learn the God Aton’s principles and laws of creation.

After 18 years of the progression toward that sacred goal, I finally succeeded and now I know many of the God Aton’s creational principles and laws (unknown until now) and can apply them for the simple and efficient creations which make the basis for a new life quality on this planet.

I am a pioneer, creating with a New Conscious Energy and building a new civilization without electricity.

I’ve developed the TESLA RADIATION BALANCER – the genuine product in form of a self-adhesive sticker certified by the Hado Life Institute of Dr. Masaru Emoto which 100% balances radiation from any device, if attached to it, protecting the human body and environment from its harmful effects and eliminating with time the damages already caused by the radiation. It can be successfully applied to: cell phones, computers, laptops, microwave ovens, cordless phones, tablets, wireless monitors, Wi-Fi routers, TV-sets, Radios, and any other source of radiation.

Thanks to the consistent pursuit of my Leitmotif “The Authority of Truth rather than the Truth of Authority” I have experimentally proved the true atom, cell and particle “ATON” concept. According to the “ATON” concept, atoms, cells and particles are made of light which are spinning around the centering Mind (Spirit) points (the black holes). Nature expresses energy as electric

potential in only one way, which is the same way both for the atomic and for the stellar scale: by projecting mentally the rings of visible light which are spinning around the centering Spirit points. This amazing beauty of creational simplicity is the basic fundamental truth of a new science that is based on the knowledge of the cause.

I wrote two books: "GOD ATON IN THE ATOM" and "DODECA 101 LOVE ENERGY" which are available on my website.

I use to practice sport very gladly and am a unique tennis coach.
