

The New Science and my I-Change Consciously (ICC101) Technology

Ilja Lakicevic

MarslaTita 91/12, 21460 Vrbas, Serbia

Abstract: *The new science is based on knowing the cause. All scientific concepts are inverted of the true concepts, except the scientific atom concept which doesn't reflect even that virtue. So called "electrostatic unit of charge" does not exist so that the whole scientific theory about electricity is meaningless. Cell, atom and particle are made of light rings spinning around the centering zero Mind point. The basic law in Nature is: Same conditions attract each other. My ICC101 technology is based both on power of human conscious intent and power of love.*

Keywords: new science, true concepts, I-Change, conscious technology

1. Introduction

Let me first share the truth that our civilization has entered on August 17th, 1987 the new cycle when the new era of peace, freedom and consciousness has begun, not at 2000 as people believe. On September 18th 2007 on our planet the new energy of love has been established – it is the new conscious energy with which we can change everything by letting energy to serve us instead of us serving energy as it was the case till that date. This new Cosmic era is era of **truth and knowledge** – no lie will be left unrevealed. This was the new beginning and that is why 101, where 10 stands for the creation before August 17th, 1987.

Imagine that you've brought a mobile phone to a middle age man, gave him it and told him what it is, how it works and how he can use it to contact anybody anywhere on the planet. He would have thrown it out as useless and proclaimed it scam just like BBC proclaimed my technology scam. It is all about relationship between consciousness and technology. Consciousness goes first always, because consciousness creates technology. It is true that nowadays technology is pushing consciousness, but still consciousness is the first.

My new technology **I-Change** is not possible to be understood before **truth about human being and true concepts and laws of creation**, which all are opposite of common scientific belief, are understood and accepted. It would be like trying to explain green color to a blind person. I am not expecting that it will be understood, but I'm certainly expecting that the test results, which are provable and repeatable, will be respected and accepted. My position now is similar to the one of Benjamin Franklin in 1759 when he experimented with electricity phenomenon – nobody understood it at that time and nobody believed that one day we will have civilization of electricity, except himself, of course. I believe that we can have civilization without electricity and I'm pioneering with it – it is the next step in evolution of us human beings.

No one scientist of this civilization could've solved the problem of squaring the circle: to construct a square with the same area as of given circle by using only a finite number of steps with compass and straightedge only. But, for me it was

a challenge, not a problem, and I knew that the answer to this challenge must exist because of the principle of balance: when a challenge is created simultaneously the answer is created as well. So, first I have found the right value of the PI number and then I've found answer to the challenge of squaring the circle. **Everything is possible with KNOWLEDGE. Only KNOWLEDGE can make people FREE!**

It has been proven by Walter Russell that we are living simultaneously in two universes: the still magnetic universe at rest which is CAUSE and which can only be known with our Mind (it cannot be experienced with our senses) and the material electric universe of motion which is EFFECT and which can only be experienced with our senses (it cannot be known with our Mind). With our senses we gain information which is upside down of the knowledge because our senses are delivering us opposite of the truth so that all scientific concepts are inverted of the true concepts, except scientific atom concept which doesn't reflect even that virtue. In the electric universe of motion everything is motion, so that so called "*electrostatic unit of charge*" *does not exist* and cannot exist in the universe of motion – everything what is static belongs to the still magnetic universe at rest. Having said it the whole scientific theory about electricity falls in water!

Let me use scientific measurements and interpret them properly in order to derive the true concepts of particle, atom and cell. Let me keep everything simple so that everyone can understand it.

2. The Particle Concept

Let me examine the vacuum gas discharge phenomenon (Fig. 1), where it can be seen clearly that the electric current in form of parallel light rings are extending from the cathode to the anode (not electrons as balls or spheres), like buttons strung upon a thread. In the beginning of the discharge it is clear to see an instable phase with light rings spinning very fast around their own centers until a stable phase is established where those rings are lined in planes that are at 90 degrees from the shaft going through the centers of all rings. But, even during the stable phase it is still possible to see the light rings spinning fast around their own centers.

