

What is Time?

Ilija Lakicevic

MarslaTita 91/12, 21460 Vrbas, Serbia

Abstract: *“Time” is simply a perception which allows for “experience”. It allows a “space” in which to choose an experience. Time is duration between events of compression and expansion because at the wave amplitude there is stop in motion and reversal from compression to expansion! It is the sequence of events in your thinking and God's thinking which creates the illusion of time. Time is a field. It is space-dependent. Space is a field and is time-dependent. Product of time and space is constant. The relationship between the two is the third power [of] displacement in either. This may be recognized by a simple equation or formula. T^3 divided by 3 is equal to S^3 . S^3 divided by 3 is equal to T .*

Keywords: time, new science, true concepts, quantum perception

1. Introduction

May I first say that there are no endings nor beginnings in all of Aton's Creation. The entire universe (“uni” meaning “one”, and “verse” meaning “song”) is eternal, with periods of rest as all things come back into the ONENESS with God Aton.

Everything moves in SPIRALS, the vortex or “tornado” whirlpool effect of motion. Creation is a CURVED CONDITION of wheels within wheels, and everything moves in spirals.

You are either winding up or unwinding in your direction of unfolding. You are either coming out from God Aton or you are coming back, fulfilling your journey of experience and lessons learned.

You are ETERNAL. GOD ATON is ETERNAL. Man is playing in a game called life, his soul is immortal - it lives forever. The body of man seemingly dies, it does not. However, it does pass out of your ability to see it for the other half of its cycle. Remember, unfolding and re-folding, winding and unwinding? This is also called COMPRESSION and EXPANSION; compressed “nothingness”, if you will, condenses into visible seeing “mass”. That is how things appear and disappear in Nature. “Nature” IS The Creation; all that can be seen and perceived by the physical senses, on Earth or in space, belongs to the compressed half of the compression/expansion cycle.

2. Exactly like a piston

In-breathing CHARGES or compresses “life”. Exhaling DISCHARGES bodies and expands, or radiates, life back into the ethers where it will again be compressed back into “life” to again experience.

Bicycle pumps work like that; they compress seeming nothingness into a small space, and then POWER and MOTION can be expressed. A tire can be filled with air which now can do work. It can carry a man on a hundred-mile journey in a tiny fraction of the time it takes if he were to make the journey on foot. Get a bigger tire and he can haul thousands of tons of steel across the country, impossible with bare hands and feet.

This concept is what Creation and life is. You compress to be in the “here and now” of time and space - which is really an illusion anyway; God Aton is STILLNESS and does not move, yet He is EVERYWHERE - there is no time nor space.

3. Dreams are example of timelessness and Spacelessness

In a dream a person can travel to the farthest desert, or sail huge ocean expanses, with virtually no lapse in “time” except for a moment. Is that not true? Would it not take weeks and months to do that in the physical world of “here and now”?

Or how about size? From the perspective of you in the dream, can you not “stand” anywhere or be any size that allows you to witness whatever you are seeing or doing? There is no limit to the amount or “size” of the buildings and mountains - or whatever - all fits quite nicely in the picture, doesn't it?

Within the dream, do you understand that time and space equals zero? The only difference between a dream that seems to last a minute or two, and your current life stream of the here and now, is about a hundred years - and that aren't average, my friend!

4. Learn to control both worlds

Man lives in two worlds at the same time when you are separated from God Aton, the INVISIBLE world and the VISIBLE one. Your invisible body is the real “you”; your visible body of flesh, blood, bone and brain is the thing you use as a tool to get around in the compressed physical world. This physical world is the place where time and space are manifested by God Aton to give you an environment where you can act out your intentions. Good intentions or bad, man was given Free Will Choice to see what he would do with that AND to LEARN HOW TO BE LIKE GOD ATON; for when you do come back home, you will KNOW FROM EXPERIENCES - AND CONSEQUENCES FROM THOSE EXPERIENCES - the difference between right and wrong. You see, God Aton is not a mystery. Man, in an attempt to rule over his fellow man, creates the complex and convoluted explanations; that way he gets to be the greedy

pastor or priest.