Figure 1: Gas discharge phenomenon

Generally accepted in current science is that the atom is a basic unit of matter that consists of a dense central nucleus - containing positively charged protons and electrically neutral neutrons - surrounded by a cloud of negatively charged electrons moving around the nucleus.

To charge means to be added to. Meaning of the word “negative” is to negate, to void, to empty or become minus. So, “**negative charge**” means literally “**added to by subtraction**”! Does it make sense?! What “negative charge” means at all? How can something be “negatively charged”? There is **charge** and **discharge** ONLY!

From the Fig. 1 it is obvious that light rings are moving, but not some nebulous electrons like small spheres or balls.

3. The Atom Concept

A group of scientists of the Central Scientific Company, of Chicago, has used an instrument called the Cenco-Muller Field Ion Microscope in order to magnify the tungsten atom 2,700,000 times and make it visible (Fig. 2). The Fig. 2 shows clearly that it is possible to look directly at God in the laboratory. The very center is absolutely black – there are no protons and no neutrons there. I have magnified the very black center of the picture on left and have shown it on right as a smaller black square. It is obvious that there are NO protons and neutrons in the so called nucleus of atom, and there are NO phantom “negative charged” particles called electrons. And there are no phantom nuclear forces coming out from the nucleus.

Those forces and power are Spirit power sitting in the center of every atom and extending power in the measure of the DESIRE of Consciousness for creative expression.

Figure 2: Photomicrograph of pure tungsten crystal magnified 2,700,000 times. On the small picture right is very center of the big picture magnified – there are NO protons and neutrons to see there and count!

4. The Cell Concept

It is well known phenomenon of so called “sickle cells”

[Pauling L, Itano HA, Singer SJ, Wells IC., Sickle cell anemia, a molecular disease. *Science* 110: 543 (1949)]. It appears under a microscope that the red blood cells of the balanced body are microscopic rings with holes in the center (see Figure 3), whereas different disturbances which sufficiently upset the balance of the body metabolism will break openings in these rings and make them appear to be sickle-formed so that the little white discs which constitute the red corpuscles of the blood appear to have frayed edges, as though they were moth-eaten.

Figure 3: A - balanced red blood cells, B - sickle cells

Everyone who is not blind can see from this picture what is the cell concept: rings of light spinning around centering zero Mind point.

5. The Coulomb law

The Coulomb Law statement that opposites attract and likes repel IS NOT TRUE TO NATURAL LAW!

Opposite conditions ARE opposing conditions. Likewise, they are opposite effects caused by each pulling in opposing directions. It is not logical to say that opposites fulfill any other office than to OPPOSE. Nor is it logical to say that opposing things attract each other.

The basic underlying law in nature is that the SAME CONDITIONS ATTRACT EACH OTHER!

6. The basis of my ICC101 technology

1. We human beings are infinite and eternal spiritual beings; we are not physical body as our adversary deliberately taught us falsely. As holographic parts of our Creator, Father God Aton, we are equal to the Creator – we are omnipresent, omniscient and omnipotent beings. Our body is electric record of our thoughts – it is an electric machine, no more and no less. The wiring (nerves) works by tiny high-frequency electric current. The debilitated circuit connections are hardly “firing”, because of all the assaults by our adversary, using various “Quiet Weapons for Quiet Wars”. This includes ELF (extremely low frequency), DEW (directed energy weapons), as well as outright poisoning through our food, water and air, through radiation and through chemical spraying in our atmosphere.

2. Every cell, atom and particle is a light ring spinning around the centering zero Mind point, where Spirit, God Aton, sits centering every piece of His/Her creation from

within and borrowing energy to the light rings so that they can move. This centering zero Mind point is omnipresent, omniscient and omnipotent point which responds to human consciousness and fulfills every human desire, no matter what. That is how we human beings are creating our reality not being aware that every our thought is recorded in our DNA and every our desire fulfilled by projection of our thoughts to our bodies. Having in Mind the right Aton atom concept it is easy to explain the well-known placebo effect in medicine. It is the allowance of a patient who decides about healing because the omnipotent Spirit sits in the center of every atom of a sugar pill and fulfills patient's desire – every healing is self-healing!