You need no one to tell you right from wrong. God Aton gave every soul birthed (We will not get into Replicas and Synthetic “clones”, as you erroneously label the process of DNA/RNA REPLICATION, at this moment, but we will cover it shortly, for it is imperative that man knows what bad boys the CIA have been in this field of covert research!) the ability and the knowingness to discern what is “good” and what you should not do because it is “bad”.

For example: A child sneaks a cookie from the cookie jar because it knows it may spoil his dinner, or whatever, but the soul KNOWS it is an error in judgement. The same with murder, the soul - YOUR SOUL - will not let you get away with killing someone. YOU know it is an error in judgment. There are all varying degrees of “error”; all crimes and transgressions are not the same. HOWEVER, GOD ATON HAS CAPABILITY OF DISCERNING INTENT. JUDGMENT DAY IS RESERVED FOR GOD ATON AND YOU ALONE (but some of us will sort of be there to help you out). Remember Jesus on the cross? “Forgive them Father for they know not what they do.” The Christ, however, did not come to Earth to remove ANYONE’S sins (errors). He merely came to be an example, to show man THE WAY, and to prove to you that there is no such thing as death. No more and no less.

5. Time

I am aware of the problem. It is an understanding of time. I will attempt to instruct as to the nature of time. It is not very simple, I am sure, but it is very simple to me. Simply because I am aware of time in a different way than you are aware of time.

Time, my friends, is in your mind. There is only now, and there is only here. The reason that there appears to be a reciprocal nature between space and time in your world is because your world is, shall we say, designed to produce this illusion. It is an illusion necessary for certain catalytic actions that you enjoy in your present state for the purpose of your continued spiritual growth and evolution.

Time, however, is totally independent of space, and space is totally independent of time, for in truth they have no relationship - for in truth neither has meaning. There is one place, and there is one time. Therefore, there is no interdependent relationship between the two.

“Time” is simply a perception which allows for “experience”. It allows a “space” in which to choose an experience. Do you want to experience peace or do you want experience conflict? It is totally up to you which it will be. Christ is pulling for you to choose peace; Satan is calling to tempt you with lies that you might choose conflict. Only from conflict can the old dark one pull you down.

Time is duration between events of compression and expansion because at the wave amplitude there is stop in motion and reversal from compression to expansion! **At that point on the wave amplitude there is stop in motion when we perceive matter – the last compressing light ring**

before it starts its expansion journey. Time can be defined as duration between events!

Without thinking God's One Idea could not become many "one ideas" for His stage setting. Without motion His cosmic play could not be played, nor could its actors be. Without change His undivided One Idea could not unfold. Without time His drama of His own creating universe could have no sequences. Without motion, time, change and sequences the unfolding of God's Mind imaginings could have no measured space for its stage settings, no screen for its light projections.

Nature multiplies the time dimensions (Compression) of her light waves so that patterned records of forms which have expanded beyond Man’s range of sensing can come within that range, then **divides those time dimensions (Expansion)** until they again disappear into the other half of their cycle beyond Man’s range of sensing.

Perhaps you need a bit of definition regarding terms: Being without fear and darkness IS being in a state of Love and allowing. Fear is the other “pole” opposite Love. There are literally only two valid emotions. One is real - love; the other a mental illusion -fear. Love is true reality for it is oneness with God within; fear is something your mind has conjured up and is therefore unreal.

What you experience is your state of mind projected outward into action and response. If your state of mind is one of well-being, Love and peace, that is what you will project and therefore experience. If your state of mind is one filled and churning with doubts, fears and concerns, you will project that state outwardly and it will attract that which you envision and therefore will be your experiential reality.

All minds are joined and are simply ONE, just as ALL things are ultimately ONE - ONE! Therefore, what you perceive through your *physical senses* presents you with a most limited and distorted view of reality.

Your minds, however, function as if they were not one. The one that really does you in acts, and will produce if you allow it, through the ego and directs only scenarios of war, conflict and confusion. It further projects the illusion that you are separate from one another. Your true director, however, does not project illusions; it only extends truth and projects unity and joining.