3. Radiation consists of fast expanding light rings centered by the zero Mind point. If the centering zero Mind point is in the geometric center of the light rings, that radiation is balanced and causes balanced (benevolent) effects on all living cells, not only human body cells. Opposite, if the centering zero Mind point is off center, that radiation is imbalanced and causes imbalanced (harmful) effects on all living cells, not only human body cells. See **9.6.2 Centeredness of the light rings** in my article “Aton” True Cell, Atom and Particle Concept.

4. Because the centering zero Mind point is intelligent point which fulfills every human desire, we can **consciously** address that point and request to move to the geometric center if it is off center. That is what I call **power of human conscious intent – the strongest power in universe!** The conscious human intent can be expressed verbally and recorded electrically because every sound in any word is an electric current. Now if we would be able to keep repeating that one thought 24/7 it would work for us 100%. But, the problem is that we cannot think only one thought for long time. That is why I record my conscious intent in a three thin layers (quantum nano-layers) in order to attach it to a device as a simple sticker so that Spirit will be permanently fulfilling my conscious intent. Both my exact conscious intent and the way of its recording are secrets, of course. I share here only that I've built a separate device with which I can record my conscious intent into three quantum nano-layers.

I didn't patent it because nobody can copy it. If someone comes to the same level of consciousness as I that one will for sure not steal from me – we are ONE. By the way, I wrote the patent and will attach it here for reading and better understanding.

7. How do I know that my Sticker Works?

I use **common scientific method** where conclusions about unknown cause (imbalanced or balanced radiation in this case) will be drawn from analysis of its effects on the known targets. That is the only possible way, because there exist NO device which can directly measure (im) balance. Even more, this feature is not known in science. I chose to test effectiveness of my technology direct on human living cells without using any software or theoretical assumptions. The test results of our 5gbioshield show clearly rebalance of the imbalanced cells (one can find more details on our website):

Figure 4: Tests results of the red blood cells

Let me quote here from my paper “The Right Therapy for Radiation Poisoning”:

“The blood is of first importance of all of the elements which compose the body. The nervous system could be entirely paralyzed and the body would still function, but the blood has deep instinctive awareness of its existence and the body, which does not have a happy, rhythmic blood condition, cannot possibly retain its balanced normalcy. The blood immediately feels every mental and physical tension to which it is subjected. This is why a whole population can fall ill if the proper frequency changes are introduced into that population - and brethren, the ADVERSARY KNOWS IT AND KNOWS HOW TO MANIPULATE IT. YOU CAN HAVE THE "CURE" FOR AIDS AS RAPIDLY AS COMING INTO KNOWLEDGE OF THIS INFORMATION FOR DIS-EASE CANNOT ENTER WHERE THE MIND-CREATOR CHOOSES TO HAVE NO ENTRY!”

These true statements are so profound that anybody who is serious about self-protection needs to read them 100 times and meditate upon them in order to be able to apply them in everyday life. In between we offer our brotherly help in form of our 5gbioshield USB Key in order to provide protection from all kinds of negative influences, not only from radiation poisoning.

Quote

QUANTUM METHOD AND APPARATUS FOR QUALITY CONTROL OF ANY RADIATION, PARTICULARLY MICROWAVE RADIATION

Abstract

A method and apparatus for quality control of any radiation, both ongoing and incoming, particularly microwave radiation, and consequently for efficient prevention of its all possible hazardous effects on living bodies comprising of: creation of balanced thought patterns, recording them in a quantum multi-nanolayered material structure with retained direction of spinning of the electric current and replacing in a radiating device already existing records of the unbalanced thought patterns with the so created records of the balanced thought patterns, by uniting of the quantum multi-nanolayered material structure with a radiating device itself.