Your mind is actually the director, producer, script-writer, film editor, cast, projectionist, audience and critic. Your mind, being limitless, has the capacity of changing the movie and everything about it at any time. Your mind has the power of making all decision. The ego portion of your mind acts as a heavy curtain which blocks you from reality. You can learn to direct your mind to open the curtain and reveal the light and truth and then the true mind can project alternative solutions for dealing with all the conjured up misperceptions. You never run out of alternatives - that is the biggest misperception foisted upon mankind for just when you think there are no more alternatives - there is another. It may not be suitable but alternatives are infinite. Which ones you choose is the testing.

Do not denounce yourself for conjuring up negative and far out alternatives - that simply means the mind is working without restraints - YOU simply must weed out the inappropriate alternatives. Further, if you practice making all decisions in love and according to the Laws of God and Creation, you shall always be in the choosing of the alternatives which present total integrity for nothing less will be acceptable.

Your senses tell you that there is such an effect as TIME. Your senses see day following night -event following event - one experience following another - your body growing old - flowers and forests rising from the earth and disappearing - but **your senses deceive you mightily because they are limited to seeing just a pinhole view of Nature.** If your senses could extend their range all around the cycle of any effect of motion, all things would seem to stand still - and time would not be because motion in one direction would be voided by the other direction. If you look out upon an extended landscape through a pinhole, it would seem to stand still, but if you move, it will also move. Your thinking does just that. You think one thought, then you think another stage of that IDEA. *It is the sequence of events in your thinking and God's thinking which creates the illusion of time.*

When your senses sleep, time also sleeps. It stands still. It ceases to be. If your senses could see the whole of the effect at once instead of a little of it at a time, you would never see sequences; hence, you could not experience the sensation of time. More than that, you could not even count beyond zero.

There is a backward flow to time which voids its forward flow. To exemplify my meaning, consider the flight of an airplane. Your senses see it going in one direction, but you do not see a black vacuous hole behind that plane which is as strong in one way as the flight of the plane is strong the other way. That invisible vacuous empty hole in space behind the plane would pull it backwards to a zero point between them if the motion of the plane could suddenly cease. **Every action in Nature is voided as it occurs, is repeated as it is voided, and is recorded as it is repeated.**

When God thinks at any one point of rest in His universe, that point becomes the center of an invisible cube of White Magnetic Light. From there it is harmonically repeated as cube centers throughout His Cosmic Kaleidoscope, at the rate of several hundred billions of cyclic pulsations every second THEIR SPEED OF EXTENSION INTO YOUR THREE DIMENSIONAL ILLUSION IS ABOUT 186.400 MILES PER SECOND

God's thinking is universal. His actions spring from His thinking, therefore, God's actions are universal. Thoughts do not take place just here, or there, where they begin. They are everywhere, and their beginning and ending are ONE. Actions, likewise, are as Omnipresent as their Source in Mind-thinking. *That which happens anywhere happens everywhere in this universe of naught but Mind-extension.*

You must come to know that the two extensions of God Aton Aton's recorded thinking are divided by the One

which centers the two, the One balancing the two, the One controlling the two. THE ONE IS NOT DIVIDED INTO TWO, AS PAIRS OF OPPOSITES OF THAT ONE. THAT ONE DIVIDES THE TWO EXTENSIONS OF HIS THINKING BUT HE IS NOT HIS THINKING - NOR IS HE TWO.

Idea has no extensions, but idea, divided by imagining, extends into an imaged infinity, and repeats its divisions like unto the infinity which the kaleidoscope repeats, and multiplies its imaginings as it repeats.

Extension of God's thinking speeds along with Light into your three dimensional illusion of about 186,400 miles per second.

Radical expansion of beginning points compress motion into cube planes of rest in space. These are reflecting mirrors of Magnetic Light which project God's thought-imaged-forms onto His universal screen of space to simulate a reality of existence where not anything is, not even the motion which so convincingly seems to be there.

Invisible cubes of Magnetic Light, and of zero curvature, are the boundings of wave-fields within which the curved universe of reflected spherical forms are projected to constitute this electric thought-wave universe of complex illusion.

God begins each electric thought-wave at a point of His White Light at the intersection of the three inner planes of the cube, which are at right angles to each other. This point of beginning is the wave fulcrum. It is also the point of idea-conception in Mind. It is the centering eye of the inert gas of the elements which springs from that plane. It is, likewise, the cathode center of man's electric current and the beginning of the wave-shaft which extends two ways to divide the red half of the spectrum from the blue, to create separated father and mother bodies. Here also is where time and all other dimensions begin, as well as all other effects, such as life, compression, polarization and heat. Here also is where all depolarizing dimensions and effects end and disappear into invisibility, silence, and cold stillness of space.

God creates three pairs of disunited male and female bodies upon His extending octave wave shaft - and then a united fourth pair at His thought-wave amplitude. This united, balanced pair is an incandescent sphere. At that point in the wave, and that only, the disunited father and mother unite as ONE at its white center. One of its hemispheres, however, is still the red light of the father and the other one is the blue light of the mother; for each is still extended from its centering Oneness.

The expanding universe concept could be true if revised in the following manner. Instead of one great cataclysm which caused one great ball of heat and flame all at one time in prehistoric times, substitute for it billions of microscopic heat producing balls for every cubic millimeter of this whole universe. These billions upon billions of atomic units come to life and end their life in death, for a duration of probably ten billionth of a second, but they have an accumulative

power in potential and mass which adds up into suns. These suns have one life-death frequency in fifty billion years. *Time divides and extends as mass multiplies and compresses.* Each of the billions of nebulae and suns in the heavens is one of those giant cataclysms which must divide itself and die a heat death. They split up into other fireballs which, in turn, die a heat death. All matter dies centrifugally dividing heat death, but it also lives centripetally multiplying heat life.

6. Quantum perception of time

Let me share the quantum nature and reality of time. Time is a field, like unto the electric field. But what is a field, my friends? A field is an effect. A field is in your minds. A field has different effects at different distances. So does time. Time and space are dependent, one upon another. They are totally independent, and have no relationship.

Both of these statements are true. It simply depends on your point of view. The people of our planet at present do not appreciate the number of dimensions that are available for one to experience the creation. All of these dimensions are made up of a single place and a single time, and, for that matter, a single dimension, which has no dimension. But it is necessary to go from where you are to where you will be. Therefore, I shall speak of time as you know it and try to lead you to that place where you will know it.

Time is a field. It is space-dependent. Space is a field and is time-dependent. Product of time and space is constant. For this reason you recognize a reciprocal nature. The relationship between the two is the third power [of] displacement in either. This may be recognized by a simple equation or formula. T^3 divided by 3 is equal to S^3 . S^3 divided by 3 is equal to T .

There are three dimensions: therefore, the numeral "3" is used, both as a power and as a constant. Permeability of the field is dependent upon the speed of the reciprocal field. Our present constant, that which we call the velocity of light, is the basic speed of the field. The permeability of that which you know as matter is dependent upon this constant. In other words, my friends, the densities of which your world is composed, and the densities of the other planes of existence as you know them, are time-dependent. Their permeability is a function of apparent speed.

Condensation in dense form results from oscillations between reciprocally related space/time entities and permeability, or the basic density of this material, is a function of the apparent velocity of what we call light. There are six spaces and six times in each density. In our present form and state of awareness we recognize three. The other three we travel in in the state of sleep. In doing this we become, quite often, mismatched with our awareness we possess in our waking state. For this reason we are able to perceive events that will occur in what is to us in the waking state the future. However, the future is an illusion, as is the past, for there is only the present. It is possible to slide, shall we say, along with respect to our awareness of time in the waking state simply by removing through the process of normal sleep the confines of the physical illusion. Space and

time are then, as before, reciprocally related.

It is a difficult subject upon which to speak, and will require considerable intellectual thought for you to apply or communicate to others within the present illusion. How can one reduce to a mathematics fabricated within a system of illusion a truth that is totally outside the boundaries of that system? It may be possible, however, to make certain statements regarding the relationships between space and time in any system that will help to guide an individual attempting to work within a limited system to understand the truth of the actions and the limits of that system of phenomena of time. It would, however, be much better to eliminate from the individual's consciousness preconceived notions of the nature of both time and space, for they are not what they seem to be, as depicted by their phenomena within the boundaries of our present limitations.