9. Description

9.1 Background of the Invention

1. Field of the Invention

This invention relates generally to the field of wireless technology, especially to the field of radiating devices and,

more particularly to the quality – the degree of balance - control of the (microwave) radiation thereof.

2. Background Art

This invention solves the problem of the balancing of any radiation, particularly microwave radiation, of the radiating devices and optimization of its effects on living bodies.

The very base of this invention is discovery of the true cell, atom and particle concept (Ref. 1). Namely, it was experimentally proven that cell, atom and particle consist of light rings spinning around the still zero point of universal Mind which is the source of energy and from which spinning light rings – electric current – borrow energy in order to spin.

Findings of many researchers are confirming observations made over the years of the negative effects of devices radiating particularly microwave radiation on the balance of living cells. It has been discovered that small amounts of unbalanced energy can have the same negative effects as a massive dose of chemicals. The balance of all living bodies is being found to be influenced by the subtle fields of microwave energy, what means that radiating devices are the cause of an unbalance of living cells always then they are switched on, not only when they are in use (Ref. 2).

It is proven that reduction of the exposure level by a factor of 1.000 actually increased the damage of the blood-brain barrier showing that this is not a dose-response effect and that reduction of the output power will not make wireless technology safer. Furthermore, reduction of the exposure level by a factor of 10 or 100, thereby duplicating the effect of wearing a headset, moving a cell phone further from body, or standing next to somebody else's radiating device, did not appreciably change the results. And finally, a single **two-hour** exposure to a radiating device, **just once** during its lifetime, **permanently damaged the blood-brain barrier** (Ref. 3).

Radiating devices are regulated by the Federal Communications Commission (FCC), and expressed by the measured value of so called Specific Absorption Rate (SAR), based upon the arbitrary assumption that *the brain can safely dissipate added heat at a rate of up to 1 degree C per hour*. The standard way to measure SAR is on a "phantom" made of Plexiglas in the shape of human head and filled with a homogenous fluid. It can in no way simulate the real situation while the structure of the human body (particularly of head and brain) is so complex and non-uniform that "hot spots" are produced, where heating can be tens or hundreds of times what it is nearby, and there are no sensory nerve endings in the brain to warn us of a rise in temperature, because we did not evolve with microwave radiation, since this never happens naturally in human environment on Earth. Lowering of the SAR value by new generations of radiating devices is the logical consequence of the reduction of the output power, *but has no correlation with safety of radiating devices, as it is wrongly interpreted*.

“Current safety guidelines for cell phones assume no harmful effects, as long as the microwave radiation they emit does not cause heating of body tissue. Exposure limits

are intended to protect us only from excessive temperatures caused by absorption of energy, a known danger linked to the intensity of radiofrequency microwaves. But living cells respond in non-thermal ways to the fields produced by cell phones, and at intensities below the established safety threshold” (Ref. 4).

The radiating device producers have been repeating that there are no scientific proofs that the radiating device technology is hazardous for human beings. The Water Crystal Photography (WCP), developed by Dr. Masary Emoto (Ref. 2), is been delivering photos of the totally unbalanced crystal structures of waters irradiated by radiating devices, which are indisputable proofs that microwave radiation of radiating devices is catastrophic hazard for humans and definitively refute the statements of the radiating device producers that the radiating device technology is safe. The human cells contain in average about 75% water, whereas the cells of brain contain 85-90% water and the blood cells contain even 95% water. **Water drops are cellular when warmed above their freezing point, but below that point they become hexagonal crystals to reflect their positions in their cube wave. In other words, water crystal structure is reflection of the degree of balance of the wave field by which it is irradiated, or is the measure of its quality.** So, the WCP is the most convenient method for verification and delivering of the final true proofs of quality of the effects of a radiating device microwave radiation on living bodies.

Human beings are water-based and since the pulsing frequencies of the water molecules and the microwaves of radiating devices are very close, according to the general law of resonance based on the law of action and reaction and according to the universal principle of octave multiplication, the water will be warmed up. That is the mechanism of body heating by microwaves and that is why we are particularly sensitive to microwaves.