Space may be thought of as linear, if time is thought of as volumetric. Or we may reverse the process, as we do within our limitation, and consider space volumetric and time linear. Either is true. And either may be perceived to be true, depending upon the limitations of our thought. It is possible to move linearly in space and volumetrically in time, all with the same movement. We can be aware of what we call the past, the present, and the future, simultaneously.

Time is not so much time as it is space, and space is not so much space as it is time. They are one and the same thing, and yet they are reciprocally related. For is not $1/1=1$? For there is only one thing and we are all parts of it.

There are six dimensions, but we must speak of three. And time is a field, and radiates from each nucleus of matter in all directions and may be evaluated as $T = S^3/3$, where T is time and S is space.

It is a very difficult bridge to travel between a world of semantics and a place of being.

7. Conclusions

"Time" is simply a perception which allows for "experience". It allows a "space" in which to choose an experience.

Time is duration between events of compression and expansion because at the wave amplitude there is stop in motion and reversal from compression to expansion!

It is the sequence of events in your thinking and God's thinking which creates the illusion of time.

Time is a field. It is space-dependent. Space is a field and is time-dependent. Product of time and space is constant. The relationship between the two is the third power [of] displacement in either. This may be recognized by a simple equation or formula. T^3 divided by 3 is equal to S^3 . S^3 divided by 3 is equal to T .

creational principles and laws (unknown until now) and can apply them for the simple and efficient creations which make the basis for a new life quality on this planet.

I am a pioneer, creating with the New Conscious Energy and building a new civilization without electricity. I’ve developed the TESLA RADIATION BALANCER – the genuine product in form of a self-adhesive sticker certified by the Hado Life Institute of Dr. Masaru Emoto which 100% balances radiation from any device, if attached to it, protecting the human body and environment from its harmful effects and eliminating with time the damages already caused by the radiation. It can be successfully applied to: cell phones, computers, laptops, microwave ovens, cordless phones, tablets, wireless monitors, Wi-Fi routers, TV-sets, Radios, and any other source of radiation.

The upgraded version of the TRB is my QRB (Quantum Radiation Balancer) which is protection from any kind of negativities, including 5G, and is integrated in the product 5GBioshield – 5gbioshield.com.

Thanks to the consistent pursuit of my Leitmotif “The Authority of Truth rather than the Truth of Authority” I have experimentally proved the true atom, cell and particle “ATON” concept. According to the “ATON” concept, atoms, cells and particles are made of light which are spinning around the centering Mind (Spirit) points (the black holes). Nature expresses energy as electric potential in only one way, which is the same way both for the atomic and for the stellar scale: by projecting mentally the rings of visible light which are spinning around the centering Spirit points. This amazing beauty of creational simplicity is the basic fundamental truth of a new science that is based on the knowledge of the cause.

I wrote two books: “GOD IN THE ATOM” and “DODECA 101 LOVE ENERGY” which are available on my website.

I use to practice sport very gladly and am a unique tennis coach. Website: <http://www.teslastyle101.com>

Author Profile

I was born on August 6, 1950 in Grab, Montenegro (former Yugoslavia).

1982 – Acquired my PhD in the field of atomic and plasma physics, at the same Faculty, under the title: “Regularities and Systematic trends of Stark Width and Shift Parameters of Spectral Lines in Plasmas”.

1985 -1987 Spent two years as fellow of the Alexander von Humboldt Foundation from Bonn (Germany) at the University Düsseldorf developing plasma UV-spectroscopy at the tokamak UNITOR and performing measurements of the plasma instabilities in the scrape-off layer at the tokamak TEXTOR in Jülich (Germany).

1987 – 1991 Worked as the guest scientist at the Max-Planck-Institute for Plasma Physics in Garching by Munich (Germany) performing measurements of the magnetic field configuration at the stellarator W7AS as well as the measurements of the limiter heat load.

1991 – 2000 Was working in the Institute of Physics in Zemun (Serbia) on investigations of the plasma force-free configurations and in **1995 I acquired the Research Professor degree.**

2000 – At the end of 2000 I chose to leave the Institute of Physics and went on my own way to discover and learn the God Aton’s principles and laws of creation.

After 18 years of the progression toward that sacred goal, I finally succeeded and now I know many of the God Aton’s