The main problem is that the microwave radiation of current generations of radiating devices is not centered, is off-center, as a logical consequence of the present state of science and the state of balance of the beings of producers of the radiating devices whose unavoidable final consequence are the eccentric oscillations of both emitting medium and the outgoing microwave radiation (Refs. 5, 6). ***If human thinking is unbalanced, and since his actions reflect his unbalanced thought-decisions, the tensions which result from such unbalance – the records of the unbalanced thoughts - will cause every Mind-center, which controls the balance of those thought-ring records, to act as though they were off-center and the spinning of the electric current around that eccentric center will be like a fly-wheel with its shaft eccentrically placed.*** In accordance with the general law of resonance, the resulting off-centered microwave radiation of radiating devices in interaction with living cells brings them out of balance in the measure of the equal-ness of their oscillating frequencies. That is why some parts of the living bodies are more influenced by microwave radiation than the other parts.

There are many attempts for optimization of the influence of the unbalanced microwaves of the radiating devices on

living cells, either in form of electronic chips or in form of different kind of stickers. For most of them certification procedure included clinical investigations and final conclusions are made both on the base of some measurements of body functions and on the testimony of those who were tested. But, since it is not possible in any kind of clinical investigation to eliminate the influence of mental states of tested persons caused by many possible different sources which are in no correlation with radiating device radiation, all those certifications are worthless. The best way to measure direct correlation between microwave radiation of radiating devices and living cells is to perform separate measurements on water. Why on water? There are two reasons. The first one is the fact unknown in the science that **ONLY** two substances have been creating, namely **water** and **fire**, or **hot dryness** and **cold wetness**. Water is continuously returning to fire and that process is again repeated by fire turning to water, or in other words water is frozen fire and fire is incandescent water. The second reason is the fact, also unknown in the science, that all elements of matter – all other constituents of a living cell – are also frozen flame, so they all are different states of water! So, every effect of microwave radiation measured separately on pure water is the same one that microwave radiation causes on living cells.

10. Summary of the Invention

It is the primary object of this invention to promote a novel method and to provide an optimal apparatus for balancing of the microwave radiation of the radiating devices and consequently for enabling of optimal effects of their influence on living cells. The non-centered microwave radiation of radiating devices is caused by unbalanced thoughts and their consequent records, whose final effect is an eccentric spinning of the electric current around “eccentric” Mind-centers. For the purpose of elimination of the possible harmful effects of the off-centered microwave radiation, the unbalanced thought records are replaced with balanced thought pattern records, which are an expression of Mind knowing. A quantum multi-nanolayered material structure is used as a carrier in which the balanced thoughts are first recorded and then all together – the quantum multi-nanolayered material structure and recorded balanced thought patterns, named **QUANTUM RADIATION BALANCER (QRB)**, see Fig. 1, - is brought to become part of a radiating device itself. Those records are mirror images created with mirrors erected in planes of 90 degrees to the direction of polarity, or to the gravity shaft, retaining in this way the same direction of the electric current spinning. From that moment on, because of the fact that *all is interconnected every moment of the time in this electric universe of motion*, both the radiating device and its microwave radiation become balanced as a result of so recorded balanced thought patterns which cause that every Mind-center, which controls the balance of those thought patterns, to act as centered and consequently the spinning of the electric current around the Mind centers to become the true circles (Ref. 7). Both the method of replacement and the elements of the quantum multi-nanolayer structure are adequately chosen in order to be compatible with a way of Mind knowing expression so that absolute efficient and permanent acting of Mind-centers in accordance with the recorded balanced thought patterns is

provided. As a final result the balanced outgoing microwave radiation of the radiating device, in accordance with the general law of resonance, causes that all living cells irradiated by that microwaves get into balance, what is been proven by the hexagonal crystal structure of their water constituent (see Fig. 2).

The ongoing radiation balanced in this way, according to the law of resonance, will balance imbalanced incoming radiation in the vicinity of the radiating device.

Brief Description of the Drawings

Fig. 1 represents a photo of the quantum multi-nanolayered sticker **QRB**

Fig. 2 represents water crystal photography of: **(a)** a water used for irradiation, **(b)** the water irradiated by a non balanced radiating device and **(c)** the water irradiated by the radiating device balanced with **QRB**

Detailed Description of the Invention

In accordance with indisputable fact that the unbalanced thoughts are recorded in the radiating devices and expressed as unbalanced outgoing microwave fields, the only secure method to prevent its effects in form of possible unbalanced effects of living cells exposed to that radiation, is either to bring the source of unbalanced thoughts in balance or to replace their unbalanced records with consequent balanced thought pattern records. The first possibility is out of my capabilities since it is a matter of adequate conscious sovereign decisions according to the free will choice, so the second possibility is used out and applied for the realization of the aim of this invention.

The first step toward the realization of that aim is creation of an appropriate form of the balanced thought patterns as an expression of my Mind knowing, enabled to me by the level of my conscious awareness, so that Mind-centers, which control the balance of the thought patterns, act as centered and consequently the spinning of the electric current around the Mind centers, are the true circles. The second step is the choice of the structure of the material carrier so that the patterns can be in the simplest and most efficient way recorded in the chosen quantum multi-nanolayered material structure. In the third step the created balanced thought patterns are recorded in the experimentally chosen quantum multi-nanolayered structure consisting of chemical elements carefully selected according to their positions in the wave amplitude so that the created records are mirror images in reverse of the created balanced thought patterns. Namely, the records are created with mirrors placed at angles of 90 degrees from the direction of polarity, or from the gravity shaft, so that the same direction of spinning of the electric current is retained. Both the balanced thought patterns and their records in the quantum multi-nanolayered basis are so performed and prepared that an optimal replacement of the already existing records of the unbalanced thought patterns in the structure of the radiating device itself is best enabled. The fourth step is the fusion of so obtained unit – **QRB** – with a radiating device itself, in the way that the unbalanced thought patterns which are integrated in the radiating device structure through the procedure of their production, can be easily and efficiently replaced with the records of the created balanced thought patterns.

It is turned out that the QRB in the form of a sticker satisfies all above demands and can be brought in union with a radiating device itself by simple pasting (on the inside surface of the battery cover or on the battery itself - recommended for the sake of mechanical damage prevention during use of a radiating device).

The test procedure of the final product QRB has been carried out in three following steps:

- **First**, a water sample is taken and its crystal structure recorded by application of the WCP technique. The result is shown in Fig. 2 (a) from which it is obvious that the chosen water itself was unbalanced, since it originated from the mountain where a high content of heavy metals lead and zink has been documented.
- **Second**, an another sample of the water from the same source has been irradiated by the microwave radiation of a radiating device for the time of five minutes and its crystal structure recorded by application of the WCP technique. The result is shown in Fig. 2 (b) from which it is obvious that the degree of unbalance in this case is much higher then in the first case, as a logical consequence of the acting of the unbalanced microwaves.
- **Third**, a new sample of the water from the same source has been treated as in the second case with only difference that the QRB was pasted on the radiating device itself. The result is shown in Fig. 2 (c) from which it is obvious that, as a result of the successful replacement of the unbalanced thought records with a balanced thought records, the water has become balanced what is reflected in its crystal structure which is turned into hexagonal form, similar to a snow-flake. That is the final and indisputable proof that the method developed was working excellent and that the final product – the sticker QRB – is not only preventing all possible hazardous effects of the microwave radiation of the radiating devices, but also is bringing already unbalanced living cells back into perfect balance.

The method developed, with small consequent adjustments, is applicable for all sources of microwave radiation. The great advantage of the QRB is the fact that it contains just components that could go out of functionality only by mechanical damages, so there are no service costs and there is unlimited guarantee period.

11. Claims

- 1) A method for quality control of any radiation, both outgoing and incoming, particularly microwave radiation, of a radiating device by creation of balanced thought patterns and their records with retained direction of the electric current spinning, and replacement with them already in a radiating device itself existent unbalanced thought pattern records, and an apparatus in form of a quantum multi-nanolayered material structure for recording of the balanced thought patterns and for uniting of the records with a radiating device itself, for the sake of balancing of both outgoing and incoming radiation.
- 2) The method in claim 1. wherein the balanced thought patterns are created as an expression of Mind knowing in form of the electric current spinning around the Mind centers, which control the balance of the patterns, so that the spinning is true circular.
- 3) The method in claim 2, wherein the records of the balanced thought patterns are created so that spinning direction of the electric current is retained.
- 4) The method in claim 3, wherein the balanced thought patterns are recorded for the sake of replacement with them of the records of the unbalanced thought patterns, already existent in both outgoing and incoming radiation.
- 5) The method in claim 4. wherein a basis for holding of the records of the balanced thought patterns with retained spinning direction of the electric current is a quantum multi-nanolayered material structure in form of a sticker.
- 6) The method in claim 5, wherein the sticker is circular in shape with diameter which is harmonic value of the number $\sqrt{10} = 3.16227766$.
- 7) The method in claim 6, wherein records of the unbalanced thought patterns already existent in both outgoing and incoming radiation are replaced with the records of the balanced thought patterns.
- 8) The method in claim 7, wherein the replacement of the both outgoing and incoming radiation already existent unbalanced thought records with the balanced thought records is done by simple pasting of the sticker on a radiating device.
- 9) A balancing apparatus, suitable for the quality control of the both outgoing and incoming (microwave) radiation, comprises the quantum multi-nanolayered material structure in form of a sticker for the purpose of its direct pasting on a radiating device itself.
- 10) A balancing apparatus in claim 9, wherein the quantum multi-nanolayered material structure is composed of the chemical elements chosen in accordance with their

positions in the wave amplitude so that the records of the balanced thought patterns in the quantum multi-layered basis are mirror images in reverse of the created balanced thought patterns.

- 11) A balancing apparatus in claim 10, wherein the mirror images in reverse of the balanced thought patterns are compatible with a way of Mind knowing expression so that absolute efficient and permanent acting of Mind-centers in accordance with the recorded balanced thought patterns is provided.

End of Quote

My discoveries as independent researcher

- 1) Discovery of the truth about human being, consciousness, relation of the human being to physical body, relation of human being to God Creator Aton and Creation (this material universe) and true laws and concepts of creation.
- 2) Experimental verification of the true "ATON" cell, atom and particle concept: light rings spinning around the centering Mind point which is the source of energy and from which the light rings borrow energy to spin, to move.
- 3) Discovery of so called "centeredness" of wave fields and on that base invention of Tesla Radiation Balancer, the first certified device without electricity for balancing (centering) of imbalanced (not centered) wave fields.
- 4) Discovery of the only possible natural solution for nuclear waste challenge with irresistible proofs that it would work 100% and would bring huge benefits for humanity: stop of global warming, stop of oxygen depletion in air and waters and creation of huge agricultural areas in regions where there is currently huge lack of food.

- 5) Discovery of the true value of the PI number and solution of the in science unsolvable problem of "squaring the circle".
- 6) Discovery of the power of human conscious intent and rebalancing within two months of the damaged brain (Alzheimer) of a 5 year old girl with power of verbally expressed conscious intent.
- 7) Discovery of the true concepts of energy, mass, speed of light, gravity and electricity and derivation of my equation of creation which properly describes both generation (compression) phase of creation and degeneration (radiation) phase of creation, as well as their simultaneous occurrence and sequential repetitiveness. This right equation definitely retires the famous Einstein's wrong equation from 1905 of "equivalence of mass and energy".
- 8) Discovery of the presence on our planet of the new conscious energy and its unit Deca and its many unique characteristics and ways of conscious unlimited creation with it in order to build new civilization without electricity.
- 9) Discovery of the Nature's radar principle which is the great intercommunication system for recording of all effects of motion and repeating them to all other effects in the universe at the speed of light.
- 10) Discovery of the relationship between consciousness and energy: energy belongs to consciousness to create with and energy is server of consciousness fulfilling every our desire if we ALLOW energy to serve us.

TRUTH IS TRUTH! WHO KNOWS, KNOWS!

I'd like to stress that my 10th paper "**Shaking Science's Foundations – Walter Russell Won Approval 90 Years Ago**" is of utmost importance as basis on which I have upgraded.

My e-books GOD IN THE ATOM and DODECA 101 LOVE ENERGY are available on my website teslastyle101.com.

13. Conclusions

The new science is based on knowing the cause. All scientific concepts are inverted of the true concepts, except the scientific atom concept which doesn't reflect even that virtue.

So called "*electrostatic unit of charge*" *does not exist* so that the whole scientific theory about electricity is meaningless. Cell, atom and particle are made of light rings spinning around the centering zero Mind point.

The basic law in Nature is: *Same conditions attract each other*.

My ICC101 technology is based both on power of human conscious intent and power of love.

creational principles and laws (unknown until now) and can apply them for the simple and efficient creations which make the basis for a new life quality on this planet.

I am a pioneer, creating with the New Conscious Energy and building a new civilization without electricity. I’ve developed the TESLA RADIATION BALANCER – the genuine product in form of a self-adhesive sticker certified by the Hado Life Institute of Dr. Masaru Emoto which 100% balances radiation from any device, if attached to it, protecting the human body and environment from its harmful effects and eliminating with time the damages already caused by the radiation. It can be successfully applied to: cell phones, computers, laptops, microwave ovens, cordless phones, tablets, wireless monitors, Wi-Fi routers, TV-sets, Radios, and any other source of radiation.

The upgraded version of the TRB is my QRB (Quantum Radiation Balancer) which is protection from any kind of negativities, including 5G, and is integrated in the product 5GBioshield – 5gbioshield.com.

Thanks to the consistent pursuit of my Leitmotif “The Authority of Truth rather than the Truth of Authority” I have experimentally proved the true atom, cell and particle “ATON” concept. According to the “ATON” concept, atoms, cells and particles are made of light which are spinning around the centering Mind (Spirit) points (the black holes). Nature expresses energy as electric potential in only one way, which is the same way both for the atomic and for the stellar scale: by projecting mentally the rings of visible light which are spinning around the centering Spirit points. This amazing beauty of creational simplicity is the basic fundamental truth of a new science that is based on the knowledge of the cause.

I wrote two books: “GOD IN THE ATOM” and “DODECA 101 LOVE ENERGY” which are available on my website.

I use to practice sport very gladly and am a unique tennis coach. Website: <http://www.teslastyle101.com>

Author Profile

I was born on August 6, 1950 in Grab, Montenegro (former Yugoslavia).

1982 – Acquired my PhD in the field of atomic and plasma physics, at the same Faculty, under the title: “Regularities and Systematic trends of Stark Width and Shift Parameters of Spectral Lines in Plasmas”.

1985 -1987 Spent two years as fellow of the Alexander von Humboldt Foundation from Bonn (Germany) at the University Düsseldorf developing plasma UV-spectroscopy at the tokamak UNITOR and performing measurements of the plasma instabilities in the scrape-off layer at the tokamak TEXTOR in Jülich (Germany).

1987 – 1991 Worked as the guest scientist at the Max-Planck-Institute for Plasma Physics in Garching by Munich (Germany) performing measurements of the magnetic field configuration at the stellarator W7AS as well as the measurements of the limiter heat load.

1991 – 2000 Was working in the Institute of Physics in Zemun (Serbia) on investigations of the plasma force-free configurations and in **1995 I acquired the Research Professor degree.**

2000 – At the end of 2000 I chose to leave the Institute of Physics and went on my own way to discover and learn the God Aton’s principles and laws of creation.

After 18 years of the progression toward that sacred goal, I finally succeeded and now I know many of the God Aton’s
